Facilitating Evaluation Michael Quinn Patton,2017-10-23 Michael

Quinn Patton's *Facilitating Evaluation: Principles in Practice* is the first book of its kind to explain in depth and detail how to facilitate evaluation processes with stakeholders. Using the author's own stories of his experiences as an evaluation facilitator, the book illustrates the five evaluation facilitation principles that are the organizing framework for addressing how to work with stakeholders to generate evaluation questions, make decisions among methods, interpret findings, and participate in all aspects of evaluation. Ultimately, this book will help readers perform facilitation to enhance the relevance, credibility, meaningfulness, and utility of evaluations. A must read for anyone considering a high impact evaluation. Margaret Lombe, Boston College

Critical Systems Thinking Michael C. Jackson, 2024-06-25 Understand the full range of systems approaches and how to use them with this innovative overview. Leaders and managers face increasing complexity and uncertainty because technical, organizational, socio-cultural, political, and environmental issues have become intensely interconnected. Systems thinking is recognized as the essential competence for managing complexity. As the demand for systems thinking grows, however, the fragmentation of the field into different methodologies has become a potential liability. Critical systems thinking (CST) shows how this diversity can be a strength rather than a weakness by revealing how different systems methodologies address various aspects of complexity and how they can be used in combination to resolve the messiest of wicked problems. Critical Systems Thinking offers in a single volume an account of the value of systems thinking and CST in the modern world, an explanation of the pragmatic philosophy and expansion in mindset necessary to embrace CST, and detailed instructions on how to undertake critical systems practice (CSP) using the variety of systems approaches to navigate multi-dimensional complexity. Readers will find: An accessible introduction to systems thinking and CST; A description and critique of the best known systems methodologies; A guide to the mindset changes the steps required and the toolkit necessary to undertake successful CSP; Case studies and examples of CSP; A discussion of the nature of systemic leadership. Critical Systems Thinking is ideal for leaders and managers in government, business, the public sector, the professions, and beyond who want to understand the potential of systems thinking and use it in their work. It is essential for systems researchers and practitioners who want a deeper understanding of the field.

Introduction to Theory-Driven Program Evaluation Stewart I. Donaldson, 2021-09-30 *Introduction to Theory-Driven Program Evaluation* provides a clear guide for practicing evaluation science and numerous examples of how these evaluations actually unfold in contemporary practice. A special emphasis is placed on how to conduct theory-driven program evaluations that are culturally responsive and strengths-focused. In this thoroughly revised new edition, author Stewart I. Donaldson provides a state-of-the-art treatment of the basics of conducting theory-driven program evaluations. Each case follows a three-step model: developing program impact theory, formulating and prioritizing evaluation questions, and answering evaluation questions. The initial chapters discuss the evolution and popularity of theory-driven program evaluation as well as a step-by-step guide for culturally responsive and strengths-focused applications. Succeeding chapters provide actual cases and discuss the practical implications of theory.

driven evaluation science Reflections challenges and lessons learned across numerous cases from practices are discussed The volume is of significant value to practicing evaluators professors of introductory evaluation courses and their students advanced undergraduate and graduate students and serves as a text or a supplementary text for a wide range of evaluation and applied research courses It is also of great interest to those interested in the connections between work and health well being career development human service organizations and organizational improvement and effectiveness **Practicing**
