Industrial and Labor Relations Review ,1997 **Employee Voice and Participation** Jeff Hyman,2018-06-13 Employee participation and voice EPV concern power and influence Traditionally EPV has encompassed worker attempts to wrest control from employers through radical societal transformation or to share control through collective regulation by trade unions This book offers a controversial alternative arguing that in recent years participation has shifted direction In **Employee Voice and Participation** the author contends that participation has moved away from employee attempts to secure autonomy and influence over organisational affairs to one in which management ideas and initiatives have taken centre stage This shift has been bolstered in the UK and USA by economic policies that treat regulation as an obstacle to competitive performance Through an examination of the development of ideas and practice surrounding employee voice and participation this volume tracks the story from the earliest attempts at securing worker control through to the rise of trade unions and today s managerial efforts to contain union influence It also explores the negative consequences of these changes and though the outlook is pessimistic considers possible approaches to address the growing power imbalance between employers and workers **Employee Voice and Participation** will be an excellent supplementary text for advanced students of employment relations and Human Resource Management HRM It will also be a valuable read for researchers policy makers trade unions and HRM professionals **Theoretical and Methodological Approaches to Social Sciences and Knowledge**

A Right to Care? Nicole Busby, 2011-04-07 This book considers the reconciliation of unpaid care and paid work which is among the most pressing and difficult problems currently facing employment law The incompatibility of carers needs and the demands of the labour market is commonly identified in relation to working mothers but is by no means confined to this group as dependency for aspects of personal care can arise as a result of disability illness or aging In all of its forms unpaid care is predominantly provided by women so that its intersection with paid work is severely gendered In recent years European integration has focused on the need to increase employment rates whilst maintaining labour market flexibility Many workers who seek to combine unpaid care with paid employment find themselves engaged in increasingly precarious forms of work yet legal and policy responses have to date been reactive and incremental resulting in a framework which is operationally ineffective in certain respects Nicole Busby explores the potential for the development of a specific right to care within European employment law which would facilitate the reconciliation of these two central aspects of an individual's life and in raising the status of care would assist in the rebalancing of paid and unpaid work between men and women The central premise is that the current constitutional and regulatory framework is in fact sufficiently flexible to take account of the diverse circumstances and resulting needs of working carers and that the European Court of Justice has the competence and capability to provide the necessary creativity

to give effect to such a right She argues that what is needed to instil coherence and consistency is a specific focus on unpaid work within European employment law and provides a policy solution on how this should be brought about

Managers in European Law Natalie Videbæk Munkholm,Vicenzo Pietrogiovanni,Karsten Engsig Sørensen,2024-02-08 Business organisations depend on having one or more persons who can legitimately make strategic business decisions But what are the legal entitlements of such key professionals This is the first book with contributions from experts across Europe to take a broad comparative look at how the delimitation of rights and duties of executive and non executive managers is done under different areas of EU law and across different jurisdictions namely EU and national law Aspects of the executive role covered include the following extensive treatment of definitions and methodologies to ascertain the status of managers as workers in Europe comprehensive interdisciplinary and comparative analysis of cross cutting issues affecting managers in Europe including complexities arising from national variations in governance structures and roles and functions of managers comprehensive analysis of cases before the European courts with full awareness of applicable rules distinction between registered front directors and those who act as de facto managers how employees and to some degree other stakeholders may be involved in management trends in current EU law that increase the need to protect managers trends that increase the need to hold managers liable right to inter alia information and consultation occupational health and safety non discrimination and free movement and recognition that managers may not necessarily be powerful professionals with strength vis vis the company as employer According to EU statistics in 2019 nearly 9 4 million persons held a managerial position across the EU s Member States meaning that many managers currently can no longer inherently be considered unworthy of employment protection The legal status of these individuals thus cannot be sidestepped This very important volume accordingly will be of value to practitioners policymakers and academics in employment and labour law
