Europische Union Fr Dummies:

The Past, Present and Future of the European Union A. Deardorff, 2004-05-11 This volume collects selected papers on the European Union from the 13th Congress of the International Economic Association held in Lisbon September 2002 It starts with an address by Romano Prodi President of the European Commission who sets the tone for the other papers by describing and evaluating two of the greatest accomplishments of the EU economic and monetary union and EU enlargement Other authors deal in detail with various aspects of these and other issues using a mixture of theoretical empirical and other tools

The Reconceptualization of European Union Citizenship Elspeth Guild, Cristina Gortázar Rota, Dora Kostakopoulou, 2014-01-09 This book maps out from a variety of theoretical standpoints the challenges generated by European integration and EU citizenship for community membership belonging and polity making beyond the state It does so by focusing on three main issues of relevance for how EU citizenship has developed and its capacity to challenge state sovereignty and authority as the main loci of creating and delivering rights and protection First it looks at the relationship between citizenship of the Union and European identity and assesses how immigration and access to nationality in the Member States impact on the development of a common European identity Secondly it discusses how the idea of solidarity interacts with the boundaries of EU citizenship as constructed by the entitlement and capacity of mobile citizens to enjoy equality and social rights as EU citizens Thirdly the book engages with issues of EU citizenship and equality as the building blocks of the EU project By engaging with these themes this volume provides a topical and comprehensive account of the present and future development of Union citizenship and studies the collisions between the realisation of its constructive potential and Member State autonomy

The Enlarged European Union Peter Mair, Jan Zielonka, 2012-12-06 Focusing upon the emerging patterns of unity and diversity in the enlarged European Union this study explores enlargement from the East and the impact this will have on the future identity of Europe

Research Handbook on Legal Pluralism and EU Law Gareth Davies, Matej Avbelj, The Research Handbook on Legal Pluralism and EU Law explores the diversity of phenomenon of overlapping legal systems within the European Union the nature of their interactions and how they deal with the difficult question of the legal hierarchy between them The contributors reflect on the history sociology and legal scholarship on constitutional and legal pluralism and develop this further in the light of the challenges currently facing the EU

Domestic Contestation of the European Union Sara B. Hobolt, Toni Rodon, 2021-06-29 This book examines how Europe wide issues such as immigration cross national redistribution and further European integration have reshaped electoral democracy and party competition across Europe After decades of scholars and commentators bemoaning the limited politicization of the EU nationally European issues have come to dominate domestic electoral politics From the Eurozone crisis to the struggle of dealing with growing numbers of migrants and refugees entering Europe EU wide issues now occupy a salient part of the domestic political debate This book examines what drives public opinion towards some of the

key Europe wide issues of the day and how these EU issues shapes electoral behaviour and party competition It brings together leading scholars from different fields to explore what shapes preferences towards Europe wide policy issues how they influence electoral behaviour and party fortunes and what the implications are for the quality of European democracy Overall this book deepens our understanding of the state of European democracy domestically in an era in which national and Europe wide problems and policy solutions are inextricably linked The chapters in this book were originally published in the Journal of European Public Policy

Social Networks and Public Support for the European Union Elizabeth Radziszewski, 2013-11-26 Although political conversations on European integration are common they are not part of existing explanations for attitude formation on the EU This book examines the impact of social interactions specifically interpersonal and informal discussions on shaping individuals views on European integration Looking at opinion formation through the lens of social networks the author develops an innovative argument about the role that social networks play in delivering information and moulding individuals identities Including original survey data and an extended case study on Poland the book identifies three processes through which informal discussions could affect views on integration and shows that differences in discussion dynamics explain why some people change their opinions while other remain loyal to their views It shows that well connected leaders in small communities can use informal talks to ensure the spread of local ideas such as opposition to the EU even when such ideas are unpopular at the national level This book demonstrates that people who engage in informal talks about politics behave differently than those who are excluded from such interactions Social Networks and Public Support for the European Union will be of interest to students and scholars of European Union politics public opinion social networks political marketing deliberation Eastern Europe and comparative politics

The Prospect of Deep Free Trade Between the European Union and Ukraine Michael Emerson, 2006 This book examines the feasibility content and likely economic impact of a free trade agreement between the European Union and Ukraine The authors find that a simple and shallow free trade agreement adding only the elimination of tariffs on trade in goods to the conditions for Ukraine s accession to the WTO is the most easily feasible option but would yield only modest benefits for Ukraine and less still for the EU By contrast they argue that a deep free trade agreement with the EU while posing more difficult issues of feasibility could be a centerpiece of an economic strategy leading Ukraine into rapid growth Politically this step would be consistent with Ukraine s European choice and would also be of value to the EU economy in meeting the challenges of globalization and Asian competition Contributors include T Huw Edwards Loughborough University Ildar Gazizullin Vira Nanivska and Olga Shumylo International Centre for Policy Studies Kyiv Daniel M ller Jentsch European Commission World Bank Office for South East Europe Matthias L cke Kiel Institute for the World Economy Valeriy Pyatnytskiy First Deputy Minister of Economy and European Integration Ukraine Andreas Schneider CEPS Rainer Schweickert Kiel Institute for the World Economy and Olexandr Shevtsov United Nations Development Program Ukraine

The European Union , The

European Union Beyond the Polycrisis? Jonathan Zeitlin, Francesco Nicoli, 2020-06-09 The European Union beyond the Polycrisis explores the political dynamics of multiple crises faced by the EU both at European level and within the member states In so doing it provides a state of the art overview of current research on the relationship between politicization and European integration The book proposes that the EU s multi dimensional crisis can be seen as a multi level politics trap from which the Union is struggling to escape The individual contributions analyze the mechanisms of this trap its relationship to the multiple crises currently faced by the EU and the strategies pursued by a plurality of actors the Commission the European Parliament national governments to cope with its constraints Overall the book suggests that comprehensive grand bargains are for the moment out of reach although national and supranational actors can find ways of relaxing the politics trap and in so doing perhaps lay the foundations for more ambitious future solutions This book dedicated to the exploration of the political dynamics of multiple simultaneous crises offers an empirical and theoretical assessment of the existing political constraints on European integration Analysing domestic and European political reactions to the EU s polycrisis and assessing how EU institutions national governments and broader publics have responded to a new era of politicization The European Union beyond the Polycrisis will be of great interest to scholars of European politics and the EU as well as professionals working in EU institutions national administrations and European advocacy groups The chapters were originally published as a special issue of the Journal of European Public Policy

The European Union and the Asia-Pacific Natalia Chaban,Martin Holland,2008-05-22 A central problem for the European Union is said to be that of the politics of identity Within this the concept of the EU s international identity requires exploration in terms of how it is both constructed and represented globally To address this issue this book identifies measures and compares public awareness and perceptions of the EU within the Asia Pacific region It deals with the under researched issue of the public perception of the EU outside the Union and the role of the media in shaping such perceptions It builds on what has been described as the EU s communication deficit a phenomenon which has typically been explored as an internal EU dynamic but has yet to be applied to the EU s external relations The volume presents findings from a systematic research project designed to measure the EU s external communication deficit and to raise the level of its awareness in other regions through three perception levels The study of EU images in news mass media production A survey of general public perceptions and attitudes on the EU A survey of the elite perceptions of the EU Drawing on research from New Zealand Australia South Korea and Thailand this book will be of interest to students and researchers of politics communication studies European studies and Asian studies

The European Union and the Rise of Regionalist Parties Seth Kincaid Jolly,2015-08-27 Using a cross national quantitative study and a detailed case study of the pro independence

Scottish National Party demonstrates that supranational integration and subnational fragmentation are related in theoretical and predictable ways Posits that the EU makes smaller states more viable and politically attractive by diminishing the relative economic and political advantages of larger sized states **The Boundaries of the EU Internal Market**

Marja-Liisa Öberg, 2020-11-05 A comprehensive analysis of the legal constraints to third countries participation in the European Union's internal market *The European Union and Military Conflict Management* Annemarie Peen Rodt, 2014-04-16 This book provides the first comprehensive review of the European Union's role in military conflict management beyond its borders and makes an important contribution to debates on the EU's role in global security governance The EU has launched five military operations within the framework of its Common Security and Defence Policy with the explicit purpose to help manage violent conflicts beyond its borders This book develops a definition and a set of criteria for success in military conflict management and applies this new analytical framework in a comparative case study of the five EU military operations undertaken in Macedonia Bosnia and Herzegovina the Democratic Republic of Congo Chad and the Central African Republic Having evaluated their success the book goes on to explore the conditions under which military conflict management operations conducted by international organizations are successful and explores the implications of its findings for the future theory and practice of military conflict management The European Union and Military Conflict Management will be of interest to students and scholars of security studies conflict studies European Union politics and foreign policy and global security governance The Personalization of Politics in the European Union Katjana Gattermann, 2022 The personalization of politics whereby politicians increasingly become the main focus of political processes is a prominent phenomenon in modern democracies that has received considerable scholarly attention in national politics However little is known about the scope causes and consequences of personalization in European Union politics although recent institutional and political developments suggest that such a trend is underway This book sheds light onto this phenomenon by taking a comprehensive approach to understanding four key dimensions of personalization concerning institutions media politics and citizens In doing so it relies on an innovative longitudinal and cross country comparative research design and applies multiple methods It argues that institutional personalization is a necessary but not sufficient pre condition for media to increasingly report about individual politicians It shows that media personalization fluctuates across country and over time while Members of the European Parliament increasingly engage in personalized legislative and communicative behaviour These developments are conditional upon domestic media and electoral systems and have limited effects on citizen attitudes and political awareness The book concludes that as additional political actors gain formal individual responsibilities European Union politics also becomes more complex to disentangle Ultimately institutions provide more effective cues than individual politicians both for media to inform citizens about European Union politics and for the latter to acquire information that may help them understand and evaluate European Union politics These findings have

important implications for the future of personalized politics in the European Union
