# European Enterprise Policy From Sme Policy To Entrepreneurship Policy

**Roman Wölfel**

## **European Enterprise Policy From Sme Policy To Entrepreneurship Policy:**

**European Enterprise Policy** Rudy Aernoudt, 2003 Since the findings that small firms were creating more jobs than large firms regional national and European authorities set up or intensified their SME policies Evaluations however showed that such policies often became a patchwork quilt of complexity and idiosyncrasy Moreover the support did not go to the SMEs that most needed it but to those that were well informed and eager to obtain grants In addition it led to discrimination amongst SMEs themselves Therefore authorities are exploring new ways of conducting enterprise policy In this context it is not amazing that so much emphasis has been put on the concept of entrepreneurship One of the key issues in this context is the compatibility of a classical SME policy with an entrepreneurship approach This book outlines the general principles of enterprise policy with concrete examples in different fields such as financing and incubators It analyses the role of big companies towards SMEs and focuses on the shift from an SME policy towards an entrepreneurship policy

**European Entrepreneurial Culture** Veronika Minkova, 2014-04-11 Inhaltsangabe Introduction From the 1940s to the 1980s large enterprises in Europe was clearly the dominant form of business organisation Small businesses were believed to be less efficient than their larger counterparts and only marginally involved in innovative activities This has gradually changed to the extent that at present national and supranational policy makers have given strong priority to entrepreneurship and small and medium sized enterprises SMEs Scholars argue that the outlook of the European economies has undergone a transformation from the managed to the entrepreneurial economy This sharp change of direction has been primarily driven by a combination of factors including the growing importance of the knowledge economy in terms of occupational choices factors of production and changing patterns of commercial activities concerns for high unemployment rates declining international competitiveness in comparison to the USA and Japan and rates of economic growth as well as an evidence of shifting patterns of consumer demand Evidently a

new vision of the EU's economic strategy has been conceived in terms of the belief that economic, social and environmental goals must go hand in hand in the 21st century. In the centre of this vision is the innovative entrepreneur who is believed to be a major ingredient for the revitalisation of European economies. The subject of entrepreneurship has been the topic of scholarship and research in a variety of academic fields. The interdisciplinary nature of scholarship reflects the subject as entrepreneurship itself is a multifaceted social and economic phenomenon. However, since there is no explicit horizontal entrepreneurship policy domain at the European level, the topic has not caught sufficient attention from European Union public policy analysts. The main purpose of the dissertation is to discuss how the EU accommodates the image of entrepreneurial economy within its policy making apparatus. A generalisation of European entrepreneurial economy has been made which underlines the supranational level of analysis and gives more attention to what has been undertaken collectively rather than individually by Member States. The dissertation begins in the following chapter by addressing the question of how entrepreneurship is understood and defined at the conceptual level. While it is clear that no specific definition of entrepreneurship exists, most studies conclude that it centres

*European Corporate Law*  
Adriaan F.M. Dorresteyn et al., 2022-07-26. This fully updated new edition provides an overview of the law regarding companies, business organizations and capital markets in Europe at both the European Union (EU) and Member State levels. It introduces the reader to the EU harmonization programme and describes how this has influenced corporate law in the various EU Member States. The authors describe common denominators as well as differences in the approach of national corporate laws. The authors highlight current and emerging trends in these areas of corporate law, including the freedom of establishment of companies within the EU, the European harmonization process and Member States' implementation of EU legislation, employee involvement in business organizations, the division of power between the different corporate bodies, the

functioning and regulation of company groups and cross border business combinations takeovers and restructuring tools The laws of France Germany and the Netherlands in particular are discussed and contrasted This discussion also includes the United Kingdom although no longer an EU Member State As in earlier editions the authors demonstrate that analysis and comparison of national corporate laws yield highly valuable general principles and observations not least because business organizations wherever located tend to show a fundamentally similar set of legal characteristics The Fourth Edition will continue to be of great value to practitioners and academics who wish to acquire a better understanding of European corporate law in its supranational dimension as well as in the similarities and differences among the various national legal systems It can also be used as a handbook for comparative corporate law courses

**European Corporate Law** Adriaan F.M. Dorresteijn, Christoph Teichmann, Erik Werlauff, Tiago Monteiro, Nadia Pocher, 2016-04-24 This fully updated new edition provides the best known practical overview of the law regarding companies business activities and capital markets in Europe at both the European Union EU and Member State levels It incorporates analysis of recent developments including the impact of global initiatives in such aspects of the corporate environment as regulation of financial institutions and non financial reporting obligations with a view to sustainability and other social responsibility concerns The authors all leading experts in European corporate law describe current and emerging trends in such areas of corporate law practice as the following rules on cross border mergers employee involvement in business activities the initiatives by the Organisation for Economic Co operation and Development OECD and the EU to curb tax avoidance Member States implementation of EU legislation a company s freedom to incorporate in a jurisdiction not its own competition among the legal forms of different Member States and safeguarding of employee involvement in cross border transactions With respect to national law the laws of Belgium France Germany the Netherlands Poland Spain and the United Kingdom are taken into account Italy is now included in this new edition As in earlier editions the authors demonstrate that analysis and comparison of national corporate laws yield highly valuable general principles and observations not least because business organizations wherever located tend to show a fundamentally similar set of legal characteristics The Third Edition will continue to be of great value to practitioners and academics who wish to acquire a better understanding of European corporate law in its supranational dimension as well as in the similarities and differences among the various national legal systems

**Handbook of**

**Research on Entrepreneurship Policies in Central and Eastern Europe** Friederike Welter, David Smallbone, 2011 This unique Handbook explores the role of government in the development of entrepreneurship in countries where twenty years ago private enterprise was illegal or barely tolerated The expert contributors reveal that government policy is one of the key influences on the external environment in which businesses develop particularly in countries where it has been necessary to redefine the role of the state in relation to business development They outline how government policy can also act as an enabling and or a constraining force with respect to entrepreneurship development particularly in relation to institutional change and the development of a market based economy This Handbook includes up to date information and analysis as to how entrepreneurship policies have evolved in the wider Europe focusing on the challenges that arise in designing and implementing entrepreneurship policy The Handbook of Research on Entrepreneurship Policies in Central and Eastern Europe excellently covers different facets of entrepreneurship policies in Central and Eastern Europe and will prove invaluable for academics students and researchers of entrepreneurship and small business as well as policy studies Policy makers will also find plenty of key insights and relevant information in this important resource *Eurasian Business Perspectives* Mehmet Huseyin Bilgin, Hakan Danis, Ender Demir, Ugur Can, 2019-04-03 This volume of Eurasian Studies in Business and Economics includes selected papers from the 22nd Eurasia Business and Economics Society EBES Conference in Rome It presents original empirical research from several countries and regions including many developing economies such as Poland Russia Tunisia Lebanon Belarus and Lithuania Both the theoretical and empirical papers in this volume cover diverse areas of business and management from various regions The main focus is on sharing the latest research results on evolving approaches to entrepreneurship research behavioral aspects of entrepreneurship and SME development and policy development The volume also includes related studies that analyze international business cooperation performance assessment and a range of other current topics *Policy Toolkit for Strengthening FDI and SME Linkages* OECD, 2023-03-30 Strengthening linkages between foreign direct investment FDI and small and medium sized enterprises SMEs is important to boost productivity and innovation across countries and regions in the OECD and beyond This policy toolkit offers policy advice to national and subnational governments on how to increase knowledge and technology benefits from FDI on domestic SMEs and the local economy Entrepreneurial and Demographic Challenges in Economic Development of EU Candidate Countries Vemić, Milan B., 2024-11-22 The economic development of EU candidate countries is shaped by entrepreneurial and demographic challenges that significantly influence their integration into the European Union As these nations aim for growth and stability they face various obstacles characterized by shifting demographic profiles including aging populations and human migration Fostering an effective entrepreneurial system is essential for increased innovation and job creation Navigating these challenges requires specific policies that support small and medium sized enterprises while addressing socio economic disparities and demographic trends that hinder sustainable development

Further understanding of this relationship is pivotal for creating strategies that promote economic growth and foster the successful integration of these countries into the European Union

**Entrepreneurial and Demographic Challenges in Economic Development of EU Candidate Countries** explores solutions for the economic improvement of European Union country candidates through entrepreneurship and demographics The effectiveness of sustainable business management practices on global organizations are examined This book covers topics such as management science capitalism and sociology and is a useful resource for government officials policymakers economists business owners sociologists academicians researchers and scientists

Industrial and Regional Policies in an Enlarging EU David Bailey, Lisa De Propriis, 2014-10-20 After years of near disrepute in official circles Industrial Policy has made something of a comeback over the last few years and is now very much back on the agenda at national and EU levels driven by concerns over globalisation deindustrialisation unemployment and perceived poor growth in the EU Simultaneously the European Commission's Fourth Report on Economic and Social Cohesion has kicked off the debate over challenges to cohesion the shape of EU Cohesion policy beyond 2013 and how resources should be managed This debate will find added momentum with the imminent mid term review being launched by the Commission Discussions over the success or not of the Lisbon Agenda on going debates over cluster policies and recent developments in policy evaluation have also contributed to a burgeoning academic literature over the last eighteen months This edited volume is especially pertinent given such developments and pulls together a diverse range of contributions from leading authorities in the field to add to these debates and to illustrate connections between them This book was published as a special issue of Policy Studies

Strategic Management - New Rules for Old Europe Christian Scholz, Joachim Zentes, 2007-11-05 Perhaps it was not really meant the way it was said but when Donald Rumsfeld used the term Old Europe in his famous speech of January 22 2003 he coined a phrase to depict not the birthplace of modern society but a graveyard of old and outdated ideas Even though it is legitimate for many of us in Europe to oppose the underlying message of going to war in Iraq it makes absolute sense to examine the rules of the game which Europe is currently playing and which it will play in the future In doing so it becomes obvious that important changes are taking place Strategic Management New Rules for Old Europe makes the hidden rules governing strategic management in Europe transparent The book follows a from to logic and takes the reader along the course of changing conditions and contingencies Europe has not only witnessed major transformations such as the dramatic fall of the Iron Curtain economic and monetary integration and the incorporation of new member states Fundamental change can also be perceived with respect to the corporate responses to these ongoing dynamic changes Strategic Management New Rules for Old Europe is divided into four parts Each of these consists of several contributions starting with the focus on people then on culture then on systems
