The Economic Consequences of Political Independence James C. W. Ahiakpor, Fraser Institute (Vancouver, B.C.), 1990

Keynes and the Classics Reconsidered James C.W. Ahiakpor, 1998-03-31 Keynes and the Classics Reconsidered is a collection of scholarly work re evaluating Keynes s revolution in economic thought both in the method of macroeconomic reasoning and in policy making This book brings together mostly a younger generation of economists to revisit Keynes s interpretation of the classics and its impact on macroeconomic theory and policy There has been a considerable advance in the literature re interpreting the classics and the early neoclassical economists Most of the contributing authors have themselves been active participants in this reinterpretation The participation of Robert Clower an active participant in the Keynes versus the classics debate since the 1960s brings a particularly significant retrospective to this fresh look at the record Keynes and the Classics Reconsidered will be of interest to policy makers and economists especially those working in the areas of macro and monetary economics

The Last Colonies Robert Aldrich, John Connell, 1998-07-13 This comprehensive and authoritative book is about the last colonies those remaining territories formally dependent on metropolitan powers It discusses the surprisingly large number of these territories mainly small isolated islands with limited resources Yet these places are not as obscure as might be expected They may be major tourist destinations military bases satellite tracking stations tax havens or desolate underpopulated spots that can become international flashpoints such as the Falklands The authors find that at a time of escalating nationalism and globalization these remnants of empire provide insights into the meanings of political economic legal and cultural independence as well as sovereignty and nationhood This book provides a broad based and provocative discussion of colonialism and interdependence in the modern world from a unique perspective

Un/settled Multiculturalisms Barnor Hesse, 2000-11 This anthology reconsiders the social political and intellectual meanings of multiculturalism in the West particularly Britain It introduces a conceptual language for thinking about multiculturalism and casts the surrounding debates in the contexts of globalization post colonialism and what Barnor Hesse calls multicultural transruptions The contributors consider a variety of diaspora formations ranging from the Muslim Umma and Black Britain to the Chinese foodscape and Transatlantic Black sporting performances They examine the transnational impact on how cultural differences are lived and pose questions for how we participate in and think about Western societies The material on cultural entanglements focuses on media constructions of the Asian Gang in Britain gender and sexuality in ragga music and the ambivalence of identities in post apartheid South Africa
