Staff,Publicatio Hapm,Hapm Publications Ltd,2003-09-01 This publication breaks new ground It is the first document to provide extensive life span assessments for insurance purposes for a wide range of building components which are classified within the concept of quality specifications A further benefit is that it does not seek to be prescriptive It indicative benchmarks against which new or differing specifications can be assessed in that sense it is both robust and flexible Updated 2003

Hapm Comp Life Man Update 13 Hapm Ltd,ANONIMO,2002-02-01 **The BPG Building Fabric Component Life Manual** Building Performance Group Ltd,2023-08-11 This manual provides a comprehensive source of building component life span and maintenance data for commercial and industrial building components following the same format as the ground breaking HAPM Component Life Manual for domestic buildings Each building component is allocated its own data sheet on which a number of generic descriptions are provided together with assessed life spans and maintenance requirements References to the relevant standards and codes of practice are also included

Cost Studies of Buildings Allan Ashworth,Srinath Perera,2013-09-13 This practical guide to cost studies of buildings has been updated and revised throughout for the 5th edition New chapters have been added on the RICS New Rules of Measurement NRM for order of cost estimating and elemental cost planning and on the procurement of construction projects

Construction Cost Management Keith Potts,Nii Ankrah,2014-01-23 In this updated and expanded second edition Keith Potts and Nii Ankrah examine key issues in construction cost management across the building and civil engineering sectors both in the UK and overseas Best practice from pre contract to post contract phases of the project life cycle are illustrated using major projects such as Heathrow Terminal 5 Crossrail and the London 2012 Olympics as case studies More worked examples legal cases case studies and current research have been introduced to cover every aspect of the cost manager s role Whole life costing value management and risk management are also addressed and self test questions at the end of each chapter support independent learning This comprehensive book is essential reading for students on surveying and construction management programmes as well as built environment practitioners with cost or

project management responsibilities **New Generation Whole-Life Costing** Ian Ellingham, William Fawcett, 2007-05-07 This book presents a new approach to whole life costing and risk management for construction It is a pioneering transfer of the options based approach to decision making which has revolutionized the management of uncertainty in the financial world

Durability of Building Materials and Components 7 Christer Sjostrom, 2004-01-14 proceedings of major international event contributions from leading building research organisations emphasis on service life of building materials and components *Durability of Building Materials & Components 7 vol.2* Christer Sjostrom, 2014-02-24 First Published in 2004 In the process of harmonising the wide ranging interests in this field the series of international conferences Durability of Building Materials and Components of which this is the seventh has played a decisive role by bridging between different material and product areas and by giving researchers and practitioners an opportunity to meet every third year to discuss the latest R D achievements This conference covers a number of themes ranging from theoretical aspects of service life prediction to the practical implementation of knowledge on durability of building products in standards This collection is the proceedings and will serve as a valuable reference to all interested in the wide and stimulating area of durability and service life prediction in building and construction This is Volume Two on Testing Design and Standardisation

Profitable Partnering for Lean Construction Clive Thomas Cain, 2008-04-15 The lean procurement techniques given in this practical guide could save clients up to 40% of total design and construction costs case history evidence is included to prove that the techniques really work The guide goes on to explain in equal depth the lean construction techniques that supply side design and construction firms including trades contractors need to adopt to deliver the savings while boosting their profit margins Written in an accessible style it explains why lean construction techniques will only deliver this high level of savings if they are underpinned by long term strategic supply side partnering relationships between consultants construction contractors trades contractors and manufacturers This is a how to book written in terms everyone can understand without the need for an expert interpreter or costly training

Added Value in Design and Construction Allan Ashworth, Keith Hogg, 2014-07-30 Added Value in Design and Construction takes a holistic student centred approach to offering public and private sector clients the ultimate reward doing more for less The Latham Report was a call to action and this book provides students of construction with the theoretical and practical knowledge to deliver the recommendations of the report It describes the principles and techniques crucial to adding value and reducing costs in design and construction in the twenty first century This book examines in detail a wide range of strategies that can be applied during the design and construction process to add value and bring the best interests of the client sharply into focus

[The Green Guide to Specification](#) Jane Anderson, David Shiers, 2009-03-09 Like its predecessors this fourth edition of The Green Guide to Specification provides designers and specifiers with easy to use guidance on how to make the best environmental choices when selecting construction materials and components It is more comprehensive than its predecessors it contains more than 1200 specifications used in six types of

building Commercial buildings such as offices Educational buildings such as schools and universities Healthcare buildings such as hospitals Retail Residential Industrial The principal building elements covered in this edition of The Green Guide to Specification include Floors Roofs Walls Windows Insulation Landscaping The performance of each specification is measured against a range of environmental impacts including climate change toxicity fossil fuel and ozone depletion levels of emissions and pollutants mineral and water extraction The Green Guide to Specification provides robust information to assist decision making by translating numerical life cycle assessment data into a simple A to E scale of environmental ratings enabling specifiers to make meaningful comparisons between materials and components The Green Guide to Specification is an essential tool for architects surveyors building managers and property owners seeking to reduce the environmental impact of their buildings by informed and responsible selection of construction materials and components

External Components Michael Mcevoy, 2014-06-03 Analyses in conjunction with Internal Components the performance requirements of building components and the effectiveness of typical solutions External components integrates logically with the theoretical aspects explored in other titles in the Mitchell s building series It encourages evaluation of alternative methods for putting components together

Durability of Building Materials and Components Vasco Peixoto de Freitas, J.M.P.Q. Delgado, 2013-07-16 Durability of Building Materials and Components provides a collection of recent research works to contribute to the systematization and dissemination of knowledge related to the long term performance and durability of construction and simultaneously to show the most recent advances in this domain It includes a set of new developments in the field of durability service life prediction methodologies the durability approach for historical and old buildings asset and maintenance management and on the durability of materials systems and components The book is divided in several chapters that intend to be a resume of the current state of knowledge for benefit of professional colleagues

Performance Measurement for Construction Profitability Clive Thomas Cain, 2008-04-15 Performance measurement is the mechanism by which firms inform themselves of their true performance and locate unnecessary costs through the supply chain These can then be converted into substantially higher profits in a carefully targeted improvement programme If the construction industry is to meet the performance improvements demanded by end users and to replicate the efficiency and profitability gains of other sectors it urgently needs to address formal performance measurement Aimed at all those at the sharp end in every sector of the construction industry including clients and end users this will be a highly practical easy to read guide focusing strongly on the day to day needs of managers at all levels Using the everyday business language of construction firms it explains how to set up and run performance measurement self assessment and benchmarking systems It is comprehensive and informative with plenty of real life examples and most importantly tells you what to do differently on Monday

Building Down Barriers Clive Thomas Cain, 2003-09-02 With rapid changes in procurement processes and increasing pressure for improvement cohesion and efficiency practitioners need to be aware of industry wide generally acknowledged best practice

The recent Latham and Egan reports in the UK have spurred further initiatives from the demand side of the industry to speed the pace of reform. This text examines those new initiatives clearly explaining and comparing them with each other and with similar initiatives from other countries such as the USA or Singapore and painting a vivid picture of the future of the construction industry under the effects of such changes. Aimed at anyone involved in construction supply chain from supplier to end user.

Durability of Building Materials and Components 8 National Research Council Canada, 1999. This volume provides a selected overview of approaches, methods, techniques, tools, systems and technology used to develop knowledge of the service life durability of construction and building materials.

Faber & Kell's Heating and Air Conditioning of Buildings Doug Oughton, Steve Hodgkinson, 2012-06-25. Faber and Kell has for over fifty years been accepted as the most practical and comprehensive book on heating and air conditioning design and is regarded as the standard reference book for both students and practitioners. In order to provide up to date information this ninth edition has been revised to include the latest changes to system design and covers many aspects in greater depth whilst still retaining the character of previous editions.

Concrete in the Service of Mankind Ravindra Dhir, Michael McCarthy, 2006-04-07. This third volume of Concrete in the Service of Mankind focuses on appropriate concrete technology. Concrete is ubiquitous and unique and is found in every developed and developing country. Indeed there are no alternatives to concrete as a volume construction material for infrastructure. This raises important questions of how concrete should be designed and constructed for cost effective use in the short and long term and to encourage further radical development. Equally it must be environmentally friendly during manufacture in an aesthetic presentation in structures and in the containment of harmful materials. This book should be of interest to concrete technologists, contractors, civil engineers, consultants, government agencies, research organizations.
