*The Urban Pulpit* Matthew Bowman, 2014-02-04 Matthew Bowman explores the world of a neglected group of American Christians the self identified liberal evangelicals who began in late nineteenth century New York to reconcile traditional evangelical spirituality with progressive views on social activism and theological questions These evangelicals emphasized the importance of supernatural conversion experience but also argued that scientific advances new movements in art and the decline in poverty created by a new industrial economy could facilitate encounters with Christ *The Urban Pulpit* chronicles the struggle of liberal evangelicals against conservative Protestants who questioned their theological sincerity and against secular reformers who grew increasingly devoted to the cause of cultural pluralism and increasingly suspicious of evangelicals over the course of the twentieth century Liberal evangelicals walked a difficult path facing increasing polarization in twentieth century American public life both conservative

evangelicals and secular reformers insisted that religion and science were necessarily at odds and that evangelical Christianity was incompatible with cultural diversity Liberal evangelicals rejected these simple dichotomies but nonetheless found it increasingly difficult to defend their middle way Drawing on history anthropology and religious studies Bowman paints a complex portrait of these understudied Christians at work at worship and engaged in advocacy in the public square

**The Making of the New Testament** Arthur G. Patzia, 2025-11-04 The story of the making of the New Testament is one in which scrolls bumped across cobbled Roman roads and pitched through rolling Mediterranean seas finally finding their destinations in stuffy dimly lit Christian house churches in Corinth or Colossae There they were read aloud and reread handled and copied forwarded and collected studied and treasured And eventually they were brought together to make up our New Testament This revised and expanded edition of The Making of the New Testament is a textbook introduction to the origin collection copying and canonizing of the New Testament documents Like shrewd detectives reading subtle whispers of evidence biblical scholars have studied the trail of clues and pieced together the story of these books Arthur Patzia tells the story answering our many questions How were books and documents produced in the first century What motivated the early Christians to commit teaching and narrative and vision to papyrus How were the stories and sayings of Jesus circulated handed down and shaped into Gospels What do we know about ancient letter writing secretaries and copy shops Why were four Gospels included instead of just one How were Paul's letters sent here and there gathered into a single collection Who decided and by what

**Scribal Harmonization in the Synoptic Gospels** Cambry Pardee, 2019-01-14 In Scribal Harmonization Cambry G Pardee examines the earliest Greek manuscripts of the Synoptic Gospels for evidence that scribes altered the text of the Gospels either deliberately or inadvertently in ways that eliminated discrepancies between them The phenomenon of harmonization demonstrates that a scribe s memories of previous experiences with gospel traditions could have a powerful effect on the manuscripts that they produced This book assembles for the first time a catalogue of harmonizing variants from every manuscript of Matthew Mark and Luke from the fourth century and earlier Far from reducing the unique voices of the individual evangelists to a single melody the earliest scribes contributed new tones innovative strains and fascinating harmonies to the four fold gospel tradition

*Scribes, Theology, and Apologetics* Alan Mugridge, 2024-12-16 This book is a companion volume to *Scribes Motives and Manuscripts* In this volume Alan Mugridge provides an assessment of two major studies which claim that scribes of New Testament manuscripts changed the text in their copies from what they found in those they were using as models either to further their own theological convictions and hinder opposing views from finding

support in those manuscripts or to respond to criticism of Christ and Christians in wider society In both cases the thesis examined is that copyists did not just reproduce the manuscripts given to them but changed their copies to say what they wanted them to say These theories are tested by an examination of the manuscripts with their textual variants arguing that the variant readings can usually be explained as the result of scribal carelessness or simple piety The idea that copyists deliberately changed the text in their manuscripts is found to have little basis Mudge concludes that the text of the New Testament has not been affected nearly as much as some contend because variant readings are generally errors that can be isolated and the original text established with some confidence
