Euthanasia and Physician-assisted Suicide Michael Manning (M.D.), 1998 A concise overview of the history and arguments surrounding euthanasia and physician assisted suicide **Euthanasia and Physician-Assisted Suicide** By: Michael Manning, M.D., A concise overview of the history and arguments surrounding euthanasia and physician assisted suicide Oxford Textbook of Palliative Nursing Betty Rolling Ferrell, Judith A. Paice, 2019-02-15 The Oxford Textbook of Palliative Nursing remains the most comprehensive treatise on the art and science of palliative care nursing available Dr Betty Rolling Ferrell and Dr Judith A Paice have invited 162 nursing experts to contribute 76 chapters addressing the physical psychological social and spiritual needs pertinent to the successful palliative care team This fifth edition features several new chapters including chapters on advance care planning organ donation self care global palliative care and the ethos of palliative nursing The ABA Complete and Easy Guide to Health Care Law American Bar Association, 2001-10-02 The ABA Complete and Easy Guide to Health Care Law is a comprehensive guide to understanding your rights as a patient and knowing how to move through the health care system This guide allows you to understand issues about health care to the fullest Among the issues covered are Patients Rights Confidentiality Privacy and the Patient s Bill of Rights Emergency Care Informed Consent Paying for Medical Care Insurance and Managed Care COBRA Reproduction Assisted Reproductive Technology Wrongful Birth and Wrongful Pregnancy Sterilization Abortion People with Disabilities Pregnancy Confidentiality and Disclosure Vaccinations Mandatory Testing Denoting Tort Liability Quarantine Nursing Homes Choosing a Nursing Home Paying for Long Term Care Medicaid Planning Alternative Care and Living Regulating Medical Professionals Licensing of Doctors Nurses and Hospitals Medical Malpractice Research on Humans Death and Dying Right to Refuse Life Sustaining Treatment Hospices Donating Your Organs Assisted Suicid **Ethics in Palliative Care** Robert C. Macauley, 2018 This is a comprehensive analysis of ethical topics in palliative care combining clinical experience and philosophical rigor A broad array of topics are explored from historical legal clinical and ethical perspectives offering both the seasoned clinician and interested lay reader a thorough examination of the complex ethical issues facing patients suffering from life threatening illness Bioethics of Nonexistence Leonard Tumaini Chuwa, 2020-08-03 The greatest violence and violation of human life is legalization of its disposability and annihilation based on its condition Such killing whether of self or another depicts absolute contradiction and betrayal of the very hypothesis of humanity It manifests absolute failure to provide due care and that is inhuman Human life is who we are It is the basis of any argument for human rights There cannot be a right to terminate the existence of the rights bearer Such a right contradicts the possibility of its own existence There cannot be dignity in terminating the one in whom dignity resides There can only be indignity in killing a person The paradox of legalization of euthanasia and assisted suicide represents humanity turned on itself It is endorsement of existential nihilism and objectification of human life It is the beginning of the end of humanhood This book is a critical ethical exploration of mind

sets around euthanasia and assisted suicide to provide clarity sobriety and objectivity The book is really about ontology of human life Dr Leonard Tumaini Chuwa is a Catholic priest and scholar working for Ascension as director of spiritual care for the state of Florida Dr Chuwa is certified by the National Association of Catholic Chaplains NACC Chuwa has bachelor of arts degrees in philosophy and theology master of arts degree in theology and religious studies from John Carroll Jesuit University in Cleveland Ohio and a doctor of philosophy degree in bioethics and health care ethics from Duquesne University in Pittsburgh Pennsylvania Chuwa is a distinguished public speaker on different bioethical issues His first book titled African Indigenous Ethics in Global Bioethics Interpretation of Ubuntu was published by Springer Academic Publishing as the first book in a new global bioethics series Father Chuwa also authored Bioethical False Truths Egotistic and Relativistic Autonomy vs Christian and Ubuntu Relational Autonomy **Practical Decision Making in Health Care Ethics** Raymond J.

Devettere,2016 In this revised fourth edition of the classic textbook Devettere updates most chapters adding new cases on the following overriding advance directives the palliative care movement prenatal life and abortion neonatal testing and mandatory vaccinations facial transplantations genetic testing and legal issues surrounding the Affordable Care Act

Disputes in Bioethics Christopher Kaczor,2020-09-30 Disputes in Bioethics tackles some of the most debated questions in contemporary scholarship about the beginning and end of life This collection of essays takes up questions about the dawn of human life including Should we make children with three or more parents Is it better never to have been born and Why should the baby live This volume also asks about the dusk of human life Is death with dignity a dangerous euphemism Should euthanasia be permitted for children Does assisted suicide harm those who do not choose to die Still other questions are asked concerning recent views that health care professionals should not have a right to conscientiously object to legal and accepted medical practices Finally the book addresses questions about separating conjoined twins as well as the issue of whether the species of an individual makes a difference for the individual s moral status Christopher Kaczor critiques some of the most recent and influential positions in bioethics while eschewing both consequentialism and principlism Rooted in the Catholic principle that faith and reason are harmonious this book shows how Catholic bioethical teaching is rationally defensible in terms that people of good will secular or religious can accept Proceeding from a natural law perspective Kaczor defends the inherent dignity of all human beings and argues that they merit the protection of their basic human goods because of that inherent dignity Philosophers interested in applied ethics as well as students and professors of law will profit from reading Disputes in Bioethics The book aims to be both philosophically sophisticated and accessible for students and experienced researchers alike **The Patient's Wish to Die** Christoph Rehmann-Sutter,Heike Gudat,Kathrin

Ohnsorge,2015-06-04 Wish to die statements are becoming a frequent phenomenon in terminally ill patients Those confronted by these statements need to understand the complexity of such wishes so they can respond competently and compassionately to the requests If misunderstood the statements can be taken at face value and the practitioner may not recognise that a patient is in fact experiencing ambivalent feelings at the end of life or they may misinterpret the expressed wish to die as a sign of clinical depression Public debate about the morality and ethics of various end of life care options has exploded in recent years However it has never been sensitive to the finer aspects of clinical reality or the experiences of patients The Patient s Wish to Die Research Ethics and Palliative Care brings together that reality and the patient s voice

combining them with different research approaches It presents the best available knowledge and research methodologies about patients wishes at the end of life together with a series of ethical views and a discussion about the clinical implications for palliative care The book presents material in an open and unbiased manner whilst remaining sensitive to the spiritual and existential dimensions of dying and to the different cultural views that provide meaning to the individual Written by the best specialists and ethics scholars from around the world including palliative care practitioners and end of life scholars from countries where assisted dying practices are legalized and from those where it isn't The Patient's Wish to Die Research Ethics and Palliative Care will prove essential reading for all those working or studying in the field of palliative care

Manual of Critical Care Nursing - E-Book Marianne Saunorus Baird, Susan Bethel, 2010-11-23 Revised format mirrors a practicing nurse's approach to patient care making it easier to find information Newly formatted care plans incorporate diagnoses interventions and desired outcomes in a consistent logical organization Patient safety alerts and high alerts call attention to issues important to a patient's safety Unique Diagnostic Tests tables highlight the definition purpose and abnormal findings for each test Unique Collaborative Management tables concisely summarize key points while incorporating nationally recognized guidelines Colored tabs mark the location of each body system making topics easier to find Smaller trim size increases portability for use in the unit or bedside while enhancing readability
