Europeanization Of British Environmental Policy A Departmental Perspective:

The Europeanization of British Environmental Policy A. Jordan, 2002-06-25 Almost all aspects of modern politics have been deeply Europeanized yet we know surprisingly little about how the EU affects the inner workings of national government This book conceptualizes the profound Europeanization of British environmental government and policy both as a lagged response to European integration and as an important determinant of Britain's contribution to that process By combining political theories of the EU with new empirical research Andrew Jordan offers a genuinely fresh perspective on the evolution of modern European governance

The Europeanization of British Politics I. Bache, A. Jordan, 2006-08-03 This is a unique book length accounts of the domestic impact of EU membership Drawing on expert contributions this volume provides a state of the art account of how membership has affected the institutions of central devolved and local governance the activities of organized interests and major areas of public policy

Europeanization of Environmental Policy in the New Europe Mats Braun, 2016-04-22 Prior to the European Union EU 2004 2007 enlargement there were several predictions that this event would hamper progressive decision making within the EU on environmental policy It was believed that the new member states had adopted EU rules as a consequence of the EU's conditionality and consequently they would rather slow down the reform speed in the field after accession In this book Mats Braun offers an up to date account of how post communist member states have handled policy initiatives in the field of environmental policy after accession Using detailed case studies of how Bulgaria the Czech Republic Poland and Romania dealt with two different EU policy initiatives REACH and the Climate Energy Package he explores whether social norms and the process of socialization can help us understand why the track record of new member states in the area of environmental policy is more varied than was originally envisaged prior to enlargement

EU Environmental Policy Nigel Haigh, 2015-12-14 At a time when Europeans across the continent are focused on the EU's future direction this book provides an important contribution to the current debate Created for reasons quite unconnected with the environment the EU has been given a compelling new justification by the success of its environmental policy A number of factors including a number of threats that came to prominence in the 1980s and the new concept of sustainable development are responsible for pushing environmental policy to the forefront of its agenda Nigel Haigh a leading authority on the development and implementation of EU environmental policy traces its evolution from obscurity to centrality Drawing on a range of articles and lectures he demonstrates how the EU has not only adapted itself to take on entirely new subject matter but also has contributed to solving problems which individual Member States could not have dealt with on their own The book goes on to contextualise the issues throughout its history and offers insight into the future role of the EU in environmental matters This book is a valuable resource for academics and scholars as well as professionals and policy makers in the areas of environment and sustainability politics international relations and European affairs

Handbook of Public Administration and Policy in the European Union M. Peter van der Hoek, 2005-06-13

The Handbook of Public Administration and Policy in the European Union focuses on the current state of the EU while also demonstrating how its current structure came into being and how it may change in the near future. Although most existing literature is either policy oriented or institution oriented, this textbook employs a different, more comprehensive approach. Not only does it analyze selected EU laws and most EU institutions, it is also unique in that it brings together EU public administration, EU institutions, and most importantly, EU policies into a comprehensive text. Divided into five parts, the book provides an overview of theory, discourses on European integration, followed by an analysis of the development of European organizations. Part II explains the nature of the EU, highlighting its institutions. Part III addresses various dimensions of public administration, followed by a review in Part IV of major EU policies, including the Common Agricultural Policy. The textbook concludes with a history of Economic and Monetary Union and a study of the European Central Bank and the euro.

The Environmental Case for Brexit Ben Pontin, 2019-05-30. The recent Brexit debates present leaving the European Union largely as a threat to environmental protection and to environmental law. This exciting and important new work argues that Brexit represents a real opportunity for environmental protection in the United Kingdom, freeing it from a pan-European framework not necessarily fit for UK domestic purposes. Central to the argument is the belief that environmental protection in the United Kingdom can most effectively be pursued through established domestic institutions, looking inwards at local challenges and outwards at more global ones, all the while drawing on considerable historical experience. The book is designed to address, rather than dismiss, those concerns raised by environmental lawyers after the outcome of the referendum. Provocative and compelling, it offers an alternative vision of the UK environmental law framework outside of the European Union.

Developing Adaptation Policy and Practice in Europe: Multi-level Governance of Climate Change E. Carina H. Keskitalo, 2010-09-14. Mitigation will not be sufficient for us to avoid climate change, and we will need to adapt to its consequences. This book targets the development of adaptation policy in European countries with different relations between central and regional/local government.

The Politics of Europeanization Kevin Featherstone, Claudio M. Radaelli, 2003-06-05. The Politics of Europeanization looks at the political aspects of European integration from the point of view of domestic politics. In doing so, it goes beyond the classic analysis of how policies are made in Brussels and raises instead the question: what is the power of Europe in national contexts? The questions at the heart of this volume are crucial both for our understanding of European integration and for their policy implications. What does Europeanization really mean? How can it be measured? How is the European Union affecting domestic politics and policies in member states and candidate countries? Is Europeanization an irreversible process? Does it mean convergence across Europe? How and why do differences remain? The contributors explain and question the power of Europe by providing theoretical and empirical perspectives on domestic politics and institutions, government and administration, public policies, political actors, and business groups. The volume contains a new research agenda for the nascent literature on Europeanization.

[The Politics of Animal](#)

Experimentation Dan Lyons,2016-01-12 The reality of animal experimentation and its regulation in Britain have been hidden behind a curtain of secrecy since its emergence as a political controversy in the 1870s Public debate and political science alike have been severely hampered by a profound lack of reliable information about the practice In this remarkable study Dan Lyons advances and applies policy network analysis to investigate the evolution of British animal research policy making

Air Transport and the European Union H. Kassim,H. Stevens,2009-12-10 Air Transport and the European Union examines the emergence of the EU as a major actor in aviation It investigates how the EU was able to develop a common policy despite the existence of an established sectoral regime and against the opposition of most European states and their flag carriers *Smart Mixes for Transboundary Environmental Harm* Judith van Erp,Michael Faure,André

Nollkaemper,Niels Philipsen,2019-03-28 Analyzes how combinations of instruments at different levels of government or smart mixes can effectively regulate transboundary environmental harm *Environmental Policy in Europe* Andrew J.

Jordan,Duncan Liefferink,2004-08-02 The continuing development of the European Union EU is transforming policy and politics in its member countries and possibly in an even larger number of potential members This book offers a detailed investigation of the Europeanization of national environmental policy in ten western European countries since 1970 By blending state of the art theories with fresh empirical material on the many manifestations of Europeanization it sheds new light on the dynamics that are decisively reshaping national environmental policy It also offers an original assessment of how far Europeanization has produced greater policy convergence in western Europe Throughout the approach taken is genuinely comparative drawing on the insights provided by leading country specialists *International Bibliography Of Economics*

2003 Compiled by the British Library of Political and Economic Science,2004-12 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage the IBSS reviews scholarship published in over 30 languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French Policy Transfer and Learning in Public Policy and Management Peter

Carroll,Richard Common,2013-06-26 A typical image of the making and administration of policy suggests that it takes place on an incremental basis involving public servants their ministers and to a more limited extent a variety of interest groups Yet much policy making is based on similar policy developed in other jurisdictions and in the major international organizations such as the WTO and the OECD In other words significant aspects of nationally developed policies are copied from elsewhere

in what is described as a process of policy transfer and learning Hence studies of policy transfer have pointed to a distinct limitation in most existing theoretical and empirical explanations as to how policy is made and implemented through their neglect of the role of policy transfer and learning Moreover policy transfer is not only a concern of academics but a growing concern for governments The latter are concerned to improve the performance of their policy and several have placed a greater more systematic focus on policy transfer as a means to increasing performance This book presents a variety of cases from differing national and international contexts that enable a valuable comparative analysis that is absent from most literature currently available and that suggest a number of exciting research directions with implications for policy making transference and implementation in the future Policy-making in the European Union Helen S. Wallace, Mark A.

Pollack, Alasdair R. Young, 2010 The policies of the European Union profoundly affect the lives of people in Europe and around the world The new edition of this highly successful textbook outlines how and why such decisions are made as well as the key challenges faced by policy makers in the current political and economic climate Policy Making in the European Union begins by clarifying the institutional framework of the EU and the analytical approaches used to understand it A wide range of crucial and illustrative policies are then explored in detail by subject experts This volume includes new chapters on ways of analyzing the EU's policy process and on energy policy A central theme to the volume is how the recent expansion to twenty seven member states has affected policy making across the different policy sectors The conclusion reflects on how this challenge and the protracted constitutional stalemate have affected policy making in the EU It also explores the impact of the financial and economic crises that have struck Europe over the past several years The sixth edition is fully up to date and is the ideal text for all those with an interest in the policy making of the European Union Europeanization and

Regionalization in the EU's Enlargement to Central and Eastern Europe J. Hughes, G. Sasse, 2004-10-12 This book is a study of EU conditionality and compliance during the enlargement to the Central and Eastern European candidate countries EU conditionality for membership is widely understood as having been a driving force for Europeanization providing incentives and sanctions for compliance or non compliance with EU norms such as the Copenhagen Criteria and the adoption of the *acquis communautaire* By taking regional policy and regionalization as a case study this book provides a comparative analysis of the effects of conditionality on the Central and East European countries and explores the many paradoxes and weaknesses in the use of EU conditionality over time The EU Timescape Klaus Goetz, Jan-Hinrik

Meyer-Sahling, 2013-09-13 The manner in which time is institutionalized is critical to how a political system works Terms time budgets and time horizons of collective and individual political actors rights over timing sequencing and speed in decision making and the temporal properties of policy matter to the distribution of power efficiency and effectiveness of policy making and democratic legitimacy This book makes a case for the systematic study of political time in the European Union EU both as an independent and a dependent variable and highlights the analytical value added of a time centred

analysis The book discusses previous scholarship on the institutionalization of political time and its consequences along the dimensions of polity politics and policy reviews dominant perspectives on political time which centre on power system performance and legitimacy and presents case studies that illustrate the importance of time in the governance of the EU This book was original published as a special issue of Journal of European Public Policy **Europeanization** P. Graziano, M. Vink, 2006-11-28 This cutting edge handbook written by foremost authoritative scholars presents the main theoretical and empirical issues involved in current Europeanization research It evaluates the achievements and shortcomings of the growing literature As an advanced reference book it also sets the parameters for Europeanization research in the coming years EBOOK: The Politics Of European Union Health Policies Scott Greer, 2009-06-16 Scott Greer has done a remarkable job in explaining how the Europeanization of health policy takes place how institutional legacies exert an influence in lobbying how harmonization exacerbates path dependent welfare structures that in turn impede a race to the bottom and why the idea of a European social model creates positive external effects even if it is only an ad hoc policy construction Journal of European Social Policy 2010 20 2 Provides an original and thought provoking perspective and approach combining in depth theoretical discussions and well researched case studies over 11 chapters The book is well written and insightful and the main argument is that EU law and policy developments directly and indirectly have the potential of undermining domestic health systems and the political actors within them Journal of Common Market Studies 2010 Volume 48 Number 3 This book provides a unique insight into what is going on unnoticed by most below the surface in EU health policy It serves as a wake up call for those who continue to believe that the EU is of marginal interest and relevance in national level debates about the direction of health care In addition in an engaging and lively style it provides essential guidance for students of health policy who seek to understand the labyrinthine processes and the wide ranging unintended consequences for good and for bad of EU policy making Professor Naomi Chambers Head of Health Policy and Management Manchester Business School In this insightful book Scott Greer describes how European health policy has long been developed in a secret garden where a small number of people find pragmatic solutions to immediate problems while avoiding the fundamental questions Yet the logic of European integration is tearing down the garden s walls creating a public park where pragmatism takes second place to principles Something must be done but it is not clear what Greer s book will be essential reading for anyone who is responsible for organising how health care is delivered in Europe Martin McKee CBE London School of Hygiene and Tropical Medicine UK This important new book explains how European Union EU developed policies shape and constrain health services It answers the key questions asked of EU health policy What is it Why did it happen What does it take to influence it and how can it be changed Using extensive new data Greer discusses how EU policy is influenced by lobbies in Brussels and by four big member states France Germany Spain and the United Kingdom Shaping EU health policy takes information coordination nimbleness and focus The book examines the ways that the successful health lobbies and member

states work identifies weaknesses and emphasizes the challenge to health policymakers if they do not influence EU health policies they will lose influence over their own health systems The Politics of European Union Health Policies will be of great interest to students and academics of EU policy and politics as well as health policy makers **Politics, Products, and Markets** Frederick M. Wirt, 2017-07-31 In contemporary life the marketplace has emerged as an important arena for the practice of politics Concerns about personal and family well being as well as ethical or political assessment of favorable and unfavorable business and government practices become part and parcel of the marketplace of politics This volume describes this phenomenon as political consumerism reflecting an understanding of politics as a product embedded in a complex social and normative context Politics Products and Markets is the first general study of political consumerism It asks fundamental questions including what is new and what is old about the phenomenon The authors discuss the mediating role of political consumerism in the problematic relationship between markets and morality They explore whether institutional arrangements have been developed to permit consumers and producers to assume ethical responsibility for their choices and behavior They ask why political consumerism is presently on the rise And they investigate the relationship between globalization and political consumerism Part 1 Making Money Morally discusses how political consumerism challenges the perceived division between private interests pursued by private actors in the market and public interests pursued through political means Part 2 Consumer Choices and Setting of the Agenda of Politics contains examples of how political consumerism sets the agenda of politics and discusses its democratic quality Part 3 Building Responsible Institutions in Multi Risk Society has as its central theme the development of new political consumer institutions Part 4 Politicizing Consumers and Change in Politics studies the characteristics of political consumers and raises the question of whether political consumerism really is politics This volume will be of interest to social scientists social activists and policy institutes
