### Why 'Regionalism' matters?

---

- Deepening and widening process of globalization made 'region' in the different context
  - How the current process of regionalism is different from ones of decades ago?
  - Were there any historical trends or waves of 'making of a region'?

**Chinese Economic History Since 1949** Michael Dillon, 2017-06-01 China s economic development has become a matter of world wide interest since the boom that began in the 1980s Key Papers in Chinese Economic History since 1949 offers a selection of outstanding articles that trace the origins of the modern Chinese economy Topics covered include agriculture and the rural economy industrialisation and urbanisation

finance and capital political economy and international connections *Japanese Business Management* Harukiyo Hasegawa, Glenn D. Hook, 2002-11-01 In this study the views of Japan's leading experts on the globalization of Japanese business management and industrial relations explain how traditional Japanese style management is responding to the changes following the collapse of the bubble economy. The areas covered include the changes made in management itself inside Japan and also how it is adapting itself when transferred overseas. The book demonstrates how management is moving towards a hybrid type in overseas operations and towards a western style in Japan where contractual principles are beginning to be given greater weight. **East Asian Economic Regionalism** Choong Yong Ahn, Richard E. Baldwin, Inkyo Cheong, 2006-03-14 An analysis of the feasibilities of East Asian economic integration providing diverse positions on East Asian economic integration by ASEAN countries as well as the north eastern countries of China, Japan and Korea.

Agricultural Economic Report, 1967 *The Growth-Oriented Economic Policy of the EU* Angelo Santagostino, 2020-08-13 Growth is slow in the EU but growth potentialities remain high in spite of the exit of the UK and in spite of the COVID 19 pandemic and we can observe a disparity between reality and potentialities. Does the persistent difference between expected and real benefits mean that the EU integration model is not working? No. It continues to be effective because it is rule based. However, these rules are not enough to grasp all the potentialities of integration. We need a better integrated single European market and a more open trade policy in the framework of health security, safety, energy, environment and labour standards, establishing the rules of the competition but leaving the economic agents free to act. The book explores Brexit, capital markets, energy, health and bilateral trade policies with the main European partners in the light of their effects and contribution to European growth. It emerges that this huge trade block is vital but must find the political capacity to move towards a closer integration to close the gap between reality and potentiality. The text will appeal to a public interested in the economic problems of the EU and will be of interest to policy makers and all those who are involved in the process from proposals to decisions of making a more integrated Europe. **East Asian Regionalism from a Legal Perspective** Tamio Nakamura, 2009-06-08 Plenty has been written about the political and economical aspects of regionalism but the legal perspective has been neglected. *East Asian Regionalism From a Legal Perspective* is unique in synthesizing legal, economic and political analyses. In the first part, the book investigates the current features of regionalism from a comparative perspective, looking at economic and currency cooperation and comparing Asian regionalism with Europe and Latin America. In the second part, the contributors go on to look at the present legal features of regionalism, covering institutional frameworks, trade, diversity and regional integration. The third part of the book is truly unique in proposing an essential groundwork for the institutionalisation of an East Asian Community. It conceives a draft East Asian Charter, an essential document that distils what East Asian nations have achieved and also includes integral principles and fundamental rules for future cooperation among countries and peoples in the region. This book will be of interest to graduates and academics.
