The eighteen essays divide into three sections Theory Colonialism Postcolonialism The first section sets the theoretical framework for postcolonial studies essays here deal with issues of otherness and cultural difference as well as the colonialist implications of pedagogic practice

These essays confront our relationships with the child and childhood as sites for the exertion of our authority and control Section 2 presents discussions of the colonialist mind set in children s and young adult texts from the turn of the century

Here works by writers of animal stories in Canada the U S and Britain works of early Australian colonialist literature and Frances Hodgson Burnett s A Little Princess come under the scrutiny of our postmodern reading practices
