Byzantine Women Lynda Garland,2017-10-19 This volume brings together a group of international scholars who explore many unusual aspects of the world of Byzantine women in the period 800 1200 The specific aim of this collection is to investigate the participation of women non imperial women in particular in supposedly masculine fields of operation This new research across a range of disciplines attempts to provide an analysis of the activities of and attitudes towards Byzantine women in this period Using evidence from sources as diverse as tax registers monastic foundation documents twelfth century novels historical texts art history and the writings of women themselves such as the

hymnographer Kassia and the historian Anna Komnene these papers elucidate the context in which Byzantine women lived. They emphasize the variety of female experiences, the circumstances that shaped women's lives, and the ways in which individual women were perceived by their society. Contributions focus on women's dress, their participation in the street life of Constantinople, their appearance in Byzantine fiscal documents, their monastic foundations, their engagement with entertainment at the imperial court, and the way heroines are portrayed in the Byzantine novels. Analysis of the writings of the hymnographer Kassia, the networking of Mary of Alania, and the ways she overcame the disadvantages of being a foreign-born empress and the family values reflected in Anna Komnene's *Alexiad* draw attention to specific problems. All these aim to expand our understanding of the circumstances that shaped women's lives and expectations in the Middle Byzantine period and to analyze the range of women's experiences, the roles they played, and the impact they made on society.

Byzantine Intersectionality Roland Betancourt, 2020-10-06 Intersectionality, a term coined in 1989, is rapidly increasing in importance within the academy as well as in broader civic conversations. It describes the study of overlapping or intersecting social identities such as race, gender, ethnicity, nationality, and sexual orientation alongside related systems of oppression, domination, and discrimination. Together, these frameworks are used to understand how systematic injustice or social inequality occurs. In this book, Roland Betancourt examines the presence of marginalized identities and intersectionality in the medieval era. He reveals the fascinating little-examined conversations in medieval thought and visual culture around matters of sexual and reproductive consent, bullying, non-monogamous marriages, homosocial and homoerotic relationships, trans, and non-binary gender identifications, representations of disability, and the oppression of minorities. In contrast to contemporary expectations of the medieval world, this book looks at these problems from the Byzantine Empire and its neighbors in the eastern Mediterranean through sources ranging from late antiquity and early Christianity up to the early modern period. In each of five chapters, Betancourt provides short, carefully scaled narratives used to illuminate nuanced and surprising takes on now-familiar subjects by medieval thinkers and artists. For example, Betancourt examines depictions of sexual consent in images of the Virgin, the origins of sexual shaming and bullying in the story of Empress Theodora, early beginnings of trans history as told in the lives of saints who lived portions of their lives within different genders, and the ways in which medieval authors understood and depicted disabilities. Deeply researched, this is a groundbreaking new look at medieval culture for a new generation of scholars.

Dreaming in Byzantium and Beyond George T. Calofonos, 2016-05-13 Although the actual dreaming experience of the Byzantines lies beyond our reach, the remarkable number of dream narratives in the surviving sources of the period attests to the cardinal function of dreams as vehicles of meaning, and thus affords modern scholars access to the wider cultural fabric of symbolic representations of the Byzantine world. Whether recounting real or invented dreams, the narratives serve various purposes such as political and religious agendas, personal aspirations, or simply an author's display of literary skill. It is only in recent years that Byzantine dreaming has attracted scholarly attention and important

publications have suggested the way in which Byzantines reshaped ancient interpretative models and applied new perceptions to the functions of dreams This book the first collection of studies on Byzantine dreams to be published aims to demonstrate further the importance of closely examining dreams in Byzantium in their wider historical and cultural as well as narrative context Linked by this common thread the essays offer insights into the function of dreams in hagiography historiography rhetoric epistolography and romance They explore gender and erotic aspects of dreams they examine cross cultural facets of dreaming provide new readings and contextualize specific cases they also look at the Greco Roman background and Islamic influences of Byzantine dreams and their Christianization The volume provides a broad variety of perspectives including those of psychoanalysis and anthropology **Thesaurus Linguae Graecae** Maria C.

Epistolary Poetry in Byzantium and Beyond Krystina Kubina,Alexander Riehle,2021-05-04 Letters were an important medium of everyday communication in the ancient Mediterranean Soon after its emergence the epistolary form was adopted by educated elites and transformed into a literary genre which developed distinctive markers and was used for instance to give political advice to convey philosophical ideas or to establish and foster ties with peers A particular type of this genre is the letter cast in verse or epistolary poem which merges the form and function of the letter with stylistic elements of poetry In Greek literature epistolary poetry is first safely attested in the fourth century AD and would enjoy a lasting presence throughout the Byzantine and early modern periods The present volume introduces the reader to this hitherto unexplored chapter of post classical Greek literature through an anthology of exemplary epistolary poems in the original Greek with

facing English translation This collection which covers a broad chronological range from late antique epigrams of the Greek Anthology to the poetry of western humanists is accompanied by exegetical commentaries on the anthologized texts and by critical essays discussing questions of genre literary composition and historical and social contexts of selected epistolary poems Chapters 3 and 4 of this book are freely available as a downloadable Open Access PDF under a Creative Commons Attribution CC BY 4.0 license available at <https://www.taylorfrancis.com/books/10.4324/9780429288296> **Fountains and Water Culture in Byzantium** Brooke Shilling, Paul Stephenson, 2016-10-13 This book restores the fountains of Roman Byzantium Byzantine Constantinople and Ottoman Istanbul reviving the sounds shapes smells and sights of past water cultures Constantinople the capital of the Byzantine and Ottoman Empires is surrounded on three sides by sea and has no major river to deliver clean potable water However the cultures that thrived in this remarkable waterscape through millennia have developed and sustained diverse water cultures and a water delivery system that has supported countless fountains some of which survive today Scholars address the delivery system that conveyed and stored water and the fountains large and small from which it gushed Papers consider spring water rainwater and seawater water suitable for drinking bathing and baptism and fountains real imagined and symbolic Experts in the history of art and culture archaeology and theology and poetry and prose offer reflections on water and fountains across two millennia in one location **Reading in the Byzantine Empire and Beyond** Teresa Shawcross, Ida Toth, 2018-10-04 Offering a comprehensive introduction to the history of books readers and reading in the Byzantine Empire and its sphere of influence this volume addresses a paradox Advanced literacy was rare among imperial citizens being restricted by gender and class Yet the state's economic religious and political institutions insisted on the fundamental importance of the written record Starting from the materiality of codices documents and inscriptions the volume's contributors draw attention to the evidence for a range of interactions with texts They examine the role of authors compilers and scribes They look at practices such as the close perusal of texts in order to produce excerpts notes commentaries and editions But they also analyse the social implications of the constant intersection of writing with both image and speech Showcasing current methodological approaches this collection of essays aims to place a discussion of Byzantium within the mainstream of medieval textual studies **From Byzantium to Modern Greece** Roderick Beaton, 2024-12-11 The twelfth century was a time of cultural renewal and innovation in Byzantium just as it was in the west In literature the long disused genres of epic satire and the novel or romance took new forms during that century at the same time in language the vernacular made its first tentative literary appearances These developments continued uninterrupted through the late Byzantine and early modern periods Scholarship since the nineteenth century has been sharply divided over these texts do they represent the first breakthrough of an emergent Modern Greek literature or merely a footnote to the Byzantine learned tradition What in particular do they have to tell us about the collective self definition of the Greek speakers who wrote them roughly during the period 1100-1600 And how has their subsequent

reception contributed to defining and consolidating the national identity of the Modern Greeks since the nation state was established in the 1820s The papers collected in this book explore the relation between literary texts and collective consciousness scrutinizing the evidence of the texts themselves in their late or post Byzantine context and assessing how their reception both influenced and was influenced by the processes of nation building in Modern Greece

Ecologizing Late Ancient and Byzantine Worlds Laura Borghetti, Thomas Arentzen, 2025-07-10 How can we study the late ancient and Byzantine history from ecological perspectives How might one grapple with the more than human in sources and media created by humans Exploring the diverse ways in which pre modern texts engaged with the broader natural world this book presents scholarly ventures into the terrains of the past From the ancient treatises on dreams to monastic tales from the Hexameron literature to the Byzantine romance from the Exeter Book to a mysterious Byzantine icon the chapters investigate a diverse range of literature and other sources uncovering intricate ecosystems of relationships The team of leading international experts behind the volume focuses on encounters between human and more than human beings They pay attention to the entanglement of multiple agencies that cut through texts and other meshes With insights from such theoretical traditions as ecocriticism new materialism and environmental humanities they re expose ancient media to the elements
