Ecuaciones De Los Contratos Publicos:

Ecuaciones de los contratos públicos José Roberto Dromi, 2008 Reedición de esta innovadora obra del derecho administrativo que analiza la teoría de los contratos administrativos a partir del análisis de las diferentes ecuaciones que integran a su vez la ecuación contractual global. La obra analiza las ecuaciones social, política administrativa, tecnológica, ambiental, económica, financiera, tributaria y de mercado e incluye al igual que en su primera edición un anexo con las formulaciones gráficas que plasman ese modelo ecuacional. Se trata pues de una obra de especial significación en momentos en que esta oscilación entre el Derecho Administrativo y el derecho Privado ha obligado a reconstruir el tejido del contrato público como instrumento negocial de la justicia distributiva en el marco de la vuelta al Derecho administrativo luego del cambio que representa el tránsito de la economía pública de Estado a la economía social de mercado. **Las ecuaciones de los contratos públicos** José Roberto Dromi, 2001-01-01 [Ecuaciones de los contratos públicos](#) Roberto Dromi, 2008

Aspectos jurídicos de la contratación estatal Juan Carlos Morón, Zita Aguilera, 2017-06-05 Este libro realizado por Juan Carlos Morón y Zita Aguilera contiene una explicación concisa pero rigurosa de los principales temas de la contratación pública. Analiza las características del contrato administrativo y el universo de fórmulas que puede emplear la administración en un contrato así como sus múltiples clasificaciones y los principios que inspiran y controlan la contratación administrativa. La obra describe las distintas etapas de la contratación, los posibles vicios, la solución de controversias y los mecanismos de protección de los contratistas. **Tratado de Derecho administrativo y Derecho público general. Tomo XIII** Santiago Muñoz Machado, 2018-08-01 Santiago Muñoz Machado uno de los más reputados juristas españoles lleva a cabo una nueva presentación de la obra que constituye todo un clásico en la bibliografía de nuestro Derecho administrativo y constitucional desde hace quince años. En los nuevos tomos que integran la obra el autor además de algunos cambios en la disposición de los materiales ha llevado a cabo una corrección minuciosa de los textos y ha tenido en consideración en la versión final todas las aportaciones doctrinales y jurisprudenciales relevantes sobre los asuntos objeto de estudio que se han manifestado en el último lustro. El autor ha acometido esta gran labor desde la perspectiva de que en nuestro país los principios tradicionales que han marcado el derecho público han sido progresivamente desplazados por otros principios, reglas de comportamiento e instrumentos descentralización, fragmentación de la ley y del ordenamiento jurídico, europeización y globalización, mercado libre junto con regulación económica, aparición de una nueva gama de derechos de los ciudadanos y consolidación de un cambio radical en las relaciones entre el Estado y la sociedad. ISBN obra completa 978 84 340 2215 7 *La potestad reglamentaria de las comisiones de regulación como autoridades administrativas independientes* Édgar González López, 2018-05-07 La investigación indaga sobre el eventual reconocimiento de la potestad reglamentaria a las comisiones de regulación en los servicios públicos domiciliarios y de telecomunicaciones y sobre el esclarecimiento de cuál será su alcance y contenido. Para ello hay que partir del análisis de las controversias surgidas en la doctrina y en la jurisprudencia, controversias debidas en buena parte a la

ambigüedad del concepto y naturaleza de las comisiones de regulación como del contenido y naturaleza de sus funciones. Como se verá al final la respuesta es positiva bajo la premisa de que es posible y necesario apoderar a estas entidades de una potestad especial en su función de regulación y de intervención específica en actividades económicas de interés general, vista además su necesaria ubicación como Autoridades Administrativas Independientes como hipótesis planteada en el estudio. Como presupuestos necesarios para el reconocimiento de la potestad reglamentaria a estas autoridades se analizan las problemáticas jurídicas derivadas de sus rasgos de independencia y neutralidad política de su anclaje constitucional en los servicios públicos de sus relaciones con la estructura funcional del legislador y del Presidente de la República en especial con su potestad reglamentaria general. Asimismo la delimitación del alcance de los ámbitos de competencia habilitados por ley al regulador en el marco de una administración pública edificada sobre un dogma de subordinación. **Equilibrio**

econômico-financeiro contratual Renata Faria Silva Lima, 2007 **Presupuestos, Contratos E Incentivos, en El Gasto Sanitario Publico Del Medicamento**, 2000 **Nacionalización de hidrocarburos en Bolivia**, 2007

Ingeniería sanitaria y ambiental, 2005 **Contratação Pública Estratégica** Thiago Lima Breus, 2020-02-01. Como se puede notar desde el título este libro versa a respecto de tema poco estudiado en el Derecho administrativo económico correlacionando los conceptos de contrato administrativo gobierno por contratos políticos horizontales y justiciarios distributivos. Mas basta una consideración para confirmarnos la importancia de la lectura de esta obra si antes vislumbramos la idea de descentralización administrativa como el modo por el cual la Administración Pública criaba nuevas personas jurídicas e les atribuía específicas funciones públicas por medio de este libro podemos constatar que al redor de nosotros existe el gobierno por contratos una verdadera Administración Pública contratual. Esta Administración Pública no tiene fuente inmediatamente legislativa ni la ley que crea la entidad mas sí el contrato que transfiere el ejercicio de funciones de la función administrativa a una persona de derecho privado. Mas en determinados casos esta fuente de derechos le obliga a la persona privada o concesionario o permissionario autorizado o socio una gama de deberes públicos privados a ser ejecutados sobre el régimen de derecho público o de derecho privado. In Prefacio de Egon Bockmann Moreira **Anuario Iberoamericano de regulación.** Milton Fernando Montoya Pardo, 2023-01-19. La Asociación Iberoamericana de Regulación ASIER presenta a la comunidad académica y profesional el Anuario Iberoamericano de Regulación Volumen II dedicado a La regulación en los tiempos del COVID. La Contratación Pública en América Latina Varios Autores, 2016-08-01 La contratación pública en América Latina no obstante su indiscutible relevancia ha escapado como objeto de análisis a la creciente producción de investigaciones que buscan identificar con una perspectiva comparada las distinciones y las similitudes de cada ordenamiento jurídico de la región. Con el apoyo de la Universidad Externado de Colombia y de la Fondation pour le Droit Continental la contratación pública en América Latina entra a colmar este vacío mediante la compilación de trece informes nacionales que contienen la respuesta a un cuestionario común por parte de estudiosos de Argentina Bolivia Brasil Chile Colombia Costa Rica El Salvador Nicaragua Panamá Perú República Dominicana Uruguay y Venezuela. A estos informes nacionales se suma un capítulo con perspectiva teórica comparada que aborda algunos aspectos metodológicos de la investigación I un capítulo que captura varias de las tendencias generales de la contratación pública en América Latina II y un Apéndice relativo a la actualidad europea en materia de contratación pública.

Desregulación telefónica Alicia Piñero, 2001 **Estudios de Derecho de la Integración** Alberto Biglieri, 2010 *Incentivos y contratos en los servicios de salud* P. Ibern, 1999-06-01 **Los mercados de gas y su regulación en Iberoamérica** Luis Ferney Moreno Castillo, Iñigo del Guayo Castiella, 2021-01-01 Tanto en las actuales circunstancias de los sistemas energéticos como en el futuro el gas natural tiene una importancia decisiva en países productores y en aquellos países que no tienen gas o que necesitan mayor diversificación gasista. En el caso de Latinoamérica parece conveniente que los países saquen toda el rendimiento a sus reservas de gas natural. La política energética descansa sobre tres pilares: seguridad del suministro, eficiencia económica y sustentabilidad. Y el gas natural satisface en mayor o menor grado esas tres exigencias. En este contexto este libro trata de analizar el equilibrio existente entre la liberalización y el mercado por un lado y la regulación y la intervención gubernamental por otro para la consecución de los objetivos de políticas energéticas en su proyección sobre el gas natural. El libro aborda la regulación de los mercados de gas en Argentina Bolivia Brasil Chile Colombia Ecuador México Paraguay Perú Uruguay y Venezuela y dada la importancia de la integración de los mercados se examina el modelo de sopapeo y los procesos de integración en Latinoamérica.

Derecho de los consumidores y usuarios Raúl Canosa Usera, Jaime Rodríguez-Arana Muñoz, 2008 El contenido de esta obra colectiva es el resultado de un estudio multidisciplinar sobre los derechos de los consumidores y usuarios en el ámbito español e iberoamericano sin olvidar la influencia que ejerce en la materia la normativa europea a través de la legislación de nuestro país. En esta investigación han participado profesores de Derecho público y privado de diez universidades y siete países intentando ofrecer una perspectiva integral en una materia que afecta a millones de ciudadanos que se encuentran inmersos en el tráfico jurídico ordinario bien como usuarios bien como consumidores de toda clase de servicios y bienes en unos casos públicos en otros privados. En efecto no se puede olvidar que el consumo es el gran motor de la economía y que para conseguir un adecuado desarrollo social también hay que asegurar una cierta capacidad económica. La seguridad en las relaciones entre usuarios y prestadores de servicios o entre comerciantes y consumidores la eliminación de situaciones de abuso y de cláusulas desproporcionadas o

injustas o la defensa de la libre competencia son elementos imprescindibles del normal tráfico comercial. De esta manera, protegiendo relaciones ordinarias, se coloca a la persona en el centro del ordenamiento jurídico relativo a los usuarios y consumidores de bienes y servicios. Como se pone de manifiesto en este trabajo, las constituciones de los diferentes países imponen a sus gobiernos la obligación de proteger a la parte más débil de este tipo de relaciones. Junto con las omnipresentes directivas europeas, la protección constitucional se articula fundamentalmente mediante disposiciones mercantiles, civiles y administrativas, lo que justifica la perspectiva integradora adoptada en esta obra.
