Evaluating Research in Speech Pathology and Audiology Ira M. Ventry, Nicholas Schiavetti, 1986 *Research Design and Evaluation in Speech-language Pathology and Audiology* Franklin H. Silverman, 1998 Interpret them This book reflects this change in emphasis Written as a professional book for speech language pathologists and audiologists it will enable them to document the impacts of intervention on their clients in ways that medical insurance programs and public school administrators are likely to regard as being both scientific and valid *Clinical Research Methods in Speech-Language Pathology and Audiology, Fourth Edition* David L. Irwin, Jeremy J. Donai, 2024-06-26 With a new chapter on evaluating research articles the fourth edition of *Clinical Research Methods in Speech Language Pathology and Audiology* continues to be an essential resource for graduate students and clinicians seeking to understand the principles and methodologies involved with clinical research As the demand for evidence based practice continues to rise understanding how to conduct and evaluate research becomes increasingly important in ensuring quality care and professional accountability This text emphasizes how to effectively apply research to clinical practice and decision making processes Readers will also gain knowledge of the significance of research ethics and the ethical considerations involved With the utilization of discussion materials this text will facilitate learning and critical thinking among students as they engage with the material This edition includes information on how to critically review both quantitative and qualitative articles Current trends and updated examples from speech pathology and audiology literature will assist with real world research situations New to the Fourth Edition New co author Jeremy J Donai AuD PhD providing a fresh perspective New chapter on critically evaluating quantitative and qualitative research articles Examples regarding integration of citations into a literature review Key Features Chapters begin with an outline of covered topics and learning objectives End of chapter discussion questions aid students in applying concepts A comprehensive glossary allows students to easily find and define important terms Numerous references throughout including many ASHA and AAA Codes of Ethics *Research Design and Evaluation in Speech-language Pathology and Audiology* Franklin H. Silverman, 1985 KEY BENEFIT Almost all of the 60 000 speech language pathologists and audiologists in the United States now have to be able to document convincingly the positive impact of intervention on their clients if they are to be competitive for third party funding Most are not familiar with the research methodologies needed to do it in a way that funding agencies are highly likely to regard as being scientific objective competent and valid This book focuses on conducting and consuming clinical research By not assuming any prior knowledge of statistics this book teaches how to interpret and critically evaluate the data analyses and conclusions of studies in which

statistics are used It also summarizes the legal and ethical aspects of clinical research Additionally the widespread availability of software for computing statistics by issuing a command or two has resulted in a shift in emphasis from knowing how to compute statistics to knowing when to use the various statistics and how to appropriately interpret them This book reflects this change in emphasis Written as a professional book for speech language pathologists and audiologists it will enable them to document the impacts of intervention on their clients in ways that medical insurance programs and public school administrators are likely to regard as being both scientific and valid
