Women in Europe between the Wars Angela Kimyongür, 2017-11-30 The central aim of this interdisciplinary book is to make visible the intentionality behind the forgetting of European women's contributions during the period between the two world wars in the context of politics culture and society It also seeks to record and analyse women's agency in the construction and reconstruction of Europe and its nation states after the First World War and thus to articulate ways in which the writing of women's history necessarily entails the rewriting of everyone's history By showing that the erasure of women's texts from literary and cultural history was not accidental but was ideologically motivated the essays explicitly and implicitly contribute to debates surrounding canon formation Other important topics are women's political activism during the period antifascism the contributions made by female journalists the politics of literary production genre women's relationship with and contributions to the avant garde women's professional lives and women's involvement in voluntary associations In bringing together the work of scholars whose fields of expertise are diverse but whose interests converge on the inter war period the volume invites readers to make connections and comparisons across the whole spectrum of women's political social and cultural activities throughout Europe *Bisexual Imaginary* Bi Academic Intervention, 1997-01-01 This collection of essays focuses on historical and contemporary representations of bisexuality both real and imagined in literature film and the visual arts They ask questions concerning what it means to desire both men and women and explores the role of

The Dada Archivist Stina Barchan, 2023 The archive of the German artist Hannah Höch 1889-1978 has long been an important source of material for historians researching the interwar avant-garde and artists associated with Berlin Dada. This book explores Höch's practices of organisation when assembling the documents in her house outside Berlin from 1939 until her death. Through extensive research, the author argues that Höch's archive should be considered not just a collection of documents but a work in its own right, intimately connected with the artist's daily life. Noting the importance of understanding the mechanisms of this work, the book suggests that Höch took charge of both preserving and exploring the possibilities of Dada long after the group had been officially dissolved. The file that Höch assembled on her friend, the artist Kurt Schwitters 1887-1948, plays an important part in the book, its content revealing how domestic habits infused both artists' practices. Juxtaposing Höch's archive and Schwitters's *Merzbau*, the author argues for an interactive movement between the two that has fundamental implications on how we understand both artists' lives.

Hannah Höch Dawn Ades, David F. Herrmann, 2022-04-05 Now available in paperback, this book on the celebrated Dada artist Hannah Höch explores her use of collage as the artistic medium of choice for both satire and poetic beauty. World renowned for her work during the Weimar period, Hannah Höch was a pioneer in many aspects, both artistic and cultural. She was the lone woman of the Berlin Dada movement, the riotous form of art that deconstructed sound, language, and images to reassemble them into new objects, texts, and meanings. Höch was a pivotal force in the development of collage, paving the way for today's ubiquitous image editing techniques. A determined believer in women's rights, Höch questioned conventional concepts of partnership, beauty, and the making of art, her work presenting acute critiques of racial and social stereotypes, particularly that of her native Germany. Focusing on Höch's collages, this book examines the artist's career from the 1920s to the 1970s, charting her oeuvre from early works influenced by fashion and mass media through to her later compositions of lyrical abstraction. It reveals her rapid development of a personal style, which was both humorous and often moving, but also offered critical commentary on society at a time of tremendous social change. Included are essays that examine themes such as the concept of the New Woman and the legacy of German colonialism. Featuring international scholarship on a groundbreaking artist, this volume brings together important source texts and reference material, which were first translated into English for the original edition of this book.
