International Yoga Bibliography, 1950 to 1980 Howard R. Jarrell, 1981 *Demystifying Patanjali: The Yoga Sutras* Paramhansa

Yogananda, 2013-06-03 What happens as we grow spiritually Is there a step by step process that everyone goes through all spiritual seekers including those of any or no religious persuasion as they gradually work their way upward until they achieve the highest state of Self realization About 2200 years ago a great spiritual master of India named Patanjali described this process and presented humanity with a clear cut step by step outline of how all truth seekers and saints achieve divine union He called this universal inner experience and process yoga or union His collection of profound aphorisms a true world scripture has been dubbed Patanjali's Yoga Sutras Unfortunately since that time many scholarly translators with little or no spiritual realization have written commentaries on Patanjali's writings that have succeeded only in burying his pithy insights in convoluted phrases like becomes assimilated with transformations and the object alone shines without deliberation How

can any reader understand Patanjali's original meaning when he or she has to wade through such bewildering terminology. Thankfully a great modern yoga master Paramhansa Yogananda, author of the classic *Autobiography of a Yogi*, has cut through the scholarly debris and resurrected Patanjali's original teachings and revelations. Now in *Demystifying Patanjali*, Swami Kriyananda, a direct disciple of Yogananda, shares his guru's crystal clear and easy to grasp explanations of Patanjali's aphorisms. As Kriyananda writes in his introduction: "My Guru personally shared with me some of his most important insights into these sutras. During the three and a half years I lived with him, he also went with me at great length into the basic teachings of yoga. I was able, moreover, to ask my Guru personally about many of the subjects covered by Patanjali. His explanations have lingered with me and have been a priceless help in the writing of this book." *Sacred books of the Hindus*, 1912.

From Yoga to Kabbalah Véronique Altglas, 2014-05-01. Religious exoticism implies a deeply ambivalent relationship to otherness and to religion itself: traditional religious teachings are uprooted and fragmented in order to be appropriated as practical methods for personal growth. Western contemporary societies have seen the massive popularization of such exotic religious resources as yoga and meditation, Shamanism, Buddhism, Sufism, and Kabbalah. Véronique Altglas shows that these trends inform us about how religious resources are disseminated globally as well as how the self is constructed in society. She uses two case studies: the Hindu-based movements in France and Britain that started in the 1970s and the Kabbalah Centre in France, Britain, Brazil, and Israel. She draws upon major qualitative and cross-cultural empirical investigations to conceptualize religious exoticism and offer a nuanced and original understanding of its contemporary significance. *From Yoga to Kabbalah* broadens scholarly understanding of the globalization of religion, how religions are modified through cultural encounters, and of religious life in neoliberal societies.

Demystifying Brahminism and Re-Inventing Hinduism Satya Shri, 2017-01-23. Religion is a tool in the hands of the oppressor against the oppressed solely because he frames the commandments and calls them the God's. This is an apt description of the Hindu social order. The book rips open the raw nerve of Hinduism: its invidious castes positioned as a God-ordained institution commandeered by its freebooter priestly class while clandestinely establishing its religious, social, and political hegemony through interpolation of its pristine and effulgent scriptures. The author boldly analyses this imbroglio through a microscopic analysis of these and more related issues: How priests controlled the Hindu religious, social, educational, and political apparatus? How the dominant priestly class fractured the society into mutually antagonistic subordinated hierarchical segments and ruled it by reserving all elite jobs for itself? How the fiendish priesthood emasculated shudras by depriving them of the shastra and shashtra education and arms and made them permanent village servant classes? How the pretensions of attaining siddhis through meditation and penances established priests as the gods on earth for their assertions of purity and effulgence? How karma, reincarnation, and 84 lakhs births theories were devised to justify fatalism and hierarchical gradation of varnas? Can India be rightfully called the vishvaguru and the mother of all civilisations? How Buddhism effeminized Hindus and made them the doormats for the
