Management of Natural Resources, Sustainable Development and Ecological Hazards C. A. Brebbia,Enzo Tiezzi,M. E. Conti,2006-11-09 The state of our planet continues to deteriorate at an alarming rate We have arrived at a situation where we need to determine urgent solutions before we reach a point of irreversible deterioration Much has been written in different contexts about reaching sustainability but the concept itself needs to be defined in the framework of all different disciplines in order to arrive at optimal solutions Hence this book is essentially trans disciplinary in order to find appropriate sustainable solutions involving collaboration across a wide range of disciplines Publishing papers from the First International Conference on Management of Natural Resources Sustainable Development and Ecological Hazards the book features articles encompassing topic areas
