Children's Literature in Translation Jan Van Coillie, Walter P. Verschueren, 2014-07-16 Children's classics from Alice in Wonderland to the works of Astrid Lindgren, Roald Dahl, J. K. Rowling and Philip Pullman are now generally recognized as literary achievements that from a translator's point of view are no less demanding than serious adult literature. This volume attempts to explore the various challenges posed by the translation of children's literature and at the same time highlight some of the strategies that translators can and do follow when facing these challenges. A variety of translation theories and concepts are put to critical use including Even-Zohar's polysystem theory, Toury's concept of norms, Venuti's views on foreignizing and domesticating translations and on the translator's invisibility and Chesterman's prototypical approach. Topics include the ethics of translating for children, the importance of childhood images, the revelation of the translator in prefaces, the role of translated children's books in the establishment of literary canons, the status of translations in the former East Germany, questions of taboo and censorship in the translation of adolescent novels, the collision of norms in different translations of a Swedish children's classic, the handling of cultural intertextuality in the Spanish translations of contemporary British fantasy books, strategies for translating cultural markers such as juvenile expressions, functional shifts caused by different translation strategies, dealing with character names and complex translation strategies used in dealing with the dual audience in Hans Christian Andersen's fairy tales and in Salman Rushdie's *Haroun and the Sea of Stories*.

International Literary Market Place. European Edition, 1993 *Hans Christian Andersen* Johan de Mylius, Aage Jørgensen, Viggo Hjørnager Pedersen, 2007 On the occasion of Hans Christian Andersen's bicentenary in 2005 a conference was held in Odense, Denmark. The chosen conference theme was Hans Christian Andersen between Children's Literature and Adult Literature. At previous conferences focus had been exclusively on Andersen as poet and writer for adults in which capacity he wrote novels, theatre plays, poems and travel books. But faced with the world-wide celebration in 2005 it seemed proper to include the child aspects of his works in the scholarly discussion. In its wide range of themes dealing with both adult and child aspects of Andersen's texts, this volume consisting of papers presented at the Odense conference does justice to the whole of Andersen whose immortal genius has a message for young and old all over the world. **New Approaches**
