Germs, Seeds and Animals: Alfred W. Crosby, 2015-03-04 Alfred Crosby almost alone redirected the attention of historians to ecological issues that were important precisely because they were global In doing so he answered those who believed that world history had become impossible as a consequence of the post war proliferation of new historical specialties including not only ecological history but also new social histories areas studies histories of mentalities and popular cultures and studies of minorities majorities and ethnic groups In the introduction to this volume Professor Crosby recounts an intellectual path to ecological history that might stand as a

rationale for world history in general He simply decided to study the most pervasive and important aspects of human experience By focusing on human universals like death and disease his studies highlight the epidemic rather than the epiphenomenal

Notes of a Potato Watcher James Lang,2001 Native to the New World the potato was domesticated by Andean farmers probably in the Lake Titicaca basin almost as early as grain crops were cultivated in the Near East Full of essential vitamins and energy giving starch the potato has proved a valuable world resource Curious Spaniards took the potato back to Europe from whence it spread worldwide Today the largest potato producer is China with India not far behind To tell the potato s story Lang has done fieldwork in South America Asia and Africa Jacket

Social Europe Joe Bailey,2014-06-03 Since the first edition of *Social Europe* was published in 1992 profound social changes have occurred throughout Europe as a result of conflicting pressures on the one hand to become more integrated and on the other to protect national interests and identity This second edition of *Social Europe* has been fully revised to provide a comprehensive and focused account of basic social issues and structures which provide the context for these changes Each chapter covers a key topic such as education crime gender health and religion and provides valuable comparisons between the key nation states of Western Europe

Handbook of European History 1400-1600: Late Middle Ages, Renaissance and Reformation Thomas Brady,Oberman,James D. Tracy,2018-11-12 The Handbook of European History 1400 1600 brings together the best scholarship into an array of topical chapters that present current knowledge and thinking in ways useful to the specialist and accessible to students and to the educated non specialist Forty one leading scholars in this field of history present the state of knowledge about the grand themes main controversies and fruitful directions for research of European history in this era Volume 1 Structures and Assertions described the people lands religions and political structures which define the setting for this historical period Volume 2 Visions Programs Outcomes covers the early stages of the process by which newly established confessional structures began to work their way among the populace

The Relentless Revolution: A History of Capitalism Joyce Appleby,2011-03-07 The unlikely development of a potent historical force told with grace insight and authority by one of our best historians With its deep roots and global scope the capitalist system provides the framework for our lives It is a framework of constant change sometimes measured and predictable sometimes drastic and out of control Yet what is now ubiquitous was not always so Capitalism took shape centuries ago starting with a handful of isolated changes in farming trade and manufacturing clustered in early modern England Astute observers began to notice these changes and consider their effects Those in power began to harness these new practices to the state enhancing both A system generating wealth power and new ideas arose to reshape societies in a constant surge of change The centuries long history of capitalism is rich and eventful Approaching capitalism as a culture as important for its ideas and values as for its inventions and systems Joyce Appleby gives us a fascinating introduction to this most potent creation of mankind from its origins to now

Handbook of European Societies Stefan Immerfall,2009 European integration is one of the most ambitious

and socially far reaching developments in world politics and in world economics Against growing opposition and despite increasing social heterogeneity the European Union continues to expand and to acquire new competences But to what extent is the self proclaimed ever closer union among the peoples of Europe a social reality In which ways is the political European project anchored in social developments How does social change impinge upon political integration Societal trends in multi cultural multi ethnic multi lingual and socially diverse Europe have never been studied systematically Handbook of European Societies Social Transformations in the 21st Century sets to rectify this neglect of societal developments in Europe providing a groundwork for the sociology of European integration The book portrays social life and social relations in the enlarged Europe and gives a perspective on the European Union as an evolving social entity Handbook of European Societies is a pioneering source book analyzing the current social patterns on the continent It covers a representative selection of major topics of social concern and sociological relevance such as Collective Action Consumption Identity Power Structure Sexuality Stratification and Well being Each contribution probes key developments in a strictly comparative manner The Handbook thus offers a detailed look into the intricacies of the national societies of Europe and into the prospect of an emerging European society The Editors have enlisted leading researchers to synthesize existing knowledge and to make use of many different data sources in a straight forward style The contributions stay away from jargon simple labeling and sweeping assertions Instead they provide solid and accessible information on a wide variety of social trends and processes within and across European societies Retailing: The evolution and development of retailing A. M. Findlay, Leigh Sparks, 2002

Mainstreaming Ageing Asghar Zaidi, 2017-09-29 The Madrid International Plan of Action on Ageing MIPAA adopted at the Second World Assembly on Ageing is the first international agreement that specifically recognises the potential of older people to contribute to the development of their societies In monitoring its implementation two key approaches are evident a qualitative bottom up participatory approach and an approach that uses quantitative indicators to monitor sustainable progress and policies With the European Centre for Social Welfare Policy and Research playing a pivotal role in the monitoring of the implementation process one of its key tasks has been to develop a list of indicators of achievement This book contains extended and revised versions of policy briefs and background papers that support the implementation monitoring process The analyses included in these chapters make concrete suggestions towards quantitative indicators with the aim of assisting national governments in mainstreaming ageing in their policies The contributors provide an overview of the current situation with respect to population ageing and its consequences and also provide projections for the future The book also includes the final list of quantitative indicators that arose out of consultations with international experts related to the four main topics addressed demography income and wealth labour market participation and social protection and financial sustainability **Principles of Environmental Sciences** Jan J. Boersema, Lucas Reijnders, 2008-12-12 International experts provide a comprehensive picture of the principles concepts and methods that are applicable to

problems originating from the interaction between the living non living environment and mankind Both the analysis of such problems and the way solutions to environmental problems may work in specific societal contexts are addressed Disciplinary approaches are discussed but there is a focus on multi and interdisciplinary methods A large number of practical examples and case studies are presented There is special emphasis on modelling and integrated assessment This book is different because it stresses the societal cultural and historical dimensions of environmental problems The main objective is to improve the ability to analyse and conceptualise environmental problems in context and to make readers aware of the value and scope of different methods Ideal as a course text for students this book will also be of interest to researchers and consultants in the environmental sciences

History of Europe Rowan Allen & Denny Rose, 2018-03-28 History of Europe describes the history of humans inhabiting the European continent since it was first populated in prehistoric times to present with the first human settlement between 45 000 and 25 000 BC Europe is the world s second smallest continent by surface area covering about 10 180 000 square kilometers 3 930 000 sq mi or 2% of the Earth s surface and about 6 8% of its land area The history of Europe covers the peoples inhabiting Europe from prehistory to the present The period known as classical antiquity began with the emergence of the city states of ancient Greece Later the Roman Empire came to dominate the entire Mediterranean basin The fall of the Roman Empire in AD 476 traditionally marks the start of the middle ages Beginning in the 14th century a Renaissance of knowledge challenged traditional doctrines in science and theology Simultaneously the Protestant Reformation set up Protestant churches primarily in Germany Scandinavia and England After 1800 the Industrial Revolution brought prosperity to Britain and Western Europe The main powers set up colonies in most of the Americas and Africa and parts of Asia In the 20th century World War I and World War II resulted in massive numbers of deaths The Cold War dominated European geo politics from 1947 to 1989 Unification into a European Union moved forward after 1950 with some setbacks This book is primarily designed to cater to the needs of the students of various levels It will also be of immense help to those who are preparing for various state and central level competitive examinations

Legal Convergence in the Enlarged Europe of the New Millennium Paul L.C. Torremans, 2021-10-11 Three years ago the Faculty of Law and Administration of the University of Silesia and the Faculty of Law of the University of Leicester embarked on a joint research and academic co operation programme with the support of the British Council in Warsaw The programme resulted in the organisation of two academic conferences one in Leicester and one in Katowice This book is the tangible result of these conferences The content of the book reflects the wide ranging nature of the collaboration between the two Faculties Environmental law public international law intellectual and cultural property law are the main areas that are covered but certain issues of constitutional law European law social law company law and legal education are also addressed The main strength of this book is found in its breadth of coverage and the detailed examination of key issues such as the rights of minorities the transboundary movement of waste in Europe and the environmental problems which it creates the theft and

illegal exportation of cultural property and the convergence of the droit d auteur and copyright traditions *Population and Development* W.T.S. Gould,2015-05-08 The new edition of *Population and Development* offers an up to date perspective on one of the critical issues at the heart of the problems of development for all countries and especially those that seek to implement major economic and social change the reflexive relationships between a country s population and its development How does population size distribution age structure and skill base affect development patterns and prospects How has global development been affected by regional population change Retaining the structure of the well received first edition the book has been substantially revised and updated The opening chapters of the book establish the theoretical and historical basis for examining the basic reflexive relationship with exploration of the Malthusian perspective and its critics to examine how population change affects development and exploration of the Demographic Transition Model and its critics to examine how why and to what extent development drives population change These are followed by empirically rich chapters on each of the main components of population change mortality fertility internal and international migration age structures and skill base each elaborating key ideas with detailed and contrasting case studies from all regions of the developing world There are concluding and more integrative discussions on population policies and global population futures Bringing together Population Studies Development Studies and Geography the new edition of *Population and Development* is a key resource for undergraduate and postgraduate students across a range of programmes with specialist modules on population change There is a large bibliography with major new sections identifying a wide range of online resources for further study Each chapter contains a reading guide with discussion questions The text is enlivened by a number of case studies from around the world most of which are new or have been substantially revised Written by a leading international scholar in population the book successfully integrates cutting edge academic research with the focus and efforts of international development agencies

The European Culture Area Terry G. Jordan-Bychkov,Bella Bychkova Jordan,2002 Now in its fourth edition this leading text has been extensively revised to reflect the sweeping changes the past decade have brought to Europe and to incorporate new research in the field Employing a richly topical rather than a mechanistic region by region approach the book simultaneously presents the overarching unity of Europe as a human entity and its underlying internal diversity Inclusive intellectual rich in ideas lively controversial humanistic and above all interesting *The European Culture Area* is the text of choice for courses on the geography of Europe Visit our website for sample chapters *The Second Demographic*
