Living Death in Medieval French and English Literature Jane Gilbert, 2011-02-17 Medieval literature contains many figures caught at the interface between life and death the dead return to place demands on the living while the living foresee organize or desire their own deaths Jane Gilbert's original study examines the ways in which certain medieval literary texts both English and French use these living dead to think about existential ethical and political issues In doing so she shows powerful connections between works otherwise seen as quite disparate including Chaucer's Book of the Duchess and Legend of Good Women the Chanson de Roland and the poems of Francois Villon Written for researchers and advanced students of medieval French and English literature this book provides original provocative interpretations of canonical medieval texts in the light of influential modern theories especially Lacanian psychoanalysis presented in an accessible and lively way

Retrospective Prophecy and Medieval English Authorship Kimberly Fonzo, 2022-01-27 The prescience of medieval English authors has long been a source of fascination to readers *Retrospective Prophecy and Medieval English Authorship* draws attention to the ways that misinterpreted proleptically added or dubiously attributed prognostications influenced the reputations of famed Middle English authors It illuminates the creative ways in which William Langland John Gower and Geoffrey Chaucer engaged with prophecy to cultivate their own identities and to speak to the problems of their age *Retrospective Prophecy and Medieval English Authorship* examines the prophetic reputations of these well known medieval authors whose fame made them especially subject to nationalist appropriation Kimberly Fonzo explains that retrospectively co-opting the prophetic voices of canonical authors aids those looking to excuse or endorse key events of national history by implying that they were destined to happen She challenges the reputations of Langland Gower and Chaucer as prophets of the Protestant Reformation Richard II's deposition and secular Humanism respectively This intellectual and critical assessment of medieval authors and their works successfully makes the case that prophecy emerged and recurred as an important theme in medieval authorial self representations

The Lily and the Thistle William Calin, 2014-01-01 In *The Lily and the Thistle* William Calin argues for a reconsideration of the French impact on medieval and renaissance Scottish literature Calin proposes that much of traditional medieval and early modern Scottish culture thought to be native to Scotland or primarily from England is in fact strikingly international and European By situating Scottish works in a broad intertextual context Calin reveals which French genres and modes were most popular in Scotland and why *The Lily and the*

Thistle provides appraisals of medieval narrative texts in the high courtly mode equivalent to the French *dit* amoureux comic didactic and satirical texts and Scots romance Special attention is accorded to texts composed originally in French such as the Arthurian *Roman de Fergus* as well as to the lyrics of Mary Queen of Scots and little known writers from the French and Scottish canons By considering both medieval and renaissance works Calin is able to observe shifts in taste and French influence over the centuries

Polyphony and the Modern Jonathan Fruoco,2021-05-10 Polyphony and the Modern asks one fundamental question what does it mean to be modern in one s own time To answer that question this volume focuses on polyphony as an index of modernity In The Principle of Hope Ernst Bloch showed that each moment in time is potentially fractured people living in the same country can effectively live in different centuries some making their alliances with the past and others betting on the future but all of them at least technically enclosed in the temporal moment But can a claim of modernity also mean something more ambitious Can an artist by accident or design escape the limits of his or her own time and somehow precociously embody the outlook of a subsequent age This book sees polyphony as a bridge providing a terminology and a stylistic practice by which the period barrier between Medieval and Early Modern can be breached Chapter 1 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license available at <https://www.taylorfrancis.com/books/edit/10.4324/9781003129837>

The Writer's Gift or the Patron's Pleasure? Deborah McGrady, 2019-01-02 The Writer s Gift or the Patron s Pleasure introduces a new approach to literary patronage through a reassessment of the medieval paragon of literary sponsorship Charles V of France Traditionally celebrated for his book commissions that promoted the vernacular Charles V also deserves credit for having profoundly altered the literary economy when bypassing the traditional system of acquiring books through gifting to favor the commission When upturning literary dynamics by soliciting works to satisfy his stated desires the king triggered a multi generational literary debate concerned with the effect a work s status as a solicited or unsolicited text had in determining the value and purpose of the literary enterprise Treating first the king s commissioned writers and then canonical French late medieval authors Deborah McGrady argues that continued discussion of these competing literary economies engendered the concept of the writer s gift which vernacular writers used to claim a distinctive role in society based on their triple gift of knowledge wisdom and literary talent
