The Village in Antiquity and the Rise of Early Christianity Alan Cadwallader, James R. Harrison, Angela Standhartinger, L. L. Welborn, 2023-12-28. A complete geographical and thematic overview of the village in antiquity and its role in the rise of Christianity. The volume begins with a state-of-the-question introduction by Thomas Robinson assessing the interrelation of the village and city with the rise of early Christianity. Alan Cadwallader then articulates a methodology for future New Testament studies on this topic, employing a series of case studies to illustrate the methodological issues raised. From there, contributors explore three areas of village life in different geographical areas by means of a series of studies written by experts in each discipline. They discuss the ancient Near East, Egypt, and Israel, mainland and Isthmian Greece, Asia Minor, and the Italian Peninsula. This geographic focus sheds light upon the villages associated with the biblical cities: Israel, Corinth, Galatia, Ephesus, Philippi, Thessalonica, Rome, including potential insights into the rural nature of the churches located there. A final section of thematic studies explores central issues of local village life: indigenous and imperial cults, funerary culture, and agricultural and economic life.

This is one of the first systematic theologies written from a believer s church chiefly an Anabaptist Mennonite perspective Dr Finger develops his themes throughout the volume in careful dialogue with Reformed Lutheran Roman Catholic and other historic approaches The eschatological approach taken by Finger does not represent a fixation on future events Rather it represents a method of inquiry based on the early Christian conviction that the last things had already occurred through Jesus even though their effects were not yet fully realized Chief among these were the resurrection of the dead the outpouring of the Spirit the coming of God s kingdom and the defeat of the powers of evil After outlining this vantage point Volume I considered eschatology revelation and the work of Christ in its light Volume II begins with anthropology Jesus human work provides the norm for authentic human being Justification comes next and is considered as the eschatological revelation and actualization of God s righteousness through the faithfulness of Jesus Christ After treating the dynamics of personal sanctification Dr Finger explores the context within which it is pursued the church His ecclesiology begins with mission including its approach to non Christian religions and the sociopolitical realm Volume II ends where most systematic theologies begin with God including the humanity and deity of Jesus Christ Thomas N Finger has undertaken an important task that is rarely attempted the production of a constructive systematic theology informed by judicious dialogue with current biblical scholarship Finger s methodological decision to adopt an eschatological approach enables him to work formally as well as materially from within a perspective shaped by the NT writers his innovative organization of the loci of Christian doctrine with its emphasis on the church as a community of believers living out the tensions between Christ s resurrection and Parousia is a direct result of taking the NT seriously Particularly noteworthy is his exposition of the doctrine of justification in the light of recent paradigm shifts in Pauline studies Finger s book is a productive and edifying work for all who care about the ongoing conversation between Scripture and systematics Richard Hays Duke Divinity School Thomas N Finger has chosen an approach to the systematic presentation of Christian Theology which I also have taken since the publication of my *Theology of Hope* in 1964 He begins with the goal with eschatology With that goal in mind a new light is
