# Economic Analysis Of Labour

**Jed DeVaro**

## **Economic Analysis Of Labour:**

**Economic Analysis of Agricultural Production and Labour Utilisation Among the Hausa in the North of Nigeria** David W. Norman,1973      *Unemployment* K. G. Knight,1986-01-01 Unemployment is currently the major economic concern in developed countries This book provides a thorough analysis of the theoretical and empirical aspects of the economics of unemployment in developed countries It emphasizes the multicausal nature of unemployment and offers a variety of approaches for coping with the problem Contents Unemployment Costs and Measurement Stocks Flows Duration and the Incidence of Unemployment Search Unemployment and Unfilled Vacancies Macroeconomics of Unemployment The Classical Approach Macroeconomics of Unemployment The Non Market Clearing Approach Non Natural Unemployment The Empirical Evidence The Natural Rate of Unemployment The Supply Side The Natural Rate of Unemployment The Demand Side Unemployment Policy and Prospects Bibliography R      **The Economic Analysis of Labour** Malcolm R. Fisher,1971

**The Economic Analysis of Producers' Cooperatives** Frank H. Stephen,1984-06-18      **The Economic Analysis of Labour** ,1969 Study of work economics covers the relationship between labour supply and labour demand the economic implications of decision making by enterprises the role of trade unions in labour relations and in employment market questions with particular reference to the UK etc Bibliography pp 279 to 290      **Advances in the Economic Analysis of Participatory and Labor-Managed Firms** Alex Bryson,2012-09-25 With the financial crisis and Great Recession some economists have begun to question the orthodox approach to production and capital labor relations over the years This orthodoxy thrown into question due to concerns of poor corporate decision making corporate capture of regulators perceived rewards for failure and uneven productivity growth      Advances in the Economic Analysis of Participatory & Labor-Managed Firms Antti Kauhanen,2015-12-14 The articles in this volume offer stimulating research on the relationship among business cycles participatory and labor managed organizations and employee voice These contributions take various theoretical and empirical approaches and investigate many industries and countries thus offering a balanced view on these current topics

**Advances in the Economic Analysis of Participatory and Labor-Managed Firms** Jed DeVaro,2011-09-20 Contains a stimulating collection of original papers spanning a variety of topics This title contains three papers on the subject of job design and organizational performance covering the determinants of multiskilling from a theoretical perspective and also the empirical effect of multiskilling and teams on financial performance      **Economic Analysis and Workers' Management** ,1985

The Economic Analysis of Labor Market Discrimination Glen George Cain,1985      *Handbook on the History of Economic Analysis Volume III* Gilbert Faccarello,Heinz D. Kurz,2016-07-27 This unique troika of Handbooks provides indispensable coverage of the history of economic analysis Edited by two of the foremost academics in the field the volumes gather together insightful and original contributions from scholars across the world The encyclopaedic breadth and scope of the original entries will make these Handbooks an invaluable source of knowledge for all serious students and scholars of the

history of economic thought      Government Regulation of the Employment Relationship Bruce E. Kaufman, 1997 Ever since the emergence of industrial relations as a field in the late 1920s three different approaches to labor problems have been focal points for research and debate according to Bruce E Kaufman What he refers to as employers solutions involve personnel management workers rely on unionism and collective bargaining and the third component the community depends on government regulation in the form of protective labor legislation and social insurance programs Kaufman contends that government regulation has contributed significantly to the remarkable progress made during the twentieth century in achieving a more productive and humane workplace As labor problems have changed debate about the efficacy of government regulation has continued In this volume some of the most distinguished scholars in industrial relations frame the current issues develop theoretical insights and provide an objective review of the empirical evidence      *Research Handbook on the Economics of Labor and Employment Law* Michael L. Wachter, Cynthia L. Estlund, 2012-01-01 Wachter and Estlund have assembled a feast on the economic analysis of issues in labor and employment law for scholars and policy makers The volume begins with foundational discussions of the economic analysis of the individual employment relationship and collective bargaining It then progresses to discussions of the theoretical and empirical work on a wide range of important labor and employment law topics including union organizing and employee choice the impact of unions on firm and economic performance the impact of unions on the enforcement of legal rights just cause for dismissal covenants not to compete and employment discrimination Anyone who wants to study what economists have to say on these topics would do well to begin with this collection Kenneth G Dau Schmidt Indiana University Bloomington School of Law US This Research Handbook assembles the original work of leading legal and economic scholars working in a variety of traditions and methodologies on the economic analysis of labor and employment law In addition to surveying the current state of the art on the economics of labor markets and employment relations the volume s 16 chapters assess aspects of traditional labor law and union organizing the law governing the employment contract and termination of employment employment discrimination and other employer mandates restrictions on employee mobility and the forum and remedies for labor and employment claims Comprising a variety of approaches the Research Handbook on the Economics of Labor and Employment Law will appeal to legal scholars in labor and employment law industrial relations scholars and labor economists      **Economic Study of Puerto Rico** United States. Dept. of Commerce. Interagency Study Group, 1979      *Economic Study of Puerto Rico* United States. Department of Commerce. Interagency Study Group, 1979      **Handbook of Labor Economics** Orley Ashenfelter, David Card, 1999-11-18 Modern labor economics has continued to grow and develop since the first volumes of this Handbook were published The subject matter of labor economics continues to have at its core an attempt to systematically find empirical analyses that are consistent with a systematic and parsimonious theoretical understanding of the diverse phenomenon that make up the labor market As before many of these analyses are provocative and controversial

because they are so directly relevant to both public policy and private decision making In many ways the modern development in the field of labor economics continues to set the standards for the best work in applied economics This volume of the Handbook has a notable representation of authors and topics of importance from throughout the world

**Handbook on the History of Economic Analysis Volume II** Gilbert Faccarello, Heinz D. Kurz, 2016-07-27 This unique troika of Handbooks provides indispensable coverage of the history of economic analysis Edited by two of the foremost academics in the field the volumes gather together insightful and original contributions from scholars across the world The encyclopaedic breadth and scope of the original entries will make these Handbooks an invaluable source of knowledge for all serious students and scholars of the history of economic thought

**Work Patterns** Derek L. Bosworth, Peter J.

Dawkins, 1981 Monograph comprising an economic analysis of various dimensions in the arrangement of working time and major influences on supply and demand in shift work in the UK industrial sector includes theoretical and historical background covers night work overtime part time employment flexible hours of work fringe benefits social costs employment creation effects of work sharing etc and comments on the evolution of labour policy and labour legislation provisions ILO mentioned Bibliography pp 249 to 257 and statistical tables

**Radical Economics and Labour** Frederic Lee, Jon

Bekken, 2009-01-06 To celebrate the centenary of the most radical union in North America The Industrial Workers of the World this collection examines radical economics and the labor movement in the 20th Century The union advocates direct action to raise wages and increase job control and it envisions the eventual abolition of capitalism and the wage system through the general strike The contributors to this volume speak both to economists and to those in the labor movement and point to fruitful ways in which these radical heterodox traditions have engaged and continue to engage each other and with the labor movement In view of the current crisis of organized labor and the beleaguered state of the working class phenomena which are global in scope the book is both timely and important Representing a significant contribution to the non mainstream literature on labor economics the book reactivates a marginalized analytical tradition which can shed a great deal of light on the origins and evolution of the difficulties confronting workers throughout the world This volume will be of most interest to students and scholars of heterodox economics those involved with or researching The Industrial Workers of the World as well as anyone interested in the more radical side of unions anarchism and labor organizations in an economic context

*Economic Study of Puerto Rico: Sector studies* United States. Department of Commerce. Interagency Study Group, 1979
