Hentz,2005-07-19 In South Africa and the Logic of Regional Cooperation James J Hentz addresses changes in South Africa s strategies for regional cooperation and economic development since its transition from apartheid to democracy Hentz focuses on why the new South African government continues to make regional cooperation a priority and what methods this dominant state uses to pursue its neighborly goals While providing a synthetic overview of the history of regional cooperation in southern Africa Hentz considers the logic of cooperation more generally An extensive discussion of South African politics provides the context for Hentz s exploration of the more widely felt effects of domestic change Readers interested in the international organization of the politics and economy of southern Africa will find thought provoking material in this important book **Trade and the Developing World in the 21st Century** Beverly Carl,2021-10-01 The developing World contains 80 percent of the globe s population but accounts for less than 25 percent of its trade The tariffs imposed by rich nations on manufactured products from developing countries are four times higher than the duties on goods from other industrialized nations This book examines the trade problems the developing nations face in the new Millennium Professor Carl s detailed analysis of the

effects of WTO rules as well as rules of no less than 37 other regional trade agreements on the economic infrastructures of developing nations is as telling and incisive as it is eloquent and insightful. It covers a wide spectrum of essential trade issues including tariffs, quotas, subsidies, dumping, rules of origin, standards, safeguards, textiles, agriculture, and information technology. Professor Carl clearly shows why in all of these areas developing nations fail to benefit from multilateral trade agreements as currently constituted. Dunn, T. Shaw, 2001-02-20. Africa has been noticeably absent in international relations theory.
