

- Stalin launched a command economy, replacing the New Economic Policy of the 1920s with Five-Year Plans and launching a period of rapid industrialization and economic collectivization. The upheaval in the agricultural sector disrupted food production, resulting in widespread famine, such as the Soviet famine of 1932-1933, known in Ukraine as the Holodomor.

Economy And The President Nineteen Eighty And Beyond:

Report of the American Assembly Economic Issues and the President: 1980 and Beyond, **The President And The Council Of Economic Advisors** Erwin C Hargrove, Samuel A Morley, 2019-07-11 Interviews with ten former chairmen of the Council of Economic Advisers from the Truman to the Carter administrations are gathered in this book to examine the relationship between economic advisers and the president and the institutional relationships among the CEA executive departments and federal financial agencies The interviews also reconstruct major presidential decisions since the establishment of the CEA such as the 1964 tax cut the 1971 wage and price freeze and presidential strategies for managing inflation and recession In a preface to each interview the editors analyze the conditions for CEA effectiveness look at how well the advice of the Council has conformed to the presidential world view and pinpoint the distribution of responsibility for policy analysis and advice within successive administrations **The Quality of American Life in the Eighties** United States. Panel on the Quality of American Life, 1980 **Housing and Planning References** United States. Department of Housing and Urban Development. Library, 1981 **The Economy and the President** Walter Evans Hoadley, 1980 At head of title *The American Assembly Columbia University Background papers* edited by W E Hoadley prepared for the American Assembly held Mar 6 8 1980 at the Center for Study of the American Experience Includes index *Science & Engineering Education for the 1980's & Beyond* National Science Foundation (U.S.), 1980 **Housing and Planning References**, 1981

The Politics of Inflation and Economic Stagnation Leon Lindberg, Charles S. Maier, 1985-06-01 The inflation of the 1970s represented the greatest peacetime disruption of the Western economies since the Depression Even as inflation receded the recession in its wake brought more joblessness than at any time since the 1930s The governments of industrialized nations found that the economic policies they had developed since World War II no longer assured price stability or high employment What are the lessons of over a decade of economic difficulty In this conference volume which focuses on aspects of the crisis that economists often presuppose to be beyond control the authors analyze the political and social underpinning of inflation and recession Part 1 places the economic problems of the 1970s in the historical context of postwar development and then compares economic and political science analyses of inflation Part 2 examines how rivalries between social groups affect inflationary processes One chapter draws on the history of Latin American inflation to suggest the conflicts in play Two others weigh the role of labor and industry in the formation of economic policy And another shows how rivalry between countries like rivalry between classes at home permitted inflation to rise The chapters in part 3 contest the claim that big government or big labor causes inflation Two studies emphasize that a high degree of public expenditure does not itself lead to inflation Further contributions explore the role of central banks and subject such concepts as the political business cycle to critical analysis Part 4 comprises case studies about macroeconomic policymaking in four nations Italy Germany Japan and Sweden The studies reveal what institutional attributes rendered those countries resistant to

inflation or vulnerable to economic setback In the last part the editors pull together the findings and lay out the contemporary political feasibility of alternative approaches to macroeconomic management **Plastic Capitalism** Sean H. Vanatta, 2024-05-21 How bankers created the modern consumer credit economy and destroyed financial stability in the process American households are awash in expensive credit card debt But where did all this debt come from In this history of the rise of postwar American finance Sean H Vanatta shows how bankers created our credit card economy and with it the indebted nation we know today America's consumer debt machine was not inevitable In the years after World War II state and federal regulations ensured that many Americans enjoyed safe banks and inexpensive credit Bankers though grew restless amid restrictive rules that made profits scarce They experimented with new services and new technologies They settled on credit cards and in the 1960s mailed out reams of high interest plastic to build a debt industry from scratch In the 1960s and 70s consumers fought back using federal and state policy to make credit cards safer and more affordable But bankers found ways to work around local rules Beginning in 1980 Citibank and its peers relocated their card plans to South Dakota and Delaware states with the weakest consumer regulations creating on shore financial havens and drawing consumers into an exploitative credit economy over which they had little control We live in the world these bankers made

web we shall describe sections of the holomorphic line bundles $\mathcal{O}(k)$ on \mathbb{P}^n and show that the canonical bundle \mathcal{K} of the projective space \mathbb{P}^n is isomorphic to the line bundle $\mathcal{O}(-n-1)$ it will turn out that everything can be expressed in polynomials which turns complex geometry for \mathbb{P}^n into complex algebraic geometry
