Harms Way Disasters In Western Canada:

Harm's Way Anthony W. Rasporich, Maxwell Foran, 2004 The stories told in this collection though tragic for many illustrate the steadfast determination and courage of people in the face of misfortune and extreme distress From the lesser known weed outbreaks and tornadoes to the world wide influenza outbreak in 1918 that devastated many Calgary families these stories focus on the human side of these disasters It may be a heroic individual or the collective response of a community but what is truly remarkable in these stories is the human response to the world being turned upside down by famine and disease by flood fire or rock slide by wind and cold by dynamite or gas explosions or even by the seemingly mundane threat of weeds upon crops It is the resolution to continue to fight and the persistence of the human spirit and its adaptability to challenges that is the true story of a century of development in western Canada *The Prairie West as Promised Land* R. Douglas Francis, Chris Kitzen, 2007 Millions of immigrants were attracted to the Canadian West by promotional literature from the government in the late 19th century to the First World War bringing with them visions of opportunity to create a Utopian society or a chance to take control of their own destinies **Alberta Formed - Alberta Transformed** Alberta 2005 Centennial History Society, 2006-04-18 Alberta Formed Alberta Transformed is a two volume set spanning a remarkable 12 000 years of history and showcasing the work of 34 of Alberta's most respected scholars Volume 1 sets the stage from human beginnings in Alberta to the eve of Alberta's inauguration as a province in 1905 while Volume 2 takes readers through the twentieth century and up to the 2005 centennial *Clearing the Plains* James William Daschuk, 2013 In arresting but harrowing prose James Daschuk examines the roles that Old World diseases climate and most disturbingly Canadian politics the politics of ethnocide played in the deaths and subjugation of thousands of aboriginal people in the realization of Sir John A Macdonald's National Dream It was a dream that came at great expense the present disparity in health and economic well being between First Nations and non Native populations and the lingering racism and misunderstanding that permeates the national consciousness to this day Clearing the Plains is a tour de force that dismantles and destroys the view that Canada has a special claim to humanity in its treatment of indigenous peoples Daschuk shows how infectious disease and state supported starvation combined to create a creeping relentless catastrophe that persists to the present day The prose is gripping the analysis is incisive and the narrative is so chilling that it leaves its reader stunned and disturbed For days after reading it I was unable to shake a profound sense of sorrow This is fearless evidence driven history at its finest Elizabeth A Fenn author of *Pox Americana* Required reading for all Canadians Candace Savage author of *A Geography of Blood* Clearly written deeply researched and properly contextualized history Essential reading for everyone interested in the history of indigenous North America J R McNeill author of *Mosquito Empires* **From Treaties to Reserves** D.J. Hall, 2015-11-01 Though some believe that the Indian treaties of the 1870s achieved a unity of purpose between the Canadian government and First Nations in *From Treaties to Reserves* D J Hall asserts that as a result of

profound cultural differences each side interpreted the negotiations differently leading to conflict and an acute sense of betrayal when neither group accomplished what the other had asked Hall explores the original intentions behind the government's policies illustrates their attempts at cooperation and clarifies their actions While the government believed that the Aboriginal peoples of what is now southern and central Alberta desired rapid change the First Nations in contrast believed that the government was committed to supporting the preservation of their culture while they adapted to change Government policies intended to motivate backfired leading instead to poverty starvation and cultural restriction Many policies were also culturally insensitive revealing misconceptions of Aboriginal people as lazy and over dependent on government rations Yet the first two decades of reserve life still witnessed most First Nations people participating in reserve economies many of the first generation of reserve born children graduated from schools with some improved ability to cope with reserve life and there was also more positive cooperation between government and First Nations people than is commonly acknowledged The Indian treaties of the 1870s meant very different things to government officials and First Nations Rethinking the interaction between the two groups From Treaties to Reserves elucidates the complexities of this relationship

Wet Prairie Shannon Stunden Bower, 2011-06-29 The Canadian prairies are often envisioned as dry windswept fields however much of southern Manitoba is not arid plain but wet prairie poorly drained land subject to frequent flooding Wet Prairie brings to light the complexities of surface water management in Manitoba from early artificial drainage efforts to late twentieth century attempts at watershed management Irregular water flow patterns challenged the checkerboard landscape of the 1872 federal Dominion Lands Act and homesteaders found their agricultural ambitions at odds with local environmental realities Thus in keeping with liberal principles the provincial government undertook substantial drainage efforts Flooding and drainage became the subjects of intense and persistent debate among provincial officials drainage experts and Manitoba residents New alliances and rivalries emerged amid shifting social political and environmental contexts with enduring consequences for both the landscapes and people of the wet prairie This account of an overlooked aspect of Prairie environmental history traces how the biophysical nature of southern Manitoba helped shape both Manitoba society and the provincial state

Crow Killer, New Edition Raymond W. Thorp, Jr., Robert Bunker, 2016-01-04 The movie Jeremiah Johnson introduced millions to the legendary mountain man John Johnson The real Johnson was a far cry from the Redford version Standing 6'2" in his stocking feet and weighing nearly 250 pounds he was a mountain man among mountain men one of the toughest customers on the western frontier As the story goes one morning in 1847 Johnson returned to his Rocky Mountain trapper's cabin to find the remains of his murdered Indian wife and her unborn child He vowed vengeance against an entire Indian tribe Crow Killer tells of that one man decades long war to avenge his beloved Whether seen as a realistic glimpse of a long ago fierce frontier world or as a mythic retelling of the many tales spun around and by Johnson Crow Killer is unforgettable This new edition redesigned for the first time features an introduction by western frontier expert Nathan E Bender and a glossary of Indian tribes

History Now Historical Society of Alberta,2007 *Groundless* Gregory Evans Dowd,2016-01-15 The fascinating and troubling story of powerful rumors that circulated and influential legends that arose in early America Why did Elizabethan adventurers believe that the interior of America hid vast caches of gold Who started the rumor that British officers purchased revolutionary white women s scalps packed them by the bale and shipped them to their superiors And why are people today still convinced that white settlers hardly immune as a group to the disease routinely distributed smallpox tainted blankets to the natives Rumor spread by colonists and Native Americans alike ran rampant in early America In *Groundless* historian Gregory Evans Dowd explores why half truths deliberate lies and outrageous legends emerged in the first place how they grew and why they were given such credence throughout the New World Arguing that rumors are part of the objective reality left to us by the past a kind of fragmentary archival record he examines how uncertain news became powerful enough to cascade through the centuries Drawing on specific case studies and tracing recurring rumors over many generations Dowd explains the seductive power of unreliable stories in the eastern North American frontiers from the sixteenth to the mid nineteenth centuries The rumors studied here some alluring some frightening commanded attention and demanded action They were all by definition groundless but they were not all false and they influenced the classic issues of historical inquiry the formation of alliances the making of revolutions the expropriation of labor and resources and the origins of war
