Handbook Of Energy Finance: Theories, Practices And Simulations Stephane Goutte, Duc Khuong Nguyen, 2020-01-30 Modeling the dynamics of energy markets has become a challenging task. The intensification of their financialization since 2004 had made them more complex but also more integrated with other tradable asset classes. More importantly, their large and frequent fluctuations in terms of both prices and volatility, particularly in the aftermath of the global financial crisis 2008-2009, pose difficulties for modeling and forecasting energy price behavior and are primary sources of concerns for macroeconomic stability and general economic performance. This handbook aims to advance the debate on the theories and practices of quantitative energy finance while shedding light on innovative results and technical methods applied to energy markets. Its primary focus is on the recent development and applications of mathematical and quantitative approaches for a better understanding of the stochastic processes that drive energy market movements. The handbook is designed for not only graduate students and researchers but also practitioners and policymakers. Internal Investigations of Economic Crime

Petter Gottschalk, 2015-08-18 Private internal investigations by fraud examiners is a growing business for professional services firms. This book presents evaluations of a number of investigation reports in the United States and Norway. The book discusses self-regulation and regulatory policy. Convenience theory is introduced as an integrated explanation of white collar crime. **Challenges of Policing Democracies** Dilip Das, Marenin Otwin, 2012-10-12

In this text, the editors analyze the diverse situations that police forces operate under and the challenges that they face in different kinds of democracies. This cross-cultural comparison of various systems highlights the universal observation that police are an anomaly in a democracy and explores how various influences, for example, large-scale social violence, a zeal for crime fighting, and vulnerability to temptation often find police incapable of behaving in a democratic manner. *Challenges of Policing Democracies* goes beyond just showing the similarities and differences of the policing challenges democratic societies face; it also examines the responses and remedies adopted by police in various countries at different levels of democratic achievement and how every society struggles with the challenges of preserving democratic values without sacrificing the effectiveness of policing. The Economics of Property and Planning

Graham Squires, 2021-11-29 This book introduces the interlocking disciplines of property and planning to economic theory and practice. Unlike any other available textbook, *The Economics of Property and Planning* skilfully introduces the reader to the interplay between property and planning using an economic lens. As resources become scarce, there is a growing need for students to understand the principles of economics in property and planning, especially given the rapid social, environmental, technological, and political changes that are shaping places. The book begins with an outline of key economists and economic problems, then resources and scarcity, before examining macro and microeconomic factors at play in property and planning. Furthermore, this book covers a variety of topics including spatial and locational modelling, fiscal approaches to redistribution, regeneration, and

renewal and transport and infrastructure financing There is also a particular focus on contemporary issues such as climate change environmental limits to economic growth sustainability and resilience and affordable housing This book also introduces practical evaluation tools and appraisal plus a look at property and planning with respect to macroeconomic objectives policy and new directions With property and planning essential factors in economic thinking and doing this book provides insight into what future places will look like in real terms and how they will be shaped by policy Targeted disciplines for this book include Economics Planning Property Construction Geography Environmental Management Sustainability Housing Built Environment Land Economy Urban Studies Regional Studies and Public Policy Financial Crimes Chander Mohan Gupta,2023-05-15 The book s primary purpose is to understand the economic social and political impact of financial crimes and earning management on the Indian national economy The book is divided into four parts that focus on different sectors which lead to financial crimes in a country Financial crimes White Collar Crimes Cybercrimes Creative Accounting Investigating topics such as drug mafia money laundering online fraud accounting fraud and more the comprehensive investigation of different aspects of financial crimes this book offers insight into its central problems and how they can be controlled It is ideal for financial crime researchers Private Policing of Economic Crime Petter Gottschalk,2021-02-15 This book discusses private policing conducted by fraud examiners and financial crime specialists when there is suspicion of white collar crime The theory of convenience applies to the suspected crime while the maturity model applies to the conducted investigation Private policing of economic crime by fraud examiners in internal investigations is a topic of increasing concern as there is a growing business for law firms and auditing firms to conduct inquiries and reviews when there is suspicion of misconduct wrongdoing and crime by white collar offenders The key features of this book are the application of a structural model for convenience theory and the application of a maturity model for fraud examinations The structural model assesses convenience themes for motive opportunity and willingness in each case study while the maturity model assesses the level of private policing maturity in fraud examinations For the first time two emerging frameworks to study white collar offenses and private policing maturity are introduced and applied to a number of cases from Denmark Iceland Moldova the Netherlands Norway Sweden and Switzerland This book will be essential to those studying law business and criminology as well as practicing fraud examiners *The Commons* John Palmer Gavit,Graham Taylor,1896 **Annals of the American Academy of Political and Social Science** American Academy of Political and Social Science,1901
