European Union And The Cyprus Conflict Modern Conflict Postmodern Union:

The European Union and the Cyprus Conflict Thomas Diez, 2002 In the lead essay for this volume Joshua Foa Dienstag engages in a critical encounter with the work of Stanley Cavell on cinema focusing skeptical attention on the claims made for the contribution of cinema to the ethical character of democratic life In this debate Dienstag mirrors the celebrated dialogue between Rousseau and Jean D Alembert on theatre casting Cavell as D Alembert in his view that we can learn to become better citizens and better people by observing a staged representation of human life with Dienstag arguing with Rousseau that this misunderstands the relationship between original and copy even more so in the medium of film than in the medium of theatre Dienstag s provocative and stylish essay is debated by an exceptional group of interlocutors comprising Clare Woodford Tracy B Strong Margaret Kohn Davide Panagia and Thomas Dumm The volume closes with a robust response from Dienstag to his critics

The European Union and Border Conflicts Thomas Diez, Mathias Albert, Stephan Stetter, 2008-03-27 It is generally assumed that regional integration leads to stability and peace This book is a systematic study of the impact of European integration on the transformation of border conflicts It provides a theoretical framework centred on four pathways of impact and applies them to five cases of border conflicts Cyprus Ireland Greece Turkey Israel Palestine and various conflicts on Russia s border with the EU The contributors suggest that integration and association provide the EU with potentially powerful means to influence border conflicts but that the EU must constantly re adjust its policies depending on the dynamics of each conflict Their findings reveal the conditions upon which the impact of integration rests and challenge the widespread notion that integration is necessarily good for peace This book will appeal to scholars and students of international relations European politics and security studies studying European integration and conflict analysis

Cyprus: a conflict at the crossroads Thomas Diez, Nathalie Tocci, 2024-07-30 This unique collection of essays available for the first time in paperback provides a multi faceted analysis of the Cyprus conflict It sees the conflict both at a historical and at an analytical crossroads and brings together leading scholars from various disciplines to provide fresh perspectives on the long standing issues surrounding Cyprus The four parts of the book deal first with domestic determinants of the conflict and its resolution then with external influences before comparing Cyprus to other conflict cases and finally including approaches beyond political science The application of different methodological and theoretical approaches from rational choice to gender studies to a single case allows for their comparison and make this a must read not only for those interested in Cyprus but for all students of conflict resolution

The History and Politics of the Cyprus Conflict Clement Dodd, 2010-04-21 The Cyprus conflict was for long an inactive volcano but it erupted violently in 1955 1963 and 1974 Now more of a smouldering fire its persistence is a serious obstacle on Turkey's route to EU accession Uniquely utilizing Turkish sources this book looks at how

the conflict has developed since 1978 Contemporary Security Analysis and Copenhagen Peace Research Stefano Guzzini, Dietrich Jung, 2003-12-25 This book examines the development of peace research and explores its present challenges focusing on the contribution made by the Copenhagen Peace Research Institute The authors investigate how peace research relates to security studies and international relations providing a comprehensive study of conceptual innovations and a discussion of security *Conflict Resolution and Global Justice* Nikola Tomić, Ben Tonra, 2021-07-09 This book examines how the different normative foundations of conflict resolution held by various global actors their understandings of justice and the differences between types of conflict influence the varying means by which conflicts can be prevented managed and ultimately resolved By combining insights from political theory conflict studies and European Union EU foreign policy studies the book identifies the EU as the key case of a conflict manager that is both a product and a defender of a global liberal order It focuses on three aspects of conflict resolution that pose their own sets of both normative and empirical dilemmas resolving border disputes strengthening the resilience of weak or divided states and societies after regime change and intervention in humanitarian crises Furthermore it offers a comparative analysis between a potentially distinctive European approach and that of other global actors and reflects critically on situations where policy practice may not always reflect a concern for justice asking what countervailing forces prevail and why This book will be of key interest to scholars and students in European and EU Studies Area studies Conflict Resolution War Studies EU Foreign Policy Political Theory International relations as well as policymakers *The Making of Informal States* D. Isachenko, 2012-03-20 Using the cases of Northern Cyprus and Transdniestria the author examines state building as practiced by informal states Exploring symbolic and economic dimensions of state building projects and using insights from political sociology she investigates how they function under circumstances of non recognition Normative Power Europe R. Whitman, 2011-06-21 The notion of Normative Power Europe NPE is that the EU is an ideational actor characterised by common principles and acting to diffuse norms within international relations Contributors assess the impact of NPE and offer new perspectives for the future exploration of one of the most widely used ideas in the study of the EU in the last decade Crisis and Conciliation James Ker-Lindsay, 2007-10-24 When Abdullah Ocalan leader of the Kurdistan Workers Party PKK was arrested in February 1999 it marked a turning point in relations between Greece and Turkey As the country's most wanted man his arrest was greeted with jubilation throughout most of Turkey However it also led to a public outcry when it emerged that he had been captured leaving the Greek Embassy in Nairobi Kenya This was seen as definitive proof that the Greek Government had been aiding and abetting the PKK In the days and weeks that followed the arrest relations between the Aegean neighbours sank to their lowest level since the summer of 1974 when Athens and Ankara had come to the brink of war over Cyprus However by the end of the year the picture could not have been more different An improbable series of events that included a regional conflict two major disasters and the death of a senior Greek politician had led to a complete transformation in the relations

between the two countries The crowning moment of this change came in December when Greece dropped its long standing opposition to Turkish candidacy for EU membership How did this remarkable change come about Who should take the credit And what did it mean for diplomatic relations in the Eastern Mediterranean This is the story of how two countries started down a path to peace after decades of tension and hostility and how over the course of one monumental year relations between Greece and Turkey went from the brink of conflict to an unprecedented affirmation of friendship and solidarity

The Changing European Commission Dionyssi G. Dimitrakopoulos, 2004-07-23 This book newly available in paperback examines a hitherto under researched aspect of the European Union's policy process the extent and the nature of the involvement of central governments in the implementation of EU public policy It discusses how the co ordination of these institutions affects their capacity to shape the way in which the commitments that they make in Brussels are turned into concrete reality at the national level It shows that the nature of their involvement in implementation reflects the pattern of their involvement in the formulation of EU policy However since implementation unfolds over long periods of time its patterns can change over time The author draws on empirical evidence regarding the liberalisation of public procurement to demonstrate how the institutions of central governments bring about change Comparing the central governments of Greece France and Britain over a twenty five year period the author demonstrates that far from being the passive conduits of pressure emanating from the EU the institutions of national central governments actively steer the implementation of EU public policy

EU Enlargement and Socialization Stefan Engert, 2010-02-25 The European Union's enlargement has been considered a success story apart from Cyprus and Turkey This book looks at the EU's expansion and examines its effectiveness in terms of international socialization and compliance focussing specifically on the socialization of Turkey and Cyprus into the Western community Although NATO member Turkey submitted its membership application long before the end of the Cold War the Kemalist state still struggles to become the first Muslim EU member state Cyprus was allowed to join the organization in 2004 but the island remains a divided entity Providing a comprehensive theoretical perspective the book is divided into three parts and investigates three questions Why expand From an EU international organizations perspective Why join From an applicants perspective Why comply Exploring why a state would choose to adapt to the EU's fundamental norms and rules from a candidates perspective Contradicting the impression that the latest round of EU enlargement has been a model story of smooth and effective socialization from top to bottom this book will be of interest to students and scholars of the EU European politics international relations and particularly those interested in Turkey and Cyprus

Territorial Disputes and State Sovereignty Jorge E. Núñez, 2020-05-11 Adopting a multi disciplinary approach this book opens new ground for research on territorial disputes Many sovereignty conflicts remain unresolved around the world Current solutions in law political science and international relations generally prove problematic to at least one of the agents part of these differences Arguing that disputes are complex multi layered and multi faceted this book brings together a global

inter disciplinary view of territorial disputes The book reviews the key conceptual elements central to legal and political sciences with regards to territorial disputes state sovereignty and self determination Looking at some of the current long standing disputes worldwide it compares and contrasts the many issues at stake and the potential remedies currently available in order to assess why some territorial disputes remain unresolved Finally it offers a set of guidelines for dispute settlement and conflict resolution that current remedies fail to provide It will appeal to students and scholars working in international relations legal theory and jurisprudence public international law and political sciences

The European Union and Enlargement G. Christou, 2004-10-15 The European Union and Enlargement is about the EU s power of attraction an exploration of the potential for EU impact on conflicts within Europe and the implications for the EU to influence the order beyond its borders It provides both a theoretical and historical context in order to understand the EU s impact and combines this with empirical analysis of the perceptions of the Greek Cypriots Turkish Cypriots and Turkey on the accession process and its effect on the Cyprus issue It demonstrates the limits and the potential of the EU as a global actor through its power of attraction

The Cyprus Issue Nikos Skoutaris, 2011-03-01 This is a book on the interrelationship of the EU legal order and the Cyprus issue The book addresses a question which is of great significance for the legal order of the EU as well as for Cypriots Turks and Greeks namely how the Union deals with the de facto division of the island Despite the partial normalisation of relations between the two ethno religious groups on the island Cyprus accession to the EU has not led to its reunification nor to the restoration of human rights nor a complete end to the political and economic isolation of the Turkish Cypriot community Ironically enough the accession of the island to the EU actually added a new dimension to the division of the island According to Protocol 10 on Cyprus to the Act of Accession 2003 the Republic of Cyprus joined the Union with its entire territory However due to the fact that its Government cannot exercise effective control over the whole island pending a settlement the application of the *acquis* is suspended in those areas of the Republic of Cyprus in which the Government of the Republic of Cyprus does not have effective control Given this unprecedented for an EU Member State situation of not controlling part of its territory the book analyses the limits of the suspension of the Union *acquis* in the areas north of the Green Line In other words the *telos* of this particularly challenging research is to map the partial application of Union law in an area where there are two competing claims of authority

Historical Dictionary of Modern Greece Dimitris Keridis, 2022-06-06 Greece is a ancient land blessed with a stunning natural beauty and an inspiring cultural heritage but burdened with history and conflict it shares many traits and comparable trajectories with its neighbors and countries of a similar background Modern Greece is a successor nation state of the Ottoman Empire created in the early 19th century through the interplay of an evolving Greek national idea the crisis of the Ottoman state and the intervention of great powers Historical Dictionary of Modern Greece Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 200 cross referenced entries on important personalities as well as aspects of the

country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Greece *International Socialization in Europe* F. Schimmelfennig, S. Engert, H. Knobel, 2006-09-04 At the end of the Cold War the Western international community embarked on a large scale project of promoting democratic change and consolidation in Eastern Europe This book explains its mixed results It examines the strategies of European organizations and the conditions of their success and failure *The Europeanisation of Conflict Resolutions* Boyka Stefanova, 2013-07-19 This book is about the EU's role in conflict resolution and reconciliation in Europe Ever since it was implemented as a political project of the post World War II reality in Western Europe European integration has been credited with performing conflict resolution functions It allegedly transformed the long standing adversarial relationship between France and Germany into a strategic partnership Conflict in Western Europe became obsolete The end of the Cold War further reinforced its role as a regional peace project While these evolutionary dynamics are uncontested the deeper meaning of the process its transformative power is still to be elucidated How does European integration restore peace when its equilibrium is broken and conflict or the legacies of enmity persist This book sets out to do exactly that It explores the peace and conflict resolution role of European integration by testing its somewhat vague albeit well established macro political rationale of a peace project in the practical settings of conflicts The analytical lens of that of Europeanization The central argument of the book is that the evolution of the policy mix resources framing influences and political opportunities through which European integration affects conflicts and processes of conflict resolution demonstrates a historical trend through which the EU has become an indispensable factor of conflict resolution It begins with the pooling together of policy making at the European level for the management of particular sectors early integration in the European Coal and Steel Community through the functioning of core EU policies Northern Ireland to the challenges of enlargement Cyprus and the European perspective for the Western Balkans Kosovo The book will be of value to academics and non expert observers alike with an interest in European integration and peace studies
