Evaluating For Good Practice:

Evaluating for Good Practice Angela Everitt, Pauline Hardiker, 1996-11-11 With the changing political economy of social welfare evaluation has become prevalent in the personal social services and voluntary sector organisations This text argues that rational technical and pluralist models of evaluation may collude with new managerialism to act as powerful processes of control Alternative critical models of evaluation which take account of power are explored so as to enable practitioners to take responsibility for evaluating practice both in order to inhibit poor or even corrupt practice and to promote good practice

Evaluation of the Information on Nutrition, Food Security and Resilience for Decision Making (INFORMED) Programme Food and Agriculture Organization of the United Nations ,2021-01-28 The INFORMED programme implemented by FAO from 2015 to 2019 was designed to contribute to increasing the resilience of livelihoods to threats and crises and contributing to the reduction of food insecurity and malnutrition The programme s increased focused on Early Warning for Early Action EWEA was very relevant to fill existing gaps with a comparative advantage for FAO in slow onset and food chain crises contexts Promoting the use of pre agreed plans and pre identified anticipatory actions the project effectively improved risk analysis and decision making including through the Global Report on Food Crises and increased access to appropriate financing instruments while the EWEA country toolkit initial positive spinoffs remain to be built on Efforts to support resilience measurement and analyses by applying the resilience index measurement and analysis RIMA methodology are relevant given the significant investments in resilience programming and the continuing methodological gaps However although RIMA provides a basis for creating evidence on resilience investments and FAO has been an important pioneer in resilience measurement a wider system supporting resilience analysis is needed based on a range of methodologies responding to the information needs of decision makers Also RIMA baseline lacks sufficient detail to allow articulating the feasibility of possible response options and have a practical impact on planning decisions it has not demonstrated its added value over pre existing food security nutrition and risk indicators to help target interventions and is not well adapted as an impact evaluation tool Assessing INFORMED results against its intention to support knowledge production and sharing to promote the replication of good practices and circular learning the evaluation questioned the choice of creating a new knowledge management platform versus adopting a collaborative approach building on similar initiatives strengths Poor strategic choices represented a fundamental constraint to reach intended objectives such as an insufficient understanding of users explaining the difficulty to trace the uptake and use of knowledge products Nevertheless the evaluation recognized the progressive investments in knowledge management and sizeable accomplishments of a relatively small team The evaluation suggests strengthening capacities for the production and dissemination of forecast scenario based early warning as a basis for early action developing a corporate strategy for partnering to strengthen early warning system capacities at various levels promoting the use of a toolkit of approaches and investing in a knowledge management function dedicated to capturing and disseminating lessons on the effectiveness of EWEA and resilience interventions

Optical and SAR Remote Sensing of Urban Areas Courage Kamusoko,2021-12-02 This book introduces remotely sensed image processing for urban areas using optical and synthetic aperture radar SAR data and assists students researchers and remote sensing practitioners who are interested in land cover mapping using such data There are many

introductory and advanced books on optical and SAR remote sensing image processing but most of them do not serve as good practical guides. However, this book is designed as a practical guide and a hands-on workbook where users can explore data and methods to improve their land cover mapping skills for urban areas. Although there are many freely available earth observation data, the focus is on land cover mapping using Sentinel-1 C-band SAR and Sentinel-2 data. All remotely sensed image processing and classification procedures are based on open-source software applications such as QGIS and R as well as cloud-based platforms such as Google Earth Engine (GEE). The book is organized into six chapters. Chapter 1 introduces geospatial machine learning and Chapter 2 covers exploratory image analysis and transformation. Chapters 3 and 4 focus on mapping urban land cover using multi-seasonal Sentinel-2 imagery and multi-seasonal Sentinel-1 imagery respectively. Chapter 5 discusses mapping urban land cover using multi-seasonal Sentinel-1 and Sentinel-2 imagery as well as other derived data such as spectral and texture indices. Chapter 6 concludes the book with land cover classification accuracy assessment.

Evaluation Systems in Development Co-operation 2023 OECD, 2023-12-15. Drawing on the experiences of the members and observer organisations of the Development Assistance Committee Network on Development Evaluation (EVALNET), this study provides a snapshot of the core elements and ways of working within development evaluation systems. It offers insight to development co-operation organisations as they seek to establish or strengthen credible evaluation systems of their own to support learning and accountability. *OECD Reviews of Evaluation and Assessment in Education Synergies for Better Learning: An International Perspective on Evaluation and Assessment* OECD, 2013-04-11. R., 2015-12-15. Methods and practice for the impact evaluation of policy-oriented research. POR lag behind many other research sectors such as agricultural technology research, making it difficult to prioritize investments in POR and retarding institutional learning about how to make POR more effective. To address these issues within the context of the CGIAR, a workshop on Best Practice Methods for Assessing the Impact of Policy-Oriented Research was cosponsored by the International Food Policy Research Institute (IFPRI), the CGIAR Research Program on Policies, Institutions and Markets (PIM) and the Standing Panel for Impact Assessment (SPIA) of the CGIAR's Independent Science and Partnership Council (ISPC) and held at IFPRI headquarters in Washington DC, November 11-12, 2014. This paper provides a summary of the workshop discussions and draws on this together with findings from the literature to derive guidelines for assessing policy-oriented research in the CGIAR. **Evaluating and Valuing in Social Research** Thomas A. Schwandt, Emily F. Gates, 2021-10-12. This book offers conceptual and practical guidance to social researchers and evaluators who intend to navigate the tangled and complicated terrain of values, valuing and evaluating. We focus on understanding how these phenomena and associated

practices are at work in social research what investigators can and should do in dealing with such matters and how their actions relate to longstanding concerns about objectivity impartiality the nature and use of evidence and the purpose s of applied social research Our primary aim is to help researchers become more explicit about values valuing and evaluative judgments in their practices and to refine their capacity to engage in deliberative argumentation guided by standards of reasonableness

Sensory Evaluation of Food: Principles and Practices Harry T. Lawless,Hildegard Heymann,1999-08-31 The book is designed as a text for undergraduate and graduate courses in sensory evaluation and as a reference for industrial practitioners It covers all the basic techniques of sensory testing from simple discrimination tests to home use placements for consumers It provides a practical guide to how tests are conducted and for the reader who wishes a deeper understanding provides the fundamental psychological and statistical theories that form the basis and rationale for sensory test design Statistics used in sensory evaluation are demonstrated as integrated applications in the context of

appropriate sensory methods and are also presented as a stand alone material in appendixes Statistical applications are tailored to common and relevance are obvious and space is not wasted on designs or analyses that are not suitable for data collection from human observers The text presents divergent philosophies in a balanced manner Chapters are constructed so that beginning students who want only practical aspects of conducting sensory tests will find clear instructions on how tests should be conducted Advanced students and practitioners will profit from the detailed section on rationale and sensory evaluation issues It covers the entire spectrum of sensory analysis I have read many books on this intriguing subject but this is the Rolls Royce a Aubrey Parsons governing council member International Union for Food Science and Technology

Lawrence,2013-06-03 Offers solutions and best practices to respond to recurrent problems and contemporary challenges in the field Since the publication of the first edition of Environmental Impact Assessment in 2003 both the practice and theory of impact assessment have changed substantially Not only has the field been subject to a great deal of new regulations and guidelines it has also evolved tremendously with a greater emphasis on strategic environmental sustainability and human health impact assessments Moreover there is a greater call for impact assessments from a global perspective This Second Edition now titled Impact Assessment to reflect its broader scope and the breadth of these many changes offers students and practitioners a current guide to today s impact assessment practice Impact Assessment begins with an introduction and then a chapter reviewing conventional approaches to the field Next the book is organized around recurrent problems and contemporary challenges in impact assessment process design and management enabling readers to quickly find the material they need to solve tough problems including How to make impact assessments more influential rigorous rational substantive practical democratic collaborative ethical and adaptive How each problem and challenge reducing process would operate at the regulatory and applied levels How each problem can be approached for different impact assessment types sustainability assessment strategic environmental assessment project level EIA social impact assessment ecological impact assessment and health impact assessment How to link and combine impact assessment processes to operate in situations with multiple overlapping problems challenges and impact assessment types How to connect and combine impact assessment processes Each chapter first addresses the topic with current theory and then demonstrates how that theory is applied presenting requirements guidelines and best practices Summaries at the end of each chapter provide a handy tool for structuring the design and evaluation of impact assessment processes and documents Readers will find analyses and new case studies that address such issues as multi jurisdictional impact assessment climate change cumulative effects assessment follow up

capacity building interpreting significance and the siting of major industrial and waste facilities Reflecting current theory and standards of practice Impact Assessment is appropriate for both students and practitioners in the field enabling them to confidently respond to a myriad of new challenges in the field Quantitative Models for Performance Evaluation and Benchmarking Joe Zhu, 2013-03-09 Managers are often under great pressure to improve the performance of their organizations To improve performance one needs to constantly evaluate operations or processes related to producing products providing services and marketing and selling products Performance evaluation and benchmarking are a widely used method to identify and adopt best practices as a means to improve performance and increase productivity and are particularly valuable when no objective or engineered standard is available to define efficient and effective performance For this reason benchmarking is often used in managing service operations because service standards benchmarks are more difficult to define than manufacturing standards Benchmarks can be established but they are somewhat limited as they work with single measurements one at a time It is difficult to evaluate an organization's performance when there are multiple inputs and outputs to the system The difficulties are further enhanced when the relationships between the inputs and the outputs are complex and involve unknown tradeoffs It is critical to show benchmarks where multiple measurements exist The current book introduces the methodology of data envelopment analysis DEA and its uses in performance evaluation and benchmarking under the context of multiple performance measures Evaluating the Impact of Development Projects on Poverty Judy L. Baker, 2000 Despite the billions of dollars spent on development assistance each year there is still very little known about the actual impact of projects on the poor There is broad evidence on the benefits of economic growth investments in human capital and the provision of safety nets for the poor But for a specific program or project in a given country is the intervention producing the intended benefits and what was the overall impact on the population Could the program or project be better designed to achieve the intended outcomes Are resources being spent efficiently These are the types of questions that can only be answered through an impact evaluation an approach which measures the outcomes of a program intervention in isolation of other possible factors This handbook seeks to provide project managers and policy analysts with the tools needed for evaluating project impact It is aimed at readers with a general knowledge of statistics For some of the more in depth statistical methods discussed the reader is referred to the technical literature on the topic Chapter 1 presents an overview of concepts and methods Chapter 2 discusses key steps and related issues to consider in implementation Chapter 3 illustrates various analytical techniques through a case study Chapter 4 includes a discussion of lessons learned from a rich set of good practice evaluations of poverty projects which have been reviewed for this handbook
