Economic Growth And Employment In China:

Economic Growth and Employment in China Thomas G. Rawski, 1979 Investigating the relation between growth and employment in China this report shows that over the past two decades the world's largest developing nation made significant strides towards the goal of full employment of its labor force by the ability of the agricultural sector to absorb the unemployed

Employment and Economic Growth in Urban China 1949-1957 Christopher Howe, 1971-07-02 A study of China's urban employment problems between 1949 and 1957 Its main objectives are to analyse the size and determinants of urban employment change and to trace the evolution both of Chinese thinking about employment and the institutions of labour control that reflected this thinking in day to day administration

China's Labor Market Performance and Challenges Mr. Ray Brooks, Tao Ran, 2003-11-01 A more market oriented labor market has emerged in China in the past twenty years with growing importance of the urban private sector as state owned enterprises have downsized Despite the progress on reforms a sizable surplus of labor still exists in the rural sector and state owned enterprises The main challenge facing China's labor market in coming years is to absorb the surplus labor into quality jobs while adjusting to World Trade Organization WTO accession This paper estimates that if annual GDP growth averages 7 percent and the employment elasticity is one half urban unemployment could double to about 10 percent over the next three to four years These pressures would be limited by stronger economic growth especially in the private sector and more labor intensive service industries which have generated the most jobs in recent years Therefore policy should focus on encouraging private sector development while reducing barriers to labor mobility improving worker skills upgrading job search services and strengthening the social safety net

The Turning Point in China's Economic Development Ross Garnaut, Ligang Song, 2006-08-01 Focuses on China's long term pattern of growth and employment demographic shifts and rural urban migration its agricultural trade and local elections China's banking sector reform and its fiscal sustainability its environmental concerns and much more

China's Remarkable Economic Growth John Knight, Sai Ding, 2012-04-12 China's economy has been growing at ten per cent per annum for the last three decades This book considers one of the biggest questions facing contemporary economists why and how is the Chinese economy growing so fast

China's Economic Development Cai Fang, 2022-10-20 Cai Fang is one of China's most distinguished economists This book elucidates the worldwide significance of China's economic development over the past 70 years from the perspectives of economic history and growth theory The Chinese economy has undergone an unprecedented period of growth and development since the reform and opening up in the late 1970s a process which the hallmarks of neoclassic economic theory have often proved inadequate to explain Examining the Chinese economy in the light of Chinese history and the development of the world economy as a whole the book charts the milestones and critical reforms of China's economic development providing insights into unique attributes as well as more generic patterns The discussion covers multiple hot topics in the field including the so called Great Divergence dual sector economic

development real world experience of the reform and opening up rural reform urbanization economic reform poverty reduction the latter day slowdown of China's economic growth and China's role in and response to globalization global supply domination and other headwinds The book will be a must read for students scholars and general readers interested in the Chinese economy economic development political economy and development economics Economic Growth and Income Distribution in the Development of China's Dual Economy Wang Dihai, 2023-02-28 Since the start of the process of economic reform in 1978 China has maintained the structure of a dual economy with concurrent development of the agricultural and industrial sectors This book explores the key issues of China's economic growth and income distribution in this context Pivoting on analysis of China's real GDP and growth rate the first part of the book analyzes the evolution of economic growth and characteristics of economic structural changes across a period of forty years scrutinizing the different determinants that contribute to growth Then chapters in the second part of the volume study the relationship between China's economic growth and economic development elucidating the mechanism of interaction between the former and key factors of the latter including investment housing education and healthcare The final chapters center on the development and current landscape of income distribution providing explanation for sharpening income inequalities and advancing suggestions and feasible solutions to the problem of income gap This book is targeted at scholars students and policymakers interested in China's economy income distribution and economic growth **Macro-control and Economic Development in China** Jiagui Chen, 2016-09-01 This book together with Economic Development and Reform Deepening in China is a collection of papers written in recent years about maintaining economic growth managing inflation the relationship between growth and structural adjustment control of price growth maintaining stable economic development and other relevant aspects of macro control economic development and deepening reform Chinese government adopts many of the recommendations put forward by the book **China's Employment Challenges and Strategies After the WTO Accession** Douglas Zhihua Zeng, 2005 Although China has made impressive progress in economic development and improving social well being it is facing many daunting challenges while transforming toward a knowledge and service based economy and further opening up to international competition after its WTO accession in the context of knowledge revolution One of the biggest challenges is how to create 100 300 million new jobs in the coming decade to absorb the millions of laid offs rural emigrants and newly added labor force China has been successful in building high technology parks and information and communications technology ICT industries but they are limited in terms of employment generation while most of the traditional labor intensive industries are losing competitiveness due to low productivity To combat the unprecedented employment challenge China must implement a systemic and sustained strategy Cover verso **ECONOMIC GROWTH AND INDUSTRIAL STRUCTURE EVOLUTION** LIU WEI, 2019-12-09 The book Economic Growth and Industrial Structure Evolution China's Experience since the Beginning of Reform and Opening up discusses the connection and quantitative relationship between

the economic aggregate and industrial structure and is to explore the impact of the institutional reform and government's macro decision on China's economic growth and industrial structure evolution through the analysis of the industrial structure changes during the process of China's economic growth and reform over the past 30 years This book is collected by the National Achievements Library of Philosophy and Social Sciences of China in 2015 This study is divided into seven chapters respectively the judgements for economic growth level and development stage new changes new imbalances and new policies under the new normal the overall imbalances and macro control of economic growth the upgrading of industrial structure in economic growth the upgrading of industrial structure and growth efficiency the imbalances of industrial structure and distortions of primary income distribution and the upgrading of industrial structure adjustment of economic structure and the supply side reform
