White Rage Martin Durham, 2007-11-13

White Rage examines the development of the modern American extreme right and American politics from the 1950s to the present day It explores the full panoply of extreme right groups from the remnants of the Ku Klux Klan to skinhead groups and from the militia groups to neo nazis In developing its argument the book discusses the American extreme right in the context of the Oklahoma City bombing 9 11 and the Bush administration explores the American extreme right s divisions and its pursuit of alliances analyses the movement s hostilities to other racial groups Written in a moment of crisis for the leading extreme right groups this original study challenges the frequent equation of the extreme right with other sections of the American right It is a movement whose development and future will be of interest to anyone concerned with race relations and social conflict in modern America

Three Perspectives Steven H. Propp, 2009-12

You re Jewish aren t you This blunt question is the way that college freshman Richard Cohn is introduced to an outspoken fellow student named Dov Epstein who calls himself a Messianic Jew and believes that God has a special purpose for the Jewish people in these Last Days Raised by secular Jewish parents Richard is completely oblivious to his own Jewish background until this ongoing dialogue forces him to confront his own heritage The two young men vigorously argue with each other over the interpretation of the Hebrew Bible particularly its reputed predictions of a Messiah Christian doctrines such as the Trinity and most significantly about the identity and significance of Jesus of Nazareth The rigorous process of self examination this initiates leads Richard to embrace his Jewish identity even as he vehemently denies the same for Dov The two ultimately become fast friends but as they progress from an academic environment to the professional world they are challenged by racist statements made by prominent national figures anti Semitic doctrines such as Christian Identity which teaches that white Anglo Saxons are the true Israel and also purported scholars who deny the reality of the Holocaust itself Circumstances in life connect them with a young Iranian migr named Jahangir Khatami whose Muslim beliefs conflict strongly with their own Yet when a violent incident brings the three of them together they are forced to reexamine not just their differences but their similarities While

they clash over the ideals of Zionism and its ramifications in the modern State of Israel they are united in their horror over the terrorist attacks of September 11 2001 Join a diverse cast of characters some of whom appeared in the author s earlier book *Beyond Heaven and Earth* in a probing exploration that may help you reconsider just what it means to be Jewish Christian or Muslim in the modern world **What Really Happened in the Garden of Eden?** Clayton Kendall,2007 Have you explored the many intricacies in the Garden of Eden story How about studying Genesis 3 in its original language Pastor Clayton Kendall encourages us to think for ourselves and in this substantive and learned work he presents a common sense look into what literalists ask us to believe regarding Adam Eve and the serpent **Eve, Did She Or Didn't She?** Ted R. Adam and Eve Versus Evolution Ronald Conte,2014-10-18 This book argues in favor of Adam and Eve as two real historical persons and also in favor of accepting evolution as one of the natural means that God uses to guide the unfolding of His Creation Adam and Eve were created by God miraculously and they became the first parents of the entire human race But God used evolution under His providence to prepare the form of the human body Then God miraculously created Adam and Eve as the first two true human persons and He gave them immortal souls with free will and reason Some Christians

reject evolution and other scientific theories adhering instead to an entirely literal interpretation of the Book of Genesis Others reject the historicity of Genesis as if it were merely a collection of fictional teaching stories When faith and science disagree how should faithful Christians respond We cannot reject the truths of our faith But neither should we reject the gift of reason and the insights of modern science Therefore this book proposes that both the story of Adam and Eve and the theory of evolution are essentially true when properly understood The early chapters of Genesis contain some literal historical elements along with many figurative elements Adam and Eve were two literal historical persons They each fell from grace by committing the first sins of the human race original sin But other elements of their story are figurative including a forbidden fruit and a talking serpent And the seven days of Creation are also figurative not literal The theory of evolution in its main tenets is compatible with this approach to the Bible which sees both literal and figurative elements woven together in a single tapestry of truth God created the universe and He may well have done so in the manner described by science God chose to create life on Earth but that life developed and progressed largely as the theory of evolution explains In addition God s Providence has always guided Creation as a whole and particularly life on Earth He who created all things also created the principles of nature God gave the principles of nature the role of governing the development of the universe as well as the development of life on Earth For such is His plan for His Creation Science has the role of discovering the inherent principles of all natural things But science must not speak or act as if it were the judge over Faith The theory of evolution fails on a few points Evolution ignores the role of God in creating the first life on Earth in governing the development of living things and in choosing to create the human race The idea that one species can evolve into another species is well proven but the claim that life evolved from non living chemicals is not I believe that God intervened directly to create the first single cell organisms on Earth Subsequently evolution under the providence of God developed that life over the course of billions of years into a vast array of plants and animals But evolution eventually reached a glass ceiling after the development of the higher forms of animal life For no natural principle is able to evolve or create an immortal soul with free will and the ability to reason abstractly And so God intervened miraculously to create the first two human persons Adam and Eve After they fell from grace these two became the parents of the whole human race All human persons on Earth are descended from Adam and Eve *Glorious Truths About Mother Eve ,*
