Crisis and change in European Union foreign policy Nikki Ikani, 2021-10-26 How do crises produce changes in specific European Union foreign policy areas and how should we conceptualise these policy changes? This book provides a novel analytical framework that serves to investigate the way in which the EU changes its foreign policy after crisis. Ikani adapts the existing theorising of foreign policy change to a single framework applicable to the EU context, providing readers with a toolbox to both explain the process of change and measure the policy change that follows. The framework is developed through an investigation of two important EU foreign policy change episodes taking place after the Arab uprisings and the Ukraine conflict, and is then tested in three recent cases of EU foreign policy change after crisis. The volume presents a novel typology of EU foreign policy change, advancing on the fields of foreign policy analysis, public policy studies, and International Relations. In doing so, it explains both the decision-making process leading to policy change and the variation in change outcomes following this process. Further to offering those researching the EU foreign policy response to crisis with timely and empirically rich accounts of five recent change episodes, this book adds to the literature by suggesting two forms of EU foreign policy change: symbolic change and constructive ambiguity, which unlike previously argued, form frequent and important outcomes of the decision-making process.

The European Union in a Changing World Order Antonina Bakardjieva Engelbrekt, Niklas Bremberg, Anna Michalski, Lars Oxelheim, 2019-08-06 This book explores how the European Union responds to the ongoing challenges to the liberal international order. These challenges arise both within the EU itself and beyond its borders and put into question the values of free trade and liberal democracy. The book's interdisciplinary approach brings together scholars from economics, law, and political science to provide a comprehensive analysis of how shifts in the international order affect the global position of the EU in dimensions such as foreign and security policy, trade, migration, populism, rule of law, and climate change. All chapters include policy recommendations, which make the book particularly useful for decision makers and policy advisors, besides researchers and students, as well as for anyone interested in the future of the EU.

The European Union's Normative Power in Central Asia

Poland's EU Accession Sergiusz Trzeciak, 2018-01-12 This book examines the process of Poland's accession negotiations to the European Union between 1998-2003. An empirical study based on Robert Putnam's two-level game model, it charts the influence and role of key domestic actors and groups on the negotiations, especially in three critical controversial areas: areas where EU accession threatened to bring about a profound transformation to Polish life, agriculture with particular emphasis on direct payments and production quotas, the purchase of real estate by foreigners, and the free movement of labour. This book demonstrates the complex interaction between the domestic and international level of negotiations and furthermore shows how critical this link can be to negotiation outcomes at the international level. It reveals how susceptible Poland's negotiation process was to domestic pressure, particularly public opinion and interest groups. Drawing heavily on qualitative analysis such as press releases, news wires, policy documents, as well as quantitative analyses such as the use of opinion polls and supported by in-depth unrestricted interviews with key Polish decision makers, this book examines the dynamics of policy formation in Poland and shows how this translated into the final conditions of accession.

European External Action Veit Bachmann, 2017-02-24 European External Action provides a critical assessment of the practice of EU diplomacy in a key site of Africa: European relations and the global development industry, the Kenyan capital of Nairobi. It analyses how the EU positions itself through its newly established diplomatic corps, the European External Action Service (EEAS), and how it is perceived as a collective geopolitical actor by its external cooperation partners. Going beyond existing studies on EU policy making in Brussels and African-European relations, more generally, this book explores in a novel way the conduct of external relations and perceptions of the EU abroad. Based on institutional ethnography within the EU Delegation in Nairobi and research affiliation with the University of Nairobi, as well as interviews with leading individuals of Kenyan-European interaction, it analyses the practices, processes, and perceptions through which EU diplomacy is enacted and realised in a strategic node of global North-South relations. In light of the EU's claim as a key partner for developing countries and its ambition to be a major player in global politics, European External Action thereby speaks not only to wider debates on the EU's role as a global and development actor but also provides new insights in the internal dynamics and the making of external agency in and through EU diplomacy.

The Mediterranean Dimension of the European Union's Internal Security S. Wolff, 2012-09-27 EU internal security concerns such as migration, police and judicial cooperation are today part of EU foreign policy. This book shows how those concerns dominate the EU agenda towards Mediterranean countries. Adopting a rational choice institutionalist approach, it explores EU policy and the strategic choices made after the 2011 Arab revolts.

conflict and tensions with Russia **The War Against Ukraine and the EU** Claudia Wiesner, Michèle Knodt, 2024-04-29

This open access book aims at discussing the manifold consequences that the War against Ukraine bears for the European Union and EU Studies. It takes stock of the fact that the Russian Attack on Ukraine and the ensuing War not only affects the Global Order but also has challenged a number of established narratives and convictions for the European Union and its member states. The EU now needs to position itself in the changing world order. Concretely it needs to deal with a number of membership applications, internal and external challenges to liberal democracy and the development of its strategic autonomy in a number of decisive policy fields. The book convenes experienced scholars with chapters covering the following themes and fields: Theories, approaches and concepts in EU studies and IR; the EU and the changing European and Global Order; the War and defence of liberal democracy; Membership Politics; Energy Policy *EU Human Rights and Democratization Policies*

Felipe Gómez Isa, Cristina Churrua Muguruza, Jan Wouters, 2018-05-15 Though the EU has tried to place human rights and democracy at the heart of its external action, there are serious concerns about its capacity to have a significant impact on the situation of human rights and human rights defenders as well as on the democratization processes taking place in different regions of the world. This edited volume sheds light on the achievements of EU policies and programmes in the field of human rights and democracy, also taking into account the challenges ahead. Analysing the changing global context's effect on the ability of the EU to have a meaningful impact in the field of human rights and democratization, it examines relevant policies and programmes of the EU to see their impact on the ground. Combining various methodologies, the authors examine primary agreements and other EU documents, secondary sources such as evaluations of EU's policies and programmes in the field of human rights and democracy, promotion and have interviewed EU officials, academics and other key stakeholders. From these, the book sheds light on specific programmes such as the EIDHR, the EOM and the EU Guidelines on Human Rights Defenders, illuminating the increasingly hostile environment to work for human rights and democracy in a number of countries. This text will be of key interest to scholars and students of EU human rights and law, to practitioners in Europe and beyond and more broadly to EU studies, democracy studies and international relations **Contemporary European Politics** José M.
