**Economic Development in Seven Pacific Island Countries** Mr.Christopher Browne,Mr.Douglas A. Scott,1989-06-15

This book by Christopher Browne with Douglas A Scott reviews the economic progress that Fiji Kiribati Papua New Guinea Solomon Islands Tonga Vanuatu and Western Samoa have made since independence An overview of the region examines development strategies external economic relations the role of the private sector and the evolution of financial structures Seven country studies describe the main characteristics of each economy analyze performance over the past decade and provide detailed statistics suitable for cross country comparison      **Pacific Island Economies** Hilarian M. A.

Codippily,1996 This sixth annual study focuses on the effects of globalization on developing countries and the growing divide between fast and slow integrating economies It describes current trends in integration and answers key questions on trade and on commodity reliant economies The book examines two questions in particular detail Will trade liberalization work The report argues that countries that embark on trade liberalization in the current environment are likely to be rewarded and recognizes that genuine adjustment costs exist and that complementary reforms are important How can commodity reliant countries enhance productivity and diversify exports Although many of these countries have been among the high growth fast integrators many others have been poor performers Successful exporters are characterized by high productivity in existing commodity sectors the capacity to diversify to non traditional commodity exports and the maintenance of economic stability The report projects continued rapid acceleration of integration over the next decade with moderate import growth in the developed countries and continued sharp import increases in developing countries Those countries that continue to reform their economies and expand their participation in the world economy will be in a position to take advantage of the resulting opportunities those that do not risk falling further behind      **Tourism vs Environment** P.P. Wong,2012-12-06 P P Wong

**ABSTRACT** Tourism is environmentally dependent The unique character of coastal areas gives rise to a distinctive tourist development Although accounts on the impacts of coastal tourism can be found in works relating to tourism in general there are few works specifically on coastal tourism This present volume focuses on the physical environment of coastal tourism particularly the geomorphological aspects The papers deal with basic aspects of the coastal environment for tourism methodologies for assessing the coastal environment for tourism and empirical studies of various types of coastal environment with tourism development The resulting generalisations are expected to be applied elsewhere **TOURISM AND ENVIRONMENT** Environment has various meanings for tourism In its broadest sense the environment includes all natural and cultural elements as in OECD's 1981 definition to encompass the natural built and cultural aspects This holistic approach is encouraged in understanding the potential impacts arising from tourism A narrower meaning of environment is the natural and built environment as used by Cohen 1978 and Inskeep 1991 339 Environment can also be restricted to the natural or physical environment in order to distinguish it from the economic and social aspects of tourism as used by tourism

researchers e g Mathieson and Wall 1982 Pearce 1989 This approach is used predominantly in this volume Various relationships between tourism and the physical aspects of the coast are discussed There are basic relationships between environment and tourism Tourism is environmentally dependent and the environment is vulnerable to the impact of tourism

**The Pacific Islands** Moshe Rapaport, 1999 Forty five contributors offer information on the physical environment history culture population economy and living environment of the Pacific islands Prospects of Democracy Tatu Vanhanen, 2002-11 Vanhanen provides the most extensive comparative survey of the state and conditions of democracy ever made with historical data and explanatory variables extending back to the 1850s and with forecasts covering seven regions of the world **Tonga** Martin Daly, 2009-02-04 Praise for the first edition Tonga is unique among bibliographies in its perception and understanding and in its affection for Tonga and its people Daly's work stands on exceptionally sound foundations His summaries are excellent indeed but Daly writes always with the authority of first hand knowledge with a keen eye for the essential and the ability to interpret and clarify obscurities A trustworthy introduction to Tonga in all its diversity a splendid point de d part for all layman or scholar needing a reliable guide to the essential literature about this remarkable Polynesian kingdom Bulletin of the School of Oriental and African Studies The book is so arranged that it is easy to locate any of the items listed I found myself spending pleasant hours perusing Daly's comments on the different publications I hope the rumor of a second revised edition of this bibliography is true Journal of the Polynesian Society Tonga is a fascinating and subtle combination of a traditional Polynesian kingdom the only one to survive the impact of colonization in the nineteenth century and remain independent and a thoroughly Christian country This comprehensive bibliography is a selective guide to the most significant and accessible English language books papers and articles on every aspect of the kingdom's history culture arts politics environment and economy It is a much updated and expanded edition of the original version that was published in 1999 as part of the World Bibliographical Series with the addition of more than 200 new entries Each of the approximately 600 described and annotated items is organized under broad subject headings and indexed by author title and subject In addition and new to this edition all known Ph D theses although not annotated are shown within their appropriate subject categories and indexed Also new is a section on the most important Tonga related websites A general introduction describes the Tongan kingdom its history and society and its current situation Tonga A New Bibliography will be an invaluable resource for anyone with a serious interest in Tonga and an indispensable volume for academic libraries reference collections and policy makers focused on the Pacific islands **Vanuatu** International Monetary Fund, 1996-08-26 This Background Paper on Vanuatu reviews the development of monetary control instruments in five small island economies in the South Pacific Fiji Solomon Islands Tonga Vanuatu and Western Samoa and draws some lessons from their experience The paper highlights that except Solomon Islands which have extraordinarily high credit demand from the government these economies have large structural excess liquidity in the banking system The paper

describes the financial sector in the five economies and analyzes the background for large excess liquidity It also reviews the developments of monetary instruments in these economies from a comparative perspective      **Research Handbook on Transnational Corporations** Alice de Jonge,Roman Tomasic,2017-01-27 Transnational corporations TNCs have moved to the forefront of regulatory governance both within states and in the international arena The Research Handbook on Transnational Corporations provides expert background commentary and up to date insights into regulatory frameworks impacting on TNCs at global industry and national levels Written by global experts in their field this unique collection of essays provides in depth understanding of how the forces of globalisation affect the world s largest corporations and how those corporations in turn shape globalisation      **Asian Bibliography** ,1990      **Pacific Forest** Judith Bennett,2021-10-25 This book addresses the contending views of the uses of Solomon Island forest Ranging from an examination of the interaction between the first settlers and their forest the book goes on to analyse the attitudes of the British administrators planters and missionaries The colonial government sought to protect the resource but neglected to consider the wishes of the forest s inhabitants in planning for its future economic use The independent governments failed to protect the dwindling forest on customary land in the face of accelerating demands from their own people and of Asian based logging companies while non governmental organisations and aid donors have tried to invoke a more conservative regime of forest use

*Future Role of International Agencies and Donors in Private Sector Development in Pacific Island Countries* Jim McMaster,1990      **Chinese Policy Priorities and Their Implications for the United States** Robert G. Sutter,2000 How the West responds to China s emergence as a great power will go far toward determining the course of world politics in the years ahead Yet as Robert Sutter shows in this timely book U S foreign policy in this vital arena remains remarkably unfocused and uninformed Preoccupied with domestic imperatives and a persistent and intractable debate over China the U S government media and public have all but ignored the interests and motivations of China s leaders The author argues that the course of U S China relations will be determined by Beijing as well as Washington and a balanced understanding of Chinese leaders priorities will lead to more informed and effective U S policy Toward that goal this pragmatic study examines current Chinese concerns and behavior in areas of crucial importance to the United States Assessing the many economic social and political problems that continue to preoccupy China s leaders Sutter concludes that Chinese internal difficulties and aspirations are so wide ranging and protracted that China s leaders will remain focused on promoting economic development and reforms and maintaining social political stability well into the twenty first century This analysis sets the stage for more extensive treatment of China s role in world affairs areas where Chinese and U S interests interact most directly The author contends that a balanced view of common ground and differences will temper the excessive swings seen in recent U S China policy and lay the groundwork for a more realistic relationship as we move into a new century

*Solomon Islands and Vanuatu* Biman C. Prasad, Paul Kausimae, 2012 Solomon Islands and Vanuatu are two small states that have struggled to develop successful social policies since independence This study traces their social histories and examines factors that have hindered progress Future development requires a move away from traditional social structures and a focus on political stability and economic growth Regionalism in South Pacific Yu Changsen, 2018-12-01 2017

4 8 UNDP **Self-determinable Development of Small Islands** Masahide Ishihara, Eiichi Hoshino, Yoko Fujita, 2016-06-14 This book aims to clarify the present situation of the relations between small island countries and territories on the one hand and the great powers mainland areas and mega islands on the other and explores how small island countries and territories preserve and build their identity under globalization This book is divided into five parts The first part presents papers on issues that are related to Okinawa the American military presence the formation of a global human network and the history of and language revitalization in Okinawa The second part includes papers on security in East Asia and the Pacific Region the history of and present issues in international relations within the South and East China Sea areas The third part presents papers on economic issues and social developments on small islands The fourth part deals with ocean policies and marine resource management in the Pacific Region by the United States Australia and Japan Finally the fifth part presents papers on the revitalization of three indigenous languages All the chapters of the book are based on the achievements of the research project Towards New Island Studies The Ryukyus as an academic node between East Asia and Oceania conducted by the International Institute for Okinawan Studies at the University of the Ryukyus This 5 year project was funded by the Japanese Ministry of Education Culture Sports Science and Technology and aimed to contribute academically to the creation of sustainable and self determinable societies in small island regions This work will be extremely useful and informative for readers in small island countries and territories and for researchers who are interested in small island issues to understand the current situation and who wish to consider effectual and feasible solutions **The China**

**Alternative** Graeme Smith, Terence Wesley-Smith, 2021-03-01 In this collection 17 leading scholars based in Solomon Islands Fiji Papua New Guinea Timor Leste Australia New Zealand the United States and China analyse key dimensions of the changing relationship between China and the Pacific Islands and explore the strategic economic and diplomatic implications for regional actors The China Alternative includes chapters on growing great power competition in the region as well as the response to China s rise by the US and its Western allies and the island countries themselves Other chapters examine key dimensions of China s Pacific engagement including Beijing s programs of aid and diplomacy as well as the massive investments of the Belt and Road Initiative The impact of China s rivalry for recognition with Taiwan is examined and several chapters analyse Chinese communities in the Pacific and their relationships with local societies The China Alternative provides ample material for informed judgements about the ability of island leaders to maintain their agency in the changing regional order as well as other issues of significance to the peoples of the region China s discovery of the diverse Pacific

islands intriguingly resonant of the era of European explorers is impacting on this too long overlooked region through multiple currents that this important book guides us through Rowan Callick Griffith University The China Alternative is a must read for all students and practitioners interested in understanding the new geopolitics of the Pacific It assembles a stellar cast of Pacific scholars to deeply explore the impact of the changing role of China on the Pacific islands region Significantly it also puts the Pacific island states at the centre of this analysis by questioning the collective agency they might have in this rapidly evolving strategic context Greg Fry The Australian National University      **Asia-Pacific** Raymond Frederick Watters, T. G. McGee, Ginny Sullivan, 1997 The great processes reshaping our world today can be summed up by the term globalisation Together with the communications revolution and massive urbanisation it is reshaping the organisation of global space It is illustrated by technological change pronounced economic growth the dominance of giant corporations ever more open markets and universal consumption Dramatic developments have occurred in Asia Pacific trade investment labour movements and political cooperation marked for example by APEC a giant free trade area designed to encompass about 60% of the world's population and half the world's economy But the processes also create social tension political reaction and local resistance as a result of regional restructuring widening regional disparities the neglect of backward areas or imposed modernisation Asia Pacific New Geographies of the Pacific Rim written by leading scholars from the region examines the extent to which Pacific Rim economies especially East Asia and Southeast Asia are increasingly integrated and considers the economic political and cultural forces at work In the process many new geographies are being created or reconstructed At the same time the local global dialectic whereby local forces react to negotiate with resist or capitulate to global forces is examined Part I analyses globalisation and the emergence of sub global regions Part II the processes of change in Asia Pacific and Part III the national responses to globalisation Part IV addresses local reactions to global forces resistance negotiations or capitulation Finally the editors enumerate the challenges to the region which centre on the crucial need to manage this era of globalisation so that sustainable societies can continue This vast region needs careful management of globalisation in which the forces of free trade and economic growth are the central determinants For the time being these forces seem to be in the ascendant      **The Performance and Prospects of the Pacific Island Economies in the World Economy** A.
