Economic Integration The East African Experience:

Economic Integration ,1959 *Economic Integration* Arthur Hazlewood,1975-01-01 **Regional Integration in Africa** Msuya Waldi Mangachi,2011 The objective of this book is to investigate various initiatives to integrate the East African region from the colonial period to 2000 when the new East African Community EAC was formed The analysis is focused on the process of integration from 1948 when formal institutions of cooperation were created under the East African High Commission EAHC and its transformation in 1961 into the East African Common Services Organisation EACSO The author argues that efforts made to integrate the British East African colonial territories of Tanganyika Kenya Uganda and Zanzibar through these organisations was largely aimed at consolidating colonial and imperial interests the concentration of most assets and investments in Kenya resulting in inequitable sharing of benefits He posits that the continuation of these inequalities were carried over to the East African Community in 1966 and led to its collapse together with different developmental paths followed by the countries He argues that the EAC formed in 2000 largely due to pressures of globalisation and trade liberalisation and makes recommendations as to how the EAC can become a truly regional structure

International Economic Integration: Integration schemes Miroslav Jovanovic,1998 *International Economic Integration* A. M. El-Agraa,1988-06-18 *Regional Integration, Human Rights and Democratic Participation in Africa* Karin Deichmann,2020 The protection of human rights and popular participation on the first sight seem to contradict the often existing image of the African continent However with the foundation of the African Union in 2000 both aspects gain greater importance on regional level Besides that many subregional courts within the sphere of sub Sahara Africa partially started to develop human rights related jurisdiction In addition to that most regional economic communities nowadays provide for their own parliamentary structures The study aims to examine the several institutional structures and their competences on both regional and subregional level Besides that it provides for a profound analysis of the jurisdiction of the respective courts as well as the communications of the African Commission of Human and Peoples Rights Lastly the study focuses on the correlation between the extension of the institutions competences and the political will of the involved governments

Flexible Regional Economic Integration in Africa Timothy Masiko,2022-04-21 This book examines the relationship between flexible regional economic integration in the East African Community EAC through its application of variable geometry and the establishment of the African Continental Free Trade Area AfCFTA as a continent wide form of integration It uses a historical political legal and economic analysis of the processes that led to the adoption of flexible regional integration in Africa with particular regard to the EAC This takes place in the inescapable context of pan Africanism showing how regional integration efforts in Africa are based on pan Africanist ideals and how an evolution of these ideals has led to an evolution in the goals of integration With growing awareness of the weaknesses and impracticality of consensus based decision making on a global level it makes the case for the pursuit of flexibility in multilateral trade drawing lessons from the

experience of the AfCFTA and blocs in other regions This book is a historical evaluation of regional economic integration efforts in Africa and it follows the path of attempts to integrate the economies on the continent from colonial times to the birth of the AfCFTA While it is a study in law it relies heavily on politics economics and history to weave together a more complete theory of economic integration based on the African experience Flexible Regional Economic Integration in Africa was awarded the 2020 SIEL Hart Prize in International Economic Law

The East African Community Jean-Marc Trouille, Helen Trouille, Penine Uwimbabazi, 2021-05-24 This book brings together African and European experts from a variety of disciplines to examine the origins and current state of the East African Community EAC Over the course of the book the authors analyse the rich tapestry of intraregional relations in East Africa the EAC's similarities with the European Union and the future challenges faced by the organisation Widely regarded as the most advanced and successful regional integration scheme in Africa the EAC is an intergovernmental organisation consisting of Burundi Kenya Rwanda Tanzania and Uganda and since 2016 South Sudan It is the oldest among Africa's regional economic communities and among the continent's most promising growth areas with a long history of integration punctuated by several false starts and traumas that have profoundly affected its body politics When initially set up the EAC model bore a striking resemblance to the process undergone by the European Union Now as the EAC continues to establish its own identity this book argues that whilst Europe's history may provide useful insights for EAC member states the EAC experience could in turn also offer lessons for the European Union Covering key dimensions such as integration co operation development trade and investments this book highlights the intricate and complex relationships between East African states and it will be of interest to researchers working on economic development international relations peace and security and African studies

Allocation of Industry in the Andean Common Market J. ter Wengel, 2012-12-06 The objective of this text is to develop and implement a model for allocating the industries of the Sectorial Programs of Industrial Development of the Andean Common Market In the Andean Common Market as in most other integration schemes among less developed countries the main expectations regarding the promotion of economic growth are based on the expectation of increased opportunities for import substituting industrialization The concern here is with the Andean Common Market in particular because it has been the economic integration scheme that has most explicitly recognized the objective of the less developed countries of taking advantage of the new opportunities for industrialization created by the combination of the individual markets In the Andean Common Market the importance attached to the expectation of the gains from industrialization was expressed in the formulation of Sectorial Programs of Industrial Development Other integration schemes among less developed countries have not addressed the issue of import substituting industrialization in such detailed manner In the first section of this chapter the importance of the topic of allocating industries in integration schemes among less developed countries is discussed It is argued that the benefits to be derived from increased trade in the traditional products of the member countries are minimal

Instead the member countries 1 2 ALLOCATION OF INDUSTRY IN THE ANDEAN COMMON MARKET expect the benefits from economic integration schemes to be derived from the utilization of the opportunities for industrialization created by such schemes
