*The Economics of International Integration* Miroslav N. Jovanović, 2007-01-01

International economic integration has played a significant part in economic policy decisions for most countries and regions throughout the world over decades This text looks at why the success of integration schemes has been so variable and what the prospects are for integration in the future

**The Balkans** Robert Bideleux, Ian Jeffries, 2007-01-24 An excellent companion volume to the successful *A History of Eastern Europe* this is a country by country treatment of the contemporary history of each of the Balkan states Albania Bulgaria Romania Croatia Serbia Bosnia and Herzegovina Macedonia

Montenegro and Kosova With a distinctive conceptual framework for explaining divergent patterns of historical change the book shifts the emphasis away from traditional cultural explanations and concentrates on the pervasive influence of strongly entrenched vertical power structures and power relations Focusing on political and economic continuities and changes since the 1980s *The Balkans* includes brief overviews of the history of each state prior to the 1980s to provide the background to

enable all students of Eastern European history to make sense of the more recent developments

**The New Russia** Ian Jeffries, 2013-12-19

The rapid changes in Russia since the collapse of the Soviet Union are often bewildering with many frequent highly significant changes in the different sectors of the economy and the political system There have been frequent changes of personnel in government and economic management and many changes have been reversed and sometimes

forgotten or at other times reinstated What happened when Who was responsible for what Did such a change in one sector precede or follow a particular change elsewhere These are points not easily remembered This book provides full details of

the many changes and enables sense to be made of what would otherwise be a confusing situation. Developments are arranged chronologically by sector and the book is unusual in extensively chronicling both economic and political developments and the crucial connections between them. There is a generous introduction and overview to help the reader find his or her way around. The material covers the period up to late autumn 2000 and thus offers a valuable guide to policies in the Putin era.

**Destination Europe** Kjell Torbiörn, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license. Destination Europe interprets and interrelates the major political, economic and security developments in Europe including transatlantic relations from the end of World War II up until the present time and looks ahead to how the continent may evolve politically in the future. The book fills a definite lacuna in the current literature on Europe as most studies cover only specific aspects such as the European Union. Destination Europe by contrast weaves all the different strands of European events together into a single overall and up to date picture and gives the reader a deeper understanding of the continent and its current and future challenges.

**Economia Dell'allargamento Dell'Unione Europea** Franco Praussello, 2003 *Russia and the World Trade Organization* P. Naray, 2001-01-11 After an exploration of the experience gained by former central and eastern European countries in the General Agreement on Tariffs and Trade, Peter Naray gives an analysis of the Russian economic and social crisis and comes to the conclusion that this crisis is responsible for the delay of Russia's accession to the World Trade Organization (WTO). The author criticizes the approach taken in Russian reforms because the country's historical legacy, weak legal system, underdeveloped political and economic institutions etc. was neglected. The book describes the steps made by Russia towards WTO membership, underlining the present and expected difficulties. It warns against a fundamentalist approach by the members of the WTO which may result in Russia's isolation in political and economic matters which would represent a danger to the whole world.

**The Baltic Sea Region** Witold Maciejewski, 2002 *Catching Up and Falling Behind* David A. Dyker, 2004 In this collection of essays, David A. Dyker explores some of the most difficult and fascinating aspects of the process of transition from autocratic real socialism to a capitalism that is sometimes democratic, sometimes authoritarian. The stress is on the economic dimension of transformation but the author sets the economic drama firmly within a political economy framework and a historical perspective. Trends in key economic variables are analysed against the background of the struggle between different social and political groups for power and command over resources. While the book pays due attention to topical issues like EU enlargement, the underlying perspective is a long term one. Transition is viewed not as a set of one-off changes or a process of short-term stabilisation but as a historic opportunity to solve the inherited problem of poverty and underdevelopment in Central East Europe and the former Soviet Union. The book ends with a critical assessment of how economics as a discipline has coped with the challenge of that historic opportunity.

*Adjusting to EMU* B. Ardy, I. Begg, D. Hodson, Imelda Maher, D. Mayes, 2005-11-01 This book provides an original and wide-ranging analysis of the impact

of Economic and Monetary Union EMU on economic governance in the EU and in several key Member States within and outside the Euro area Its emphasis is on adaptation how EMU encourages change in national and EU institutions and in national economic regimes It brings together economic political science and legal perspectives to explain how national economies adapted the dynamics of policy making and the complex web of laws processes and actors in the EMU

**Innovation and Structural Change in Post-Socialist Countries: A Quantitative Approach** David A. Dyker, S. Radosevic, 2012-12-06 This book uses a range of S T and structural indicators to analyse the transformation process in particular the transformation of science technology and industry in the former communist countries The book originates from a sense of the tremendous need for quantitative indicators for assessing trends and performance in the post socialist economies S T systems in the region have passed through the first phase of rapid deterioration or as it is called by some analysts implosion After ten years of transformation we are witnessing a process of increasing differentiation of these countries in terms of general patterns of growth and structural change as well as specific lines of restructuring in their S T systems The question of sources of growth or indeed of stagnation is an increasingly urgent one from both the policy and academic perspectives In that context there is a pressing need for in depth assessment of restructuring patterns in science technology and industry in the region as a basis for understanding how restructuring in S T is linked to industrial restructuring and to general economic and social transformation As the contributions to this volume show there is now a critical mass of quantitative data across the post socialist countries which deserves to be studied more thoroughly in a comparative manner The changes of the last ten years have produced varying patterns of adjustment which are now clearly visible in S T and structural indicators      *Political Developments in Contemporary Russia* Ian Jeffries, 2011-03-07 This book provides a comprehensive overview of political developments in Russia since late 1999 It covers all aspects of politics including central government and elections regional government and developments in the republics including in Chechnya and other Caucasian republics and human rights      **EU Eastern Enlargement and the Russian Transformation Crisis** Paul J.J. Welfens, 2012-12-06 Europe's economic and political landscape is changing dramatically The demise of the socialist CMEA and the USSR has allowed eastern European economies to open up and caused Russia the CIS to engage in a series of difficult reforms which have been supported by the G 7 and the International Monetary Fund plus the World Bank on the one hand and on the other hand by the EU and the EBRD While some of the early Visegrad countries apparently were rather successful in their transition attempt systemic transition approaches in other countries Romania and Bulgaria and above all in Russia largely were a failure Economic hardship social unrest political radicalization and the international spreading of criminal activities can be identified as problems from the failure of Russia's first transition attempt This book deals from an international perspective with the postsocialist countries in Europe i.e. there is a focus on eastern enlargement and on Russia on the one hand on the other hand the topic is which international influences and effects will emerge from EU enlargement

and the Russian transition While chapter A exclusively deals with major problems of eastern enlargement and the policy options for dealing with this difficult problem chapter B is devoted to the Russian transformation crisis There the analysis has a focus on Russia in its own right but also on the potential negative spillovers of a Russian transformation disaster which could occur in the late 1990s
