Italia and the Aftermath provides a fictional account of the war master and what could likely have happened following his military success in Italia had he decided to conquer Rome Warfare through the Ages Michael Woods, Mary B. Woods, 2024-08-01 Since the first human civilizations appeared 10 000 years ago people have fought over land and resources Over time these conflicts led to the development of many technologies that would improve human life or end it Ancient Persians bred larger stronger horses to ride on in war and help pull carts In China ancient warriors developed martial arts and engineers built one of the biggest military building projects in history the Great Wall Ancient Americans created improved spear throwers used by hunters and warriors The ancient Romans and Greeks built speedy ships based off the ships of the ancient Phoenician navy From the first spear throwers to the dreaded Claws of Archimedes discover the ancient technologies that changed the course of human history *Not Another U.S. History Textbook* Adam Strube, 2024-01-15 Why on earth would two history nerds use their own free time to write another US history textbook Well that intelligent human is the right question This work breaks from the traditional memorization of who what when where and focuses on why and how The former is popular in schools due to its efficiency in quantification for testing You re either right or wrong about remembering facts But it s so boring that most students turn off their brains once they set foot in the class and that habit continues well into old age if not recognized and corrected Why and how are more subjective therefore harder to grade But with their asking people become re centered in our collective story where they belong Only then can proper context be understood and criticism and perspective be applied We believe this approach to be the missing link in our education and understanding of current issues norms and discussion points Hopefully after reading this work each reader s critical thinking will activate around all history permanently That will certainly aid humanity s evolution and communication Wait does that mean this book can be categorized as self help Argue away **Education Manual** United States Armed Forces Institute, Making Men Ridiculous Christopher Nappa, 2018 Barbed and vivid details in Juvenal s satiric poetry reveal a highly complex critique of the breakdown of traditional Roman values **Satirae D. Junii Juvenalis, cum commentario et interpretatione suecana ...** Fredr. Em Braune, 1857 *Animals in the Military* John M. Kistler, 2011-06-16 This book pays tribute to the unrecognized warriors and unsung heroes of human warfare millions of animals from a surprising variety of species ranging from rodents to dolphins to llamas When one thinks of war armies of soldiers and assaults with bullets and bombs delivered by deadly machinery typically come to mind Throughout human history however animals have also played significant roles in our armed conflicts In *Animals in the Military* From Hannibal s Elephants to the Dolphins of the U S Navy author John M Kistler examines these contributions describing the work of animals in human warfare throughout time from lowly insects to birds to elephants Drawing on both ancient and modern sources the book reveals the full scope of heroics and horror committed by and against animal warriors in three unique areas animals in combat animals in support and animals in incidental and experimental roles Each chapter describes a single species chronologically recounting its
