## **Hard Choices How Women Decide About Work Career And Motherhood:**

**Hard Choices** Kathleen Gerson, 1986-03-17 How do women choose between work and family commitments And what are the causes limits and consequences of the subtle revolution in women s choices over the 1960s and 1970s To answer these questions Kathleen Gerson analyzes the experiences of a carefully selected group of middle class and working class women who were young adults in the 1970s Their informative life histories reveal the emerging social forces in American society that have led today s women to face several difficult choices

**For the Family?** Sarah Damaske, 2011-10-03 In the contentious debate about women and work conventional wisdom holds that middle class women can decide if they work while working class women need to work Yet even after the recent economic crisis middle class women are more likely to work than working class women Sarah Damaske deflates the myth that financial needs dictate if women work revealing that financial resources make it easier for women to remain at work and not easier to leave it Departing from mainstream research Damaske finds three main employment patterns steady pulled back and interrupted She discovers that middle class women are more likely to remain steadily at work and working class women more likely to experience multiple bouts of unemployment She argues that the public debate is wrongly centered on need because women respond to pressure to be selfless mothers and emphasize family need as the reason for their work choices Whether the decision is to stay home or go to work women from all classes say work decisions are made for their families In *For the Family* Sarah Damaske at last provides a far more nuanced and richer picture of women work and class than the one commonly drawn

**Handbook of Employment Discrimination Research** Laura Beth Nielsen, Robert L. Nelson, 2008-06-06 This volume contains a collection of original papers by leading legal scholars and social scientists that develop new perspectives on anti discrimination law with an emphasis on employment discrimination The articles were written for a conference held at Stanford Law School in Spring 2003 that was sponsored by the American Bar Foundation and Stanford Law School The purpose of that conference this volume and ongoing work by the Discrimination Research Group based at the American Bar

Foundation and the Center for Advanced Study in the Behavioral Sciences is to advance the social scientific understanding of employment discrimination and the operation of employment discrimination law as a social system and to consider the legal and policy implications of this emerging body of social science Now is a pivotal moment for an attempt at a deeper understanding of discrimination and law After three decades of theoretical development and empirical research on employment discrimination and its treatment in law it is crucial that lawyers social scientists and policymakers assess what we know and don't know about employment discrimination and its treatment by law To date there are several streams of active research that only occasionally engage with each other Economists and sociologists continue to debate the extent to which women minorities and other traditionally disadvantaged groups faced discrimination in labor markets and organizations Organization scholars and legal scholars have begun

to map the effect of anti discrimination law on organizational structures and processes and to raise questions about the extent to which the legalization of organizational employment systems represents symbolic or substantive changes in employment practices

**Gender Equality** Janet C. Gornick, Marcia K. Meyers, 2009-08-03 In the labor market and workplace anti discrimination rules affirmative action policies and pay equity procedures exercise a direct effect on gender relations But what can be done to influence the ways that men and women allocate tasks and responsibilities at home In Gender Equality Volume VI in the Real Utopias series social scientists Janet C Gornick and Marcia K Meyers propose a set of policies paid family leave provisions working time regulations and early childhood education and care designed to foster more egalitarian family divisions of labor by strengthening men s ties at home and women s attachment to paid work Their policy proposal is followed by a series of commentaries both critical and supportive from a group of distinguished scholars and a concluding essay in which Gornick and Meyers respond to a debate that is a timely and valuable contribution to egalitarian politics

**Putting Work in Its Place** Peter Meiksins, Peter Whalley, 2018-09-05 Most books on the subject of work focus on the increased amount of time Americans spend on the job Peter Meiksins and Peter Whalley address the counter trend examining the difficult path traversed by people who choose to work less than the standard forty hour week Their fascinating investigation of alternative work arrangements speaks directly to the concerns of all workers who must balance career with other commitments Through interviews with technical professionals from a wide range of employment settings Putting Work in Its Place refutes the popular myth of the customized work schedule as inevitably a mommy track or a return to traditionalism among women Most of these workers male and female young and old remain strongly committed to their jobs but wish to combine work with other activities they value just as highly This can mean family for some but for others encompasses community service or various avocations By viewing their work arrangements in the longer term and not as short term expedients these professionals are challenging the accepted view of time requirements for careers in organizations They are also helping to shape a new agenda for the future of the workplace to transform their individual successes into a normal practice of customized work time

**Open to Disruption** Anita Ilta Garey, Rosanna Hertz, Margaret K. Nelson, 2014-07-03 At a time when an emphasis on productivity in higher education threatens to undermine well crafted research these highly reflexive essays capture the sometimes profound intellectual

effects that may accompany disrupted scholarship They reveal that over long periods of time relationships with people studied invariably change sometimes in dramatic ways They illustrate how world events such as 9 11 and economic cycles impact individual biographies Some researchers describe how disruptions prompted them to expand the boundaries of their discipline and invent concepts that could more accurately describe phenomena that previously had no name and no scholarly history Sometimes scholars themselves caused the disruption as they circled back to work they had considered done and allowed the possibility of rethinking earlier findings

**Television Culture and Women's Lives** Margaret J. Heide,1995-02 Contemporary cultural theory feminist criticism and ethnography converge in this provocative study of the construction of meaning in mass culture Television Culture and Women s Lives explores the complex relationship between the gender conflicts played out in the scripts of the popular television show thirtysomething and the real life conflicts experienced by baby boomer women viewers Women viewers often reinterpreted the program s conservative view on gender roles seeing it instead as a protest against real dilemmas women face as they try to integrate career and family priorities Heide s study confirms women viewers close identifications with thirtysomething characters and positions audience responses against the backdrop of changes in the lives of women in the 1980s and 1990s Television

Culture and Women's Lives accessibly treats fascinating issues related to cultural criticism the relationship between mass media and audiences and the struggles faced by women in late twentieth century America      **New Frontiers in Socialization** Richard A. Settersten Jr., Timothy J Owens, 2002-06-21 New Frontiers in Socialization      **Unwomanly Conduct** Carolyn Mackelcan Morell, 2014-01-09 Provocative study of women who chose to be childless based on extensive interviews with women aged between 40 and 78 A significant contribution to debates about choice the private and the public gender and diversity      **The Unfinished Revolution** Kathleen Gerson, 2011-07-07 The vast changes in family life have often been blamed for declining morality and unhappy children Drawing upon pioneering research with the children of the gender revolution Kathleen Gerson reveals that it is not a lack of family values but rigid social and economic forces that make it difficult to live out those values The Unfinished Revolution makes clear recommendations for a new flexibility at work and at home that benefits families encourages a thriving economy and helps women and men integrate love and work      **Kingdom of Children** Mitchell Stevens, 2009-02-09 More than one million American children are schooled by their parents As their ranks grow home schoolers are making headlines by winning national spelling bees and excelling at elite universities The few studies conducted suggest that homeschooled children are academically successful and remarkably well socialized Yet we still know little about this alternative to one of society's most fundamental institutions Beyond a vague notion of children reading around the kitchen table we don't know what home schooling looks like from the inside Sociologist Mitchell Stevens goes behind the scenes of the homeschool movement and into the homes and meetings of home schoolers What he finds are two very different kinds of home education one rooted in the liberal alternative school movement of the 1960s and 1970s and one stemming from the Christian day school movement of the same era Stevens explains how this dual history shapes the meaning and practice of home schooling today In the process he introduces us to an unlikely mix of parents including fundamentalist Protestants pagans naturalists and educational radicals and notes the core values on which they agree the sanctity of childhood and the primacy of family in the face of a highly competitive bureaucratized society Kingdom of Children aptly places home schoolers within longer traditions of American social activism It reveals that home schooling is not a random collection of individuals but an elaborate social movement with its own celebrities networks and characteristic lifeways Stevens shows how home schoolers have built their philosophical and religious convictions into the practical structure of the cause and documents the political consequences of their success at doing so Ultimately the history of home schooling serves as a parable about the organizational strategies of the progressive left and the religious right since the 1960s Kingdom of Children shows what happens when progressive ideals meet conventional politics demonstrates the extraordinary political capacity of conservative Protestantism and explains the subtle ways in which cultural sensibility shapes social movement outcomes more generally      *Nested Games* George Tsebelis, 1991-08-12 Clearly written and easily understood by the nonspecialist Nested Games provides a systematic empirically accurate and theoretically coherent account

of apparently irrational political actions      The Role of Gender in Practice Knowledge Josefina Figueira McDonough, F. Ellen Netting, Ann Nichols Casebolt, 2018-10-24 Feminist critiques of the social sciences are based on the assumption that because the social sciences were developed for the most part by white middle class Western men the perspectives of women were ignored This book offers an approach for integrating gender related content into the social work curriculum The distinguished contributors discuss the shortcoming of dominant knowledge address the pressing need for a gender integrated curriculum consider the pedagogies consistent with the implementation of an integrate curriculum address specific areas in social work education assessing content and assumptions and discuss strategic issues for the implementation of curricular knowledge
