have then been applied in practice **Evaluation for the 21st Century** Eleanor Chelimsky, William R. Shadish, 1997-01-28 What methodological tools have been most useful in doing evaluation What are some of the new methodologies that are being used and developed Will the types of things evaluated expand from programs personnel and products to foreign aid medical technology environmental interventions and World Bank loan programs What will evaluation be like in the 21st century These impressive evaluators from around the globe explore how evaluation has come to be what it is today and what the professional evaluation landscape will be like in the future They examine the following What makes evaluation different from other disciplines The links and differences between evaluation and auditing professions Which activities have priority in evaluation under what circumstances and for what purposes New methodological approaches to doing evaluation The issues of advocacy versus truth in evaluation and between evaluating programs versus empowering people to evaluate their own programs Evaluation for the 21st Century features thoughtfully written introductions to each of the main sections that provide a context and synthesis of the various evaluators chapters After reading this groundbreaking book researchers and practitioners will be able to recognize these new developments in evaluation as they encounter them place them in context and incorporate them into their own evaluation professions and practices A stunning achievement Evaluation for the 21st Century is for all professionals and practitioners in evaluation management public administration sociology psychology education research public health and nursing **Working with Assumptions in International Development Program Evaluation** Apollo M. Nkwake, 2019-11-27 This book discusses the crucial place that assumptions hold in conceptualizing implementing and evaluating development programs It suggests simple ways for stakeholders and evaluators to 1 examine their assumptions about program theory and environmental conditions and 2 develop and carry out effective program monitoring and evaluation in light of those assumptions A survey of evaluators from an international development agency reviewed the state of practice on assumptions aware evaluation This 2nd edition has been updated with further illustrations case studies and frameworks that have been researched and tested in the years since the first edition Regardless of geography or goal development programs and policies are fueled by a complex network of implicit ideas Stakeholders may hold assumptions about purposes outcomes methodology and the value of project evaluation and evaluators which may or may not be shared by the evaluators A major barrier to viable program evaluations is that development programs are based on assumptions that often are not well articulated In designing programs stakeholders often lack clear outlines for how implemented interventions will bring desired changes This lack of clarity masks critical risks to program success and makes it challenging to evaluate such programs Methods that have attempted to address this dilemma have been popularized as theory of change or other theory based approaches Often however theory based methods do not sufficiently clarify how program managers or evaluators should work with the assumptions inherent in the connections between the steps The critical examination of assumptions in evaluation is essential for effective evaluations and evaluative thinking How does one

think evaluatively It all begins with assumptions Systematically articulating examining and testing assumptions is the foundation of evaluative thinking This book more than any other explains how to build a strong foundation for effective interventions and useful evaluation by rigorously working with assumptions Michael Quinn Patton PhD Author of Utilization Focused Evaluation and co editor of THOUGHTWORK Thinking Action and the Fate of the World USA This updated edition presents us with a new opportunity to delve into both the theoretical and practical aspects of paradigmatic prescriptive and causal assumptions We need to learn and apply these insights with the deep attention they deserve Zenda Ofir PhD Independent Evaluator Richard von Weizsäcker Fellow Robert Bosch Academy Berlin Germany Honorary Professor School of Public Leadership Stellenbosch University South Africa This thought provoking book explains why assumptions are an essential condition within the theories and methodologies of evaluation and how assumptions influence the ways that evaluators approach their work It will enrich the ways that evaluators develop their models devise their methodologies interpret their data and interact with their stakeholders Jonny Morell Ph D President 4 669 Evaluation and Planning Editor Emeritus Evaluation and Program Planning *Evaluation Handbook* , **Social Work Evaluation** James R. Dudley,2020 Social workers are increasingly met with the demands of evaluating their own programs and practice to maintain accountability with stakeholders secure funding and to remedy a number of large scale problems facing our society One of the four basic areas of the Educational Policy and Accreditation Standards EPAS evaluation is a critical process for demonstrating social work programs ability to help the clients and communities they serve Social Work Evaluation Third Edition offers a straightforward guide in a broad range of social work evaluations at both the program and practice levels Author James R Dudley s seven step approach to evaluation makes use of qualitative quantitative and mixed research methods to identify oversight and issues at the planning implementation and final outcome stages of intervention development His unique focus on involving clients in the evaluation process ensures social workers consistently improve their capacity to impact clients well being and remain accountable to the communities they serve Case examples from the author s extensive experience in evaluation illustrate a number of logic based methods discussed throughout the text for real world application This comprehensive text aims to enhance student and practitioner skill sets to meet the demands of a changing field Evaluating Student Learning in Higher Education: Beyond the Public Rhetoric William H. Rickards,Monica Stitt-Bergh,2016-09-27 Evaluation has played a fundamental role throughout the history of higher education It has been key to institutional missions and for accountability concerns for public funding policy and fiscal oversight In the last 30 years there has been focused attention on the quality of education and student learning Campuses have stepped up their initiatives to evaluate educational outcomes and communicate these to their constituencies just as regional state and national efforts have emerged regarding assessment of learning outcomes In this context various methods and approaches to evaluative inquiry have emerged to support efforts to increase the effectiveness and efficiency of instructional practice and curriculum

for higher learning This edition examines perspectives on evaluation studies addressing higher education learning from program to institution based studies and critiques of practice to document successes and identify significant challenges that face evaluators and the collaborating educators in the continuing development of higher education This examination represents both an investigation into the particular insights that evaluative inquiry contributes to the scholarship and practice of higher education and a reflection on the evaluation expertise that can be applied across contexts of professional practice and program development This is the 151st issue in the New Directions for Evaluation series from Jossey Bass It is an official publication of the American Evaluation Association

Evaluating Information Systems Zahir Irani, Peter Love, 2008-05-12 The adoption of Information Technology IT and Information Systems IS represents significant financial investments with alternative perspectives to the evaluation domain coming from both the public and private sectors As a result of increasing IT IS budgets and their growing significance within the development of an organizational infrastructure the evaluation and performance measurement of new technology remains a perennial issue for management This book offers a refreshing and updated insight into the social fabric and technical dimensions of IT IS evaluation together with insights into approaches used to measure the impact of information systems on its stakeholders In doing so it describes the portfolio of appraisal techniques that support the justification of IT IS investments Evaluating Information Systems explores the concept of evaluation as an evolutionary and dynamic process that takes into account the ability of enterprise technologies to integrate information systems within and between organisations In particular when set against a backdrop of organisational learning It examines the changing portfolio of benefits costs and risks associated with the adoption and diffusion of technology in today's global marketplace Finally approaches to impact assessment through performance management and benchmarking is discussed
