У статті розглянуто та проаналізовано основні напрями державної екологічної політики України в умовах євроінтеграції. Обґрунтовано, що постійне зростання антропогенного навантаження на довкілля потребує розробки ефективних механізмів державного контролю, моніторингу та управління, а забезпечення гармонійного екологічного розвитку з врахуванням економічних та соціальних проблем населення має стати пріоритетним напрямком реалізації державної екологічної політики. Сфокусовано ретроспективний і сучасний екологічний стан деяких регіонів України та фактори, що призвели до високого рівня забруднення повітря, деградації національних земель, проблем з управлінням відходами. Охарактеризовано механізми та проблеми реалізації Стратегії державної екологічної політики України, запропоновано шляхи вдосконалення державної екологічної політики з врахуванням євроінтеграційних процесів. Доведено, що забезпечення реалізації системи екологічного менеджменту та здійснення концепції екологічного врядування мають бути орієнтирами у формуванні екологічної політики країни, оскільки існують вимоги до екологічної політики України, пов'язаних з євроінтеграцією, зокрема приведення екологічного законодавства до стандартів країн ЄС, впровадження принципів реалізації європейської державної екологічної політики в національну систему.

Ключові слова: екологічна політика, євроінтеграція, сталий розвиток, екологізація світової економіки, стратегія екологічного розвитку.

The article examines the main directions of the state environmental policy of Ukraine in the conditions of European integration. It is substantiated that the constant growth of anthropogenic load on the environment requires the development of effective mechanisms of state control, monitoring and management, and ensuring harmonious ecological development, taking into account the economic and social problems of the population, should become a priority direction for the implementation of state environmental policy. The retrospective and current ecological state of some regions of Ukraine and the factors that led to a high level of air pollution, degradation of national lands, and problems with waste management are outlined. The mechanism and problems of the implementation of the State Environmental Policy Strategy of Ukraine are characterized, ways of improving the state environmental policy, taking into account European integration processes, are proposed. It has been proven that ensuring the implementation of the environmental management system and the implementation of the concept of ecological governance should be guidelines in the formation of the country's environmental policy, since there are a number of requirements for the environmental policy of Ukraine related to European integration, in particular, bringing environmental legislation to the standards of EU countries, implementing the principles of implementation of the European state environmental policy into the national system. The purpose of this article is to study the current state of the state environmental policy of Ukraine and identify the existing problems of its implementation in the context of European integration.
