JESUS IN A NEW LIGHT Manfred Bauer,2021-11-25 Biblical statements and beliefs that were shaped by the ancient mindset have been mindlessly repeated for way too long In the process some of these ideas were eventually dogmatized By investigating the historical origin of such dogmas the author carries out an in depth analysis of the contents of established Christian doctrines without bothering about political correctness He is outspoken but is careful not to throw the baby out with the bathwater This book is therefore especially aimed at people with an interest in theology who are no longer satisfied with the usual clichés During his research the author put expert opinions to the test and found out quite frequently that they leave much to be

desired He realized that many a Bible scholar makes his or her point on the basis of a limited and incomplete view of the world that is shaped as the case may be by his or her own faith or atheism As a result of the globalization that has occurred over the past few decades and the greater insight it has afforded us into other religions and worldviews our perspective on the nature and abilities of spiritual masters such as Jesus has broadened considerably Since such discoveries have been taken into account only rarely in biographies of Jesus it has been the author s intention to illustrate parallels between the teachings and actions of Jesus and those of spiritual masters from other religions This book also asks the questions What message does the Shroud kept in turin Cathedral convey to us Did Jesus really lie in it Does the Shroud make it possible for us to see Jesus face some 2000 years after his death With forensic meticulousness the author provides proof that not everything went by the book during the 1988 radiocarbon dating that exposed the Shroud as a medieval fake The role of the Catholic Church leadership comes thereby under intense scrutiny Hence the aim of this unconventional book is to invite the reader to accompany the author as he tries with the help of Jesus example to acquire a better understanding of the meaning and purpose of human existence and to show what consequences such a better understanding might have for the way we conduct our lives
