Evaluation And Poverty Reduction Proceedings From A World Bank Conference:

Evaluation and Poverty Reduction Osvaldo Néstor Feinstein, Robert Picciotto, 2000-01-01 Many different organizations and institutions around the world came together for a conference to discuss the meaning of evaluation in poverty reduction. Their goals during the two day conference were first to identify lessons from past efforts to evaluate poverty reduction programs second to search for the new evaluation frontier in methodology for future poverty reduction programs and third to discuss how partnerships in evaluation can be promoted and how to use evaluation results more effectively. This volume contains the proceedings of that conference. World Bank Operations Evaluation Department Patrick Grasso, Sulaiman S. Wasty, Rachel Weaving, 2003-01-01 About the Operations Evaluation Department of the World Bank from 1973 to 2003

2000 Annual Review of Development Effectiveness William Battaille, 2001-01-01 This Annual Review of Development Effectiveness ARDE builds on previous reviews i.e. the 1998 review released in a hostile environment of financial crisis concluded that improvements in project performance cannot be enough that improvements at a higher plane of program and country performance should also be present and the 1999 review inscribed within the Comprehensive Development Framework dilemmas and challenges identified practices for dealing with those challenges namely to be based on country commitments to poverty reduction and sustainable growth. The ARDE 2000 finds that progress was solid on a broad front but that further progress is likely. Portfolio performance is likely to exceed the Strategic Compact target of seventy five percent satisfactory outcomes and sustainability and institutional development ratings reflect improvements. Though progress is commendable this review examines four tensions the Bank faces learning to reconcile client and corporate priorities adapting global prescriptions to local conditions balancing country performance and poverty incidence in allocating its resources and achieving efficiency selectivity seeking to implement a holistic vision of development. Bank strategies should acknowledge client needs judicious adaptation to institutional social and political fronts should be pursued and an approach to poor performing countries should be addressed. **Public Expenditure Analysis** World Bank, 2005 Focuses on the public sector in developing countries. Provides tools of analysis for discovering equity in tax burdens as well as in public spending and judging government performance in its role in safeguarding the interests of the poor and disadvantaged. Outlines a framework for a rights based approach to citizen empowerment in other words creating an institutional design with appropriate rules restraints and incentives to make the public sector responsive and accountable to an average voter.

Best Practices in Poverty Reduction Else Øyen, Alberto D. Cimadamore, 2002-08 This book is a contribution to the central question of how to develop effective anti poverty strategies worldwide. **Ending Global Poverty** Stephen C. Smith, 2015-03-17 Over 800 million people suffer from chronic hunger and over ten million children die each year from preventable causes. These may seem like overwhelming statistics but as Stephen Smith shows in this call to arms global poverty is something that we can and should solve within our lifetimes. Ending Global Poverty explores the various traps that

keep people mired in poverty traps like poor nutrition illiteracy lack of access to health care and others and presents eight keys to escaping these traps Smith gives readers the tools they need to help people overcome poverty and to determine what approaches are most effective in fighting it For example celebrities in commercials who encourage viewers to adopt a poor child really seem to care but will sending money to these organizations do the most good Smith explains how to make an informed decision Grass roots programs and organizations are helping people gain the capabilities they need to escape from poverty and this book highlights many of the most promising of these strategies in some of the poorest countries in the world explaining what they do and what makes them effective Poverty Reduction and the World Bank ,1999-01-01

Evaluation of the IMF's Role in Poverty Reduction Strategy Papers and the Poverty Reduction and Growth Facility Mr. Alex Segura-Ubiergo, Mrs. Isabelle Mateos y Lago, Mr. Jeff Chelsky, Mr. Steve Mugerwa, Mr. Daouda Sembene, Mr. David John Goldsbrough, Mr. Martin David Kaufman, Mr. Tsidi M. Tsikata, 2004-09-30 In 1999 the IMF and the World Bank adopted a new frame work for supporting economic reform in low income member countries to achieve the objectives of poverty reduction

and economic growth The frame work consists of two key elements country authored Poverty Reduction Strategy Papers drawing on broad based consultations with key stake holder groups and a vehicle for the provision of IMF concessional lending the Poverty Reduction and Growth Facility This evaluation takes stock of progress to date and attempts to identify short comings that may require course corrections in the design and implementation of the initiative *Negotiated Learning* Irene Guijt, 2010-09-30 The first book to critically examine how monitoring can be an effective tool in participatory resource management Negotiated Learning draws on the first hand experiences of researchers and development professionals in eleven countries in Africa Asia and South America Collective monitoring shifts the emphasis of development and conservation professionals from externally defined programs to a locally relevant process It focuses on community participation in the selection of the indicators to be monitored as well as community participation in the learning and application of knowledge from the data that is collected As with other aspects of collaborative management collaborative monitoring emphasizes building local capacity so that communities can gradually assume full responsibility for the management of their resources The cases in Negotiated Learning highlight best practices but stress that collaborative monitoring is a relatively new area of theory and practice The cases focus on four themes the challenge of data driven monitoring in forest systems that supply multiple products and serve diverse functions and stakeholders the importance of building upon existing dialogue and learning systems the need to better understand social and political differences among local users and other stakeholders and the need to ensure the continuing adaptiveness of monitoring systems **The Political Economy of Microfinance** Philip Mader, 2016-01-12 According to the author rather than alleviating poverty microfinance financialises poverty By indebting poor people in the Global South it drives financial expansion and opens new lands of opportunity for the crisis ridden global capital markets This book raises fundamental concerns about this widely celebrated tool for social development *How to Build M and E Systems to Support Better Government* Keith Robin Mackay, 2007 A growing number of governments are working to improve their performance by creating systems to measure and help them understand their performance These systems for monitoring and evaluation M E are used to measure the quantity quality and targeting of the goods and services the outputs that the state provides and to measure the outcomes and impacts resulting from these outputs These systems are also a vehicle to facilitate understanding of the causes of good and poor performance *Advances in Responsible Land Administration* Jaap Zevenbergen, Walter de Vries, Rohan Mark Bennett, 2015-08-14 Advances in Responsible Land Administration challenges conventional forms of land administration by introducing alternative approaches and provides the basis for a new land administration theory A compilation of observations about responsible land administration in East Africa it focuses on a new empirical foundation rather than preexisting ideal **The World Bank's Country Policy and Institutional Assessment** The World Bank, 2010-09-13 The evaluation finds that the content of the World Bank's Country Policy and Institutional Assessment CPIA is largely relevant for growth and poverty reduction in the sense that it maps well

with the determinants of growth and poverty reduction identified in the economics literature. However, some CPIA criteria need to be revised in particular trade and finance and one needs to be added assessment of disadvantaged socio-economic groups. Second, the evaluation finds that the CPIA ratings are in general reliable and correlate well with similar indicators. The World Bank's internal review process helps guard against potential biases in having Bank staff rate countries on which their work programs depend. The CPIA ratings are found to correlate better with similar indicators for middle income countries than for low income countries. This could be because there is more information available on middle income countries which increases the likelihood of different institutions having similar assessments on them. This could also be because the CPIA rating exercise takes into account the stage of development which is more pertinent for low income countries and which also subject the ratings of those countries to more judgment in an exercise that is already centered on staff judgment.

In exploring these themes, this book will be a valuable reference for postgraduate students and professionals in the fields of development studies and political economy.

Beyond Structural Adjustment Nicolas Van de Walle, N. Ball, V. Ramachandran, 2006-08-30

As the World Bank famously put it back in 1989, underlying the litany of Africa's development problems is a crisis of governance. This is a collection of authoritative essays bringing together prominent Africanists in political science and public administration to look at the role of governance in African development. The goal of the book is to move beyond the status quo debates about structural adjustment and to look at all the public and civic institutions which are likely to play a critical role if Africa is to overcome its economic crisis.

Managing Fiscal Decentralization Ehtisham Ahmad, Vito Tanzi, 2002-07-18

The growth of interest in fiscal decentralization has meant that there has been something of a rush to enshrine this in policy. The World Bank has reported that about seventy countries see this as a major part of their development strategy. This book critically examines the case for decentralization.
