Assessing the Evidence on Indigenous Socioeconomic Outcomes Boyd Hunter, 2006-06-01 Aboriginal Australian Social conditions Economic conditions *The Economic Status of Australian Aborigines* Jon C. Altman, John Nieuwenhuysen, 2006-11-02 In recent years there has been a substantial growth in the literature of Australian Aboriginal Studies While much of this has touched on past and present economic issues from a historical political or social viewpoint its result has been to emphasize the need for a synthesis of the available information on the economic status of Aborigines in Australia This book provides a survey of studies so far made on various aspects of current Aboriginal economic life in different environments in Australia and raises questions of economic policy which follow from their results In this the authors break new ground in the breadth of their canvass and by their extension of issues previously limited to the realm of social welfare to that of economic policy This book is prefaced by a brief description of the historical background to the Aboriginal economy and introduced by an overview of the relatively unequal economic status of Aborigines in the Australian economy today *The Australian People* James Jupp, 2001-10 Australia is one of the most ethnically diverse societies in the world today From its ancient indigenous origins to British colonisation followed by waves of European then international migration in the twentieth century the island continent is home to people from all over the globe Each new wave of settlers has had a profound impact on Australian society and culture The Australian People documents the dramatic history of Australian settlement and describes the rich ethnic and cultural inheritance of the nation through the contributions of its people It is one of the largest reference works of its kind with approximately 250 expert contributors and almost one million words Illustrated in colour and black and white the book is both a comprehensive encyclopedia and a survey of the controversial debates about citizenship and multiculturalism now that Australia has attained the centenary of its federation **Social Anthropology and Australian Aboriginal Studies** Robert Tonks, Ronald Berndt, 1988-11 This volume summaries major developments in the social anthropology of Aboriginal studies in the 1960s 80s It is valuable as an overview of five important and interrelated topics economy kinship gender religion and law It also contains stimulating comment and criticism and raised important issues for future research as well as current debate in Aboriginal studies **Population Mobility and Indigenous Peoples in Australasia and North America** Martin Bell, John Taylor, 2003-12-25 Focusing on the four New World countries Australia New Zealand Canada and the United States this book explores key themes and issues in indigenous mobility *Culture, Economy and Governance in Aboriginal Australia* Diane J. Demographic and Socioeconomic Outcomes Across the Indigenous Australian Lifecourse Nicholas Biddle, Mandy Yap, 2010-12-01 Across almost all standard indicators the Indigenous population of Australia has worse outcomes than the non Indigenous population Despite the abundance of statistics and a plethora of government reports on Indigenous outcomes there is very little information on how Indigenous disadvantage accumulates or is mitigated through time at the individual level The research that is available highlights two key findings Firstly that Indigenous disadvantage starts from a very early age and widens over time Secondly that the timing of key life events including education attendance marriage childbirth and retirement occur on average at different ages for the Indigenous compared to the non Indigenous population To target policy interventions that will contribute to meeting the Council of Australian Governments COAG Closing the Gap targets it is important to understand and acknowledge the differences between the Indigenous and non Indigenous lifecourse in Australia as well as the factors that lead to variation within the Indigenous population **Aboriginal Ways of Using English** Diana Eades, 2013-06-14 This new collection by Professor Diana Eades addresses the way non traditional language Aboriginal speakers of English use and speak English Here she draws together some of her best writing over the past thirty years Older chapters are brought up to date with contemporary reflections informed by her many years experience in research and teaching as well as the practical applications of her scholarly work The introduction includes an overview about Aboriginal ways of speaking English and the implications for both education and the law as well as discussing the use of the term Aboriginal English To understand Aboriginal ways of speaking English leads to a better understanding of Aboriginal identity a better engagement in intercultural communication and learning about the complexities of how English is used by and with Aboriginal people in the legal process This is invaluable reading for university undergraduates in a range of disciplines but also postgraduate courses where there's
