**Selected Essays of Nigel Harris** Nigel Harris, 2017-10-02 Nigel Harris's *Selected Essays From National Liberation to Globalisation* presents an encompassing

overview of the work of one of the most prolific and insightful Marxist economists of the second half of the twentieth century It starts off with a new interview in which Harris reflects on the development of his thought over the more than half a century separating the death of Stalin from the latest developments in globalisation and capitalist restructuring The collected essays deal with topics ranging from imperialism and the state to the political economy of development and migration and offer an ample selection from Harris s political journalism Together the work constitutes at once a personal journey through the history of the British revolutionary left and a trenchant commentary on some of the most fundamental problems facing a renewed Marxist theory     *The British National Bibliography* Arthur James Wells,1991     **Bibliographic Guide to Latin American Studies** Benson Latin American Collection,1981     *The Red Flag* David Priestland,2016-05-03 The best and the most accessible one volume history of communism now available A far reaching vividly written account Foreign Affairs In The Red Flag Oxford professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years from its birth after the French Revolution to its ideological maturity in nineteenth century Germany to its rise to dominance and subsequent fall in the twentieth century Beginning with the first modern Communists in the age of Robespierre Priestland examines the motives of thinkers and leaders including Marx Engels Lenin Stalin Castro Che Guevara Mao Ho Chi Minh Gorbachev and many others Priestland also shows how Communism in all its varieties appealed to different societies for different reasons in some as a response to inequalities and in others more out of a desire to catch up with the West But paradoxically while destroying one web of inequality Communist leaders were simultaneously weaving another It was this dynamic together with widespread economic failure and an escalating loss of faith in the system that ultimately destroyed Soviet Communism itself At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy The Red Flag is essential reading if we are to apply the lessons of the past to navigating the future Detailed and scholarly but written in lively prose this is a rich satisfying account of the most successful utopian political movement in history Publishers Weekly starred review     [Building States and Markets After Communism](#) Timothy Frye,2010-06-07 This book examines how democracy influences state building and market building in 25 post communist countries from 1990 to 2004     **International Election Monitoring, Sovereignty, and the Western Hemisphere** Arturo Santa-Cruz,2013-10-14 This book traces the process by which national elections became international events or more precisely what the effects of this process are on state sovereignty Contrary to the conventional wisdom in International Relations to judge by the neglect of this phenomenon in the literature this book argues that the study of IEM does not belong only in the field of comparative politics As a system wide phenomenon IEM should not be restricted to the study of purely domestic politics or of foreign policy This book contends that sovereignty has been partially transformed by the recent emergence of IEM Furthermore the author locates the origins of this change in the Americas claiming that the western hemisphere s normative structure what Santa Cruz calls the Western Hemisphere Idea WHI was particularly

conducive to this new understanding of state sovereignty This is the first work to engage the issue of IEM in a comprehensive manner from a theoretical perspective International Election Monitoring Sovereignty and the Western Hemisphere covers a broad and relevant scholarly literature and the cases comparisons widen the book s appeal since they illustrate a useful range of experience

**The Blackwell Dictionary of Modern Social Thought** William Outhwaite,2008-04-15 Modern social thought ranges widely from the social sciences to philosophy political theories and doctrines cultural ideas and movements and the influence of the natural sciences Provides an authoritative overview of the main themes of social thought Long essays and entries give full coverage to each topic Covers major currents of thought philosophical and cultural trends and the individual social sciences from anthropology to welfare economics New edition updates about 200 entries and includes new entries suggestions for further reading and a bibliography of all sources cited within the text

[Documents on the Genocide Convention from the American, British, and Russian Archives](#) Anton Weiss-Wendt,2018-09-20 This document collection highlights the legal challenges historical preconceptions and political undercurrents that had informed the UN Genocide Convention its form contents interpretation and application Featuring 436 documents from thirteen repositories in the United States the United Kingdom and Russia the collection is an essential resource for students and scholars working in the field of comparative genocide studies The selected records span the Cold War period and reflect on specific issues relevant to the Genocide Convention as established at the time by the parties concerned The types of documents reproduced in the collection include interoffice correspondence memorandums whitepapers guidelines for national delegations commissioned reports draft letters telegrams meeting minutes official and unofficial inquiries formal statements and newspaper and journal articles On a classification curve the featured records range from unrestricted to top secret Taken in the aggregate the documents reproduced in this collection suggest primacy of politics over humanitarian and or legal considerations in the UN Genocide Convention
