Animals, Anthropomorphism and Mediated Encounters Claire Parkinson,2019-07-23 This book critically investigates the pervasiveness of anthropomorphised animals in popular culture Anthropomorphism in popular visual media has long been denounced for being unsophisticated or emotionally manipulative It is often criticised for over expressing similarities between humans and other animals This book focuses on everyday encounters with visual representations of anthropomorphised animals and considers how attributing other animals with humanlike qualities speaks to a complex set of power relations Through a series of case studies it explores how anthropomorphism is produced and circulated and proposes that it can serve to create both misunderstandings and empathetic connections between humans and other animals This book will appeal to academics and students interested in visual media animal studies sociology and cultural studies Weekly World News ,2001-11-13 Rooted in the creative success of over 30 years of supermarket tabloid publishing the Weekly World News has been the world s only reliable news source since 1979 The online hub www.weeklyworldnews.com is a leading
