Holli, Paul M. Green, 1999-03 *A View from City Hall* Mid Century to Millennium offers readers a richly detailed visual road map of Chicago as viewed from the mayor s office in City Hall Within these pages are emblematic images of Chicago evolving from blue ribbon Mayor Martin Kennelly s 1947 1955 administration through his successors including the city s first and second black mayors the city s first female mayor the city s first non Irish mayor since 1933 and finally the Daley double Richard J and Richard M Witness the excitement as City Hall rolls out the welcome wagon for traveling kings and queens dignitaries and counts as well as figures of great historic import including Queen Elizabeth Princess Diana Mikhail Gorbachev Bishop Tutu and Frank Sinatra View rare scenes of the builder mayor tradition and the construction of such architectural triumphs as the Sears Tower which was then the world s tallest building With over 200 photographs accompanied by informative captions this volume highlights a variety of Chicago s ethnic festivals parades and political campaigns skillfully bringing each scene to life      ***Mayors and Schools*** Stefanie Chambers, 2006 This book examines the national trend toward mayoral control of big city school districts through comparative case studies of Chicago and Cleveland two school districts that adopted mayoral control during the 1990s Chambers takes up the question of whether granting control to mayors in major cities will indeed fix public school systems She finds that although both cities have experienced noteworthy improvements in student performance since mayoral control the increased centralization of decision making has reduced minority participation in democratic politics Chambers argues that this conundrum of improved performance at the cost of decreased minority participation could undermine the very democratic and civic values that schools try to teach In a concluding chapter she offers several suggestions for better incorporating minority participation educational decisions even while centralizing more power in mayors offices      *Reinventing Cities* Norman Krumholz, Pierre Clavel, 2009 Interviews with planners devoted to the needs of the poor and working class      *Jet*, 1987-12-14 The weekly source of African American political and entertainment news      ***Economic Development in American Cities*** Michael I. Judd,Dick W. Simpson,2011 Reexamining urban scholarship for the twenty first century **Planning Chicago** D. Bradford Hunt,Jon DeVries,2019-03-14 In this volume the authors tell the real stories of the planners politicians and everyday people who shaped contemporary Chicago starting in 1958 early in the Richard J Daley era Over the ensuing decades planning did much to develop the Loop protect Chicago s famous lakefront and encourage industrial growth and neighborhood development in the face of national trends that savaged other cities But planning also failed some of Chicago s communities and did too little for others The Second City is no longer defined by its past and its myths but by the nature of its emerging postindustrial future This volume looks beyond Burnham s giant shadow to see the sprawl and scramble of a city always on the make This isn t the way other history books tell the story But it s the Chicago way Neither Enemies nor Friends S. Oboler,A. Dzidzienyo,2005-04-01 In this collection leading scholars focus on the contemporary meanings and diverse experiences of blackness in specific countries of the hemisphere including the United States The anthology introduces new perspectives on comparative forms of racialization in the Americas and presents its implications both for Latin American societies and for Latinos relations with African Americans in the U S **Urban and Regional Development Trajectories in Contemporary Capitalism** Flavia Martinelli, Frank Moulaert, Andreas Novy,2013-03-22 This book re evaluates a rich scientific heritage of space and history sensitive development theories and produces an integrated methodology for the comparative analysis of urban and regional trajectories within a globalized world The main argument put forward is that current mainstream analyses of urban and regional development have forgotten this rich heritage and fail to address the connections between different dimensions of development the role of history and the importance of place and scale relations The proposed methodology integrates elements from different theories radical economic geography regulation approach cultural political economy old and new institutionalism that all share a strong concern with time and space dynamics They are recombined into an interdisciplinary meta theoretical framework capable of articulating the overall problem of socio economic development and providing methodological anchors for comparative case study analysis while recognizing context specificities The analytical methodology focuses on key dynamics and relations such as strategic agency and collective action institutions and structures culture and discourse as well as the tension between path dependency and path shaping The methodology is then applied to

eight urban and regional cases mostly from Western Europe but also from the United States and China. The case studies confirm the relevance of time and space sensitive analysis not only for understanding development trajectories but also for policy making. They ultimately highlight that while post war institutions were able to address systemic contradictions and foster a relatively inclusive development model, the neoliberal turn has led to reductionist policies that not only have resulted in an increase in social and spatial inequalities but have also undermined growth and democracy.

*A Race Against Time*  
 James G. Cibulka, William L. Boyd, 2003-03-30  
 We are in a race against time to save urban children from educational failure and to reform urban school systems before people give up on them. The authors examine the effectiveness of three reform approaches: systems reform, mayoral influence, and external state or federal intervention, using case studies from seven large cities as well as state and national trends. The social and economic transformation of large American cities after World War II laid the seeds for the crisis in urban education that has festered and grown since the 1950s. Decades of appalling test scores and failure rates and of unsuccessful piecemeal efforts to improve urban education have led the public and policymakers to embrace radical solutions to reform. Three approaches to the reform of urban school governance are discussed and analyzed using data from seven large cities: Baltimore, Boston, Chicago, Los Angeles, Philadelphia, Washington D C, and New York. National trends and a statewide analysis of Maryland's school accountability system. The first approach, systems reform, focuses on improving the governance of urban education by overcoming policy fragmentation through standards for student performance, student assessments, and accountability among other things. Strong mayoral roles offer a second reform approach that largely reverses the Progressive era reforms of the last century, separating schools from city politics. Its supporters believe urban mayors can restore accountability, stability, and political support for urban schools. The third reform approach assumes that external intervention by federal or state authorities is needed to restore accountability and improve system performance.

**Rogues, Rebels, And Rubber Stamps**  
 Dick Simpson, 2018-03-08  
 In *Rogues, Rebels, and Rubber Stamps*, Dick Simpson challenges and recasts current theories of Regime Politics as he chronicles the dramatic story of the civic wars in the Chicago City Council since the civil war. At the same time, the author provides a window into the broader struggle for democracy and justice. Simpson points out that through analyzing city council floor fights, battles at the ballot box, and street demonstrations, one can begin to see certain patterns of conflict emerge. These patterns demonstrate that before the Great Depression, fragmented city councils were dominant. The author also discusses how, since the Democrats seized control of Chicago government after the Great Depression, Rubber Stamp City Councils have been predominant, although they have been punctuated by brief eras of council wars and chaos. This book is important for anyone wanting to understand the nature of these battles as a guideline for America's future and is well suited for courses in urban politics, affairs, and history. *Rogues, Rebels, and Rubber Stamps* received an Honorable Mention for the 2001 Society of Midland Authors Book Award for Adult Non Fiction.
