

## How To Evaluate Art

Evaluating art is more than just saying if we *like* or *dislike* it. The goal is to see if we can look closely at the elements of art and the principles of design that they have used to be able to comment on how *effective* the artist has used them to communicate the message. It's okay to not like a work of art but still appreciate the artist's use of elements and design.

The first thing that you would do when looking at a piece of art is to think what type of art it is.

For example, is it an example of

**abstract, representational  
or naturalist style?**

*Tolstoy's 'What is Art?'* Terry Diffey, 2014-08-27 With its demand that works of art be judged according to the their

morally didactic content Tolstoy's reviled aesthetics has seemed to exclude from the canon far too many works widely accepted as masterpieces including Shakespeare and Beethoven This book first published in 1985 argues that these are not mere oversights on the part of Tolstoy he knew full well the consequences of his line of reasoning The author contends that even if we disagree with and eventually reject much of what Tolstoy concludes his account of the nature and purpose of art is nevertheless worth consideration Diffey's argument by no means accepts all of What is Art but by suggesting that the work is best interpreted as a counterpoint to the amoral aestheticism prevalent in Russia at the time he does much to restore it to a status deserving attention particularly in today's climate of extreme relativism      **Visual Arts** Mr. Rohit Manglik,2023-11-22
