Harlem Between Heaven And Hell:

Harlem Between Heaven and Hell Monique M. Taylor, 2002 Harlem brings to mind a kaleidoscope of images the jazz clubs and cultural ferment of the 1920s and 1930s the urban decay of the 1960s and 1970s and the revitalization of the past twenty years Integral to the ongoing transformation of Harlem has been the return of the African American middle class to what had become an overwhelmingly poor area In this lively book Monique M Taylor explores the stresses created by this influx the surprising ways class differences manifest themselves and are managed and what we can learn from examining a community in which race and class are so closely in

Cross-Cultural Harlem Sandhya Shukla, 2024-06-04 Over the course of the twentieth and twenty first centuries Harlem has been the capital of both Black America and a global African diaspora an early home for Italian and Jewish immigrant communities an important Puerto Rican neighborhood and a representative site of gentrification How do we understand the power of a place with so many claims and identifications Drawing on fiction sociology political speech autobiography and performance Sandhya Shukla develops a living theory of Harlem in which peoples of different backgrounds collide interact and borrow from each other even while Blackness remains crucial Cross Cultural Harlem reveals a dynamic of exchange that provokes a rethinking of spaces such as Black Harlem El Barrio and Italian Harlem Cross cultural encounters among African Americans West Indians Puerto Ricans Jews and Italians provide a story of multiplicity that challenges the framework of territorial enclaves Shukla illuminates the historical processes that have shaped the diversity of Harlem examining the many dimensions of its Blackness Southern African Caribbean Puerto Rican and more as well as how white ethnicities have been constructed Considering literary and historical examples such as Langston Hughes's short story *Spanish Blood* the career of the Italian American left wing Harlem congressman Vito Marcantonio and the autobiography of Puerto Rican Cuban writer Piri Thomas Shukla argues that cosmopolitanism and racial belonging need not be seen as contradictory Cross Cultural Harlem offers a vision of sustained dialogue to respond to the challenges of urban transformations and to affirm the future of Harlem as actual place and global symbol

Race and Real Estate Adrienne R. Brown, Valerie Smith, 2015 *Race and Real Estate* brings together new work by architects sociologists legal scholars and literary critics that qualifies and complicates traditional narratives of race property and citizenship in the United States Rather than simply rehearsing the standard account of how blacks were historically excluded from homeownership the authors of these essays explore how the raced history of property affects understandings of home and citizenship While the narrative of race and real estate in America has usually been relayed in terms of institutional subjugation dispossession and forced segregation the essays collected in this volume acknowledge the validity of these histories while presenting new perspectives on this story

The Homeland Is the Arena Ousmane Kane, 2011-03-23 As Senegal prepares to celebrate fifty years of independence from French colonial rule academic and policy circles are engaged in a vigorous debate about its experience in nation building An important aspect of this debate is the impact of globalization

on Senegal particularly the massive labor migration that began directly after independence From Tokyo to Melbourne from Turin to Buenos Aires from to Paris to New York 300 000 Senegalese immigrants are simultaneously negotiating their integration into their host society and seriously impacting the development of their homeland This book addresses the modes of organization of transnational societies in the globalized context and specifically the role of religion in the experience of migrant communities in Western societies Abundant literature is available on immigrants from Latin America and Asia but very little on Africans especially those from French speaking countries in the United States Ousmane Kane offers a case study of the growing Senegalese community in New York City By pulling together numerous aspects religious ethnic occupational gender generational socio economic and political of the experience of the Senegalese migrant community into an integrated analysis linking discussion of both the homeland and host community this book breaks new ground in the debate about postcolonial Senegal Muslim globalization and diaspora studies in the United States A leading scholar of African Islam Ousmane Kane has also conducted extensive research in North America Europe and Africa which allows him to provide an insightful historical ethnography of the Senegalese transnational experience **The Ghetto** Ray Hutchison, 2018-04-19 This book discusses more general consideration of marginalized urban spaces and peoples around the globe It considers the question Is the formation and later dissolution of the Jewish ghetto an appropriate model for understanding the experience of other ethnic or racial populations **The Racial Order** Mustafa Emirbayer, Matthew Desmond, 2024-05-31 Proceeding from the bold and provocative claim that there never has been a comprehensive and systematic theory of race Mustafa Emirbayer and Matthew Desmond set out to reformulate how we think about this most difficult of topics in American life In *The Racial Order* they draw on Bourdieu Durkheim and Dewey to present a new theoretical framework for race scholarship Animated by a deep and reflexive intelligence the book engages the large and important issues of social theory today and along the way offers piercing insights into how race actually works in America Emirbayer and Desmond set out to examine how the racial order is structured how it is reproduced and sometimes transformed and how it penetrates into the innermost reaches of our racialized selves They also consider how and toward what end the racial order might be reconstructed In the end this project is not merely about race it is a theoretical reconsideration of the fundamental problems of order agency power and social justice *The Racial Order* is a challenging work of social theory institutional and cultural analysis and normative inquiry **Race, Social Reform, and the Making of a Middle Class** Joseph O. Jewell, 2007 Periods of time characterized by large scale social change encourage reinterpretations of the meanings of categories like race and class strategies for their reproduction and their relationship to one another as social structures The racialized nature of class identities makes movements which attempt to redistribute class resources along racial lines a challenge to both racial boundaries and class boundaries highlighting their intersection through the strategies and resources associated with social reproduction **Urban Renewal and Resistance** Mary E.

Trice,2016-08-26 **Urban Renewal and Resistance Race Space and the City in the Late Twentieth to Early Twenty First Century** examines how urban spaces are rhetorically constructed through discourses that variously justify or resist processes of urban growth and renewal This book combines insights from critical geography urban studies and communication to explore how urban spaces like Detroit and Harlem are rhetorically structured through neoliberal discourses that mask the racialized nature of housing and health in American cities The analysis focuses on city planning documents web sites media accounts and draws on insights from personal interviews in order to pull together a story of city growth and its consequences while keeping an eye on the ways city residents continue to confront and resist control over their communities through counter narratives that challenge geographies of injustice Recommended for scholars of communication studies journalism sociology geography and political science

The Gentrification Debates Japonica Brown-Saracino,2013-09-13 Uniquely well suited for teaching this innovative text reader strengthens students critical thinking skills sparks classroom discussion and also provides a comprehensive and accessible understanding of gentrification

The Roots of Urban Renaissance Brian D. Goldstein,2023-03-14 An acclaimed history of Harlem s journey from urban crisis to urban renaissance With its gleaming shopping centers and refurbished row houses today s Harlem bears little resemblance to the neighborhood of the midcentury urban crisis Brian Goldstein traces Harlem s Second Renaissance to a surprising source the radical social movements of the 1960s that resisted city officials and fought to give Harlemites control of their own destiny Young Harlem activists inspired by the civil rights movement envisioned a Harlem built by and for its low income predominantly African American population In the succeeding decades however the community based organizations they founded came to pursue a very different goal a neighborhood with national retailers and increasingly affluent residents The Roots of Urban Renaissance demonstrates that gentrification was not imposed on an unwitting community by unscrupulous developers or opportunistic outsiders Rather it grew from the neighborhood s grassroots producing a legacy that benefited some longtime residents and threatened others

The Suburbanization of New York Jerilou Hammett,Kingsley Hammett,2012-03-20 The city that never sleeps also never stops changing And while New Yorkers are renowned for their trendsetting this thought provoking book argues that New York City itself has become a follower rather than a leader Once distinctive streets and neighborhoods have become awash in generic stores apartment boxes and garish signs and billboards Legendary neighborhoods Little Italy Hell s Kitchen Harlem the Lower East Side have been smoothed over with cute monikers remade for real estate investment and for sale to the highest bidder

The Political Life of Urban Streetscapes Reuben Rose-Redwood,Derek Alderman,Maoz Azaryahu,2017-07-06 Streetscapes are part of the taken for granted spaces of everyday urban life yet they are also contested arenas in which struggles over identity memory and place shape the social production of urban space This book examines the role that street naming has played in the political life of urban streetscapes in both historical and contemporary cities The renaming of streets and remaking of urban commemorative landscapes have long been key strategies that different political

regimes have employed to legitimize spatial assertions of sovereign authority ideological hegemony and symbolic power Over the past few decades a rich body of critical scholarship has explored the politics of urban toponymy and the present collection brings together the works of geographers anthropologists historians linguists planners and political scientists to examine the power of street naming as an urban place making practice Covering a wide range of case studies from cities in Europe North America Sub Saharan Africa and Asia the contributions to this volume illustrate how the naming of streets has been instrumental to the reshaping of urban spatial imaginaries and the cultural politics of place

Represent Patricia A. Banks, 2009-12-16 Examines how upper middle class blacks forge black identities for themselves and their children through the consumption of black visual art This book documents how the salience of race extends into the cultural life of even the most socioeconomically successful blacks

Constructing Belonging Sabiyha Robin Prince, 2004-02-24 Looking at the communities of Central and West Harlem in New York City this study explores the locus form and significance of socioeconomic differentiation for African American professional managerial workers It begins by considering centuries of New York City history and the structural elements of class inequality to present readers with the larger context of contemporary events The primary objective of this study is to examine the everyday lives of black professionals in Harlem and determine what bearing income generating activities have on ideology consumption patterns and lifestyle among other factors

Gentrification Loretta Lees, Tom Slater, Elvin Wyly, 2013-10-18 This first textbook on the topic of gentrification is written for upper level undergraduates in geography sociology and planning The gentrification of urban areas has accelerated across the globe to become a central engine of urban development and it is a topic that has attracted a great deal of interest in both academia and the popular press Gentrification presents major theoretical ideas and concepts with case studies and summaries of the ideas in the book as well as offering ideas for future research

ReFocus: The Films of Michel Gondry Block Marcelline Block, 2020-09-21 The acclaimed French auteur behind the mind bending modern classic *Eternal Sunshine of the Spotless Mind* for which he won an Academy Award for Best Original Screenplay Michel Gondry has directed a number of innovative ground breaking films and documentaries episodes of the acclaimed television show *Kidding* and some of the most influential music videos in the history of the medium In this collection a range of international scholars offers a comprehensive study of this significant and influential figure covering his French and English language films and videos and framing Gondry as a transnational auteur whose work provides insight into both French European and American cinematic and cultural identity With detailed case studies of films such as *Eternal Sunshine of the Spotless Mind* 2004 *The Science of Sleep* 2006 *Microbe Gasoline* 2015 and *Mood Indigo* 2013 this collection will appeal to readers interested in the various media in which Gondry has worked and in contemporary post modern French and American cinema in general

Social Class Annette Lareau, Dalton Conley, 2008-07-10 Class differences permeate the neighborhoods classrooms and workplaces where we lead our daily lives But little is known about how class really works and its importance is often

downplayed or denied In this important new volume leading sociologists systematically examine how social class operates in the United States today Social Class argues against the view that we are becoming a classless society The authors show instead the decisive ways social class matters from how long people live to how they raise their children to how they vote The distinguished contributors to Social Class examine how class works in a variety of domains including politics health education gender and the family Michael Hout shows that class membership remains an integral part of identity in the U S in two large national surveys over 97 percent of Americans when prompted identify themselves with a particular class Dalton Conley identifies an intangible but crucial source of class difference that he calls the opportunity horizon children form aspirations based on what they have seen is possible The best predictor of earning a college degree isn't race income or even parental occupation it is rather the level of education that one's parents achieved Annette Lareau and Elliot Weininger find that parental involvement in the college application process which significantly contributes to student success is overwhelmingly a middle class phenomenon David Grusky and Kim Weeden introduce a new model for measuring inequality that allows researchers to assess not just the extent of inequality but also whether it is taking on a more polarized class based form John Goldthorpe and Michelle Jackson examine the academic careers of students in three social classes and find that poorly performing students from high status families do much better in many instances than talented students from less advantaged families Erik Olin Wright critically assesses the emphasis on individual life chances in many studies of class and calls for a more structural conception of class In an epilogue journalists Ray Suarez Janny Scott and Roger Hodge reflect on the media's failure to report hardening class lines in the United States even when images on the nightly news such as those involving health crime or immigration are profoundly shaped by issues of class Until now class scholarship has been highly specialized with researchers working on only one part of a larger puzzle Social Class gathers the most current research in one volume and persuasively illustrates that class remains a powerful force in American society *The Ghetto* Bryan Cheyette, 2020

Ghetto is an extraordinarily complex word that encompasses Jewish history black experiences in northern America and our contemporary sense of cities and countries segregated by race and class Exploring the various identities and uses of ghettos Bryan Cheyette shows how different instances of ghettoization interrelate across time and space **The Sustainability Myth** Melissa Checker, 2020-10-27 WINNER OF THE 2021 DELMOS JONES AND JAGNA SHARFF MEMORIAL PRIZE FOR THE CRITICAL STUDY OF NORTH AMERICA Uncovers the hidden costs and contradictions of sustainable policies in an era driven by real estate development From state of the art parks to rooftop gardens efforts to transform New York City's unsightly industrial waterfronts into green urban oases have received much public attention In *The Sustainability Myth* Melissa Checker uncovers the hidden costs and contradictions of the city's ambitious sustainability agenda in light of its equally ambitious redevelopment imperatives Focusing on industrial waterfronts and historically underserved places like Harlem and Staten Island's North Shore Checker takes an in depth look at the dynamics of environmental gentrification

documenting the symbiosis between eco friendly initiatives and high end redevelopment and its impact on out of the way non gentrifying neighborhoods At the same time she highlights the valiant efforts of local environmental justice activists who work across racial economic and political divides to challenge sustainability s false promises and create truly viable communities The Sustainability Myth is a cautionary eye opening tale taking a hard but ultimately hopeful look at environmental justice activism and the politics of sustainability *The Oxford Handbook of African American Language*
Sonja L. Lanehart, 2015 Offers a set of diverse analyses of traditional and contemporary work on language structure and use in African American communities
