Evaluation For Foundations Concepts Cases Guidelines And Resources:

Evaluation for Foundations Council on Foundations, 1993-05-04 Shows how foundations can use evaluation to strengthen their own and their grantees programs Introduces the concept of evaluation and offers practical how to advice for foundations interested in or beginning to formulate a strategy for evaluation Part one describes the issues a foundation should consider and provides guidance for developing an evaluation plan and interpreting evaluation results Part two uses nine case studies to illustrate how real foundations faced with choices for evaluating projects or programs made those choices what kinds of evaluations were conducted by whom and what they found and what the foundations and others thought of the results The conclusion distills from the case studies thirty five keys to effective evaluating for foundations Includes a glossary of terms and an annotated bibliography *Foundations and Evaluation* Marc T. Braverman, Norman A. Constantine, Jana Kay Slater, 2004-07-29 Gathered together in this unique book on evaluation and effective foundation practice are the experienced based perspectives and measured insights of both seasoned practitioners and key philanthropic thought leaders Foundations and Evaluation is a substantial think piece for grantmakers of any size Dorothy S Ridings president and CEO Council on Foundations Foundations and Evaluation explores the intersection between organizational effectiveness and evaluation and demonstrates the need for commitment to evaluation throughout the foundation A good read for both newcomers to evaluation and those with more experience written by some of the most highly respected leaders in the field Kathleen P Enright executive director Grantmakers for Effective Organizations Evaluation Theory, Models, and Applications Daniel L. Stufflebeam, Chris L. S. Coryn, 2014-09-26 The golden standard evaluation reference text Now in its second edition Evaluation Theory Models and Applications is the vital text on evaluation models perfect for classroom use as a textbook and as a professional evaluation reference The book begins with an overview of the evaluation field and program evaluation standards and proceeds to cover the most widely used evaluation approaches With new evaluation designs and the inclusion of the latest literature from the field this Second Edition is an essential update for professionals and students who want to stay current Understanding and choosing evaluation approaches is critical to many professions and Evaluation Theory Models and Applications Second Edition is the benchmark evaluation guide Authors Daniel L Stufflebeam and Chris L S Coryn widely considered experts in the evaluation field introduce and describe 23 program evaluation approaches including new to this edition transformative evaluation participatory evaluation consumer feedback and meta analysis Evaluation Theory Models and Applications Second Edition facilitates the process of planning conducting and assessing program evaluations The highlighted evaluation approaches include Experimental and quasi experimental design evaluations Daniel L Stufflebeam s CIPP Model Michael Scriven s Consumer Oriented Evaluation Michael Patton s Utilization Focused Evaluation Robert Stake s Responsive Stakeholder Centered Evaluation Case Study Evaluation Key readings listed at the end of each chapter direct readers to the most important references for each topic Learning objectives review

questions student exercises and instructor support materials complete the collection of tools Choosing from evaluation approaches can be an overwhelming process but Evaluation Theory Models and Applications Second Edition updates the core evaluation concepts with the latest research making this complex field accessible in just one book *Essentials of Utilization-Focused Evaluation* Michael Quinn Patton,2012 Provides both an overall framework and concrete advice for how to conduct useful evaluations that actually get used preface *Handbook for Continuous Improvement* Corporation for National Service (U.S.),1994 **Utilization-Focused Evaluation** Michael Quinn Patton,2008-06-18 The Fourth Edition of the bestselling Utilization Focused Evaluation provides expert detailed advice on conducting program evaluations from one of leading experts Chock full of useful pedagogy including a unique utilization focused evaluation checklist this book presents Michael Quinn Patton s distinctive opinions based on more than thirty years of experience Key Features of the Fourth Edition Provides thoroughly updated materials including more international content new references new exhibits and sidebars and new examples stories and cartoons Includes follow up exercises at the end of each chapter Features a utilization focused evaluation checklist Gives greater emphasis on mixed methods Analyzes the pluses and minuses of the increased emphasis on accountability and performance measurement in government at all levels Details the explosion of international evaluation Intended Audience Both theoretical and practical this core text is an essential resource for students enrolled in Program Evaluation courses in a variety of disciplines including public administration government social sciences education and management Practitioners will also find this text invaluable *Philanthropic Foundations* Ellen Condliffe Lagemann,1999-07-22 Foundations are socially and politically significant but this simple fact has mostly been ignored by students of American history This collection represents an important contribution to an emerging field Kenneth Prewitt Social Science Research Council *Effective Fund-Raising Management* Kathleen S. Kelly,2012-12-06 In a ground breaking departure from existing works almost all of which are how to manuals based on anecdotal evidence this is the first academic textbook on fund raising By integrating practical knowledge with social science theory and research it presents a comprehensive approach to the function from its legal and ethical principles to the managerial process by which gifts are raised Territory previously uncharted in the literature is explored such as the historical and organizational contexts of contemporary practice Explanations of programs techniques and publics introduce a new system for understanding fund raising s major concepts Unlike efforts in established fields most of the material represents original scholarship undertaken to produce a first time text The book s main purpose is to teach students about fund raising a high demand high paying occupation that will continue to expand into the 21st century as the need for trained practitioners exceeds the supply During the last decade fund raising education moved into the formal classroom and away from an apprenticeship tradition of senior practitioners mentoring newcomers Yet until now there has not been a textbook to support this evolving professionalism Faculty have been reluctant to define fund raising as an academic subject in the absence of a theory based teaching resource

and courses usually have been assigned to part time instructors hired from the practice This textbook addresses the void It is designed for graduate and upper level undergraduate courses dealing with fund raising as a primary or secondary subject Among its features each chapter points out research gaps and opportunities such as problems and theories for master s theses and doctoral dissertations and ends with a list of suggested readings The text is appropriate for the diverse academic areas in which fund raising nonprofit management and philanthropy are taught including public administration management arts and humanities education social work economics and sociology Because of its public relations orientation it is particularly suited for courses offered in that discipline Additional audiences are practitioners enrolled in professional development programs CEOs trustees and others interested in self study and scholars who need serious literature on the subject
