W. Ahiakpor,2019-06-04 Modern macroeconomics is in a stalemate with seven schools of thought attempting to explain the workings of a monetary economy and to derive policies that promote economic growth with price level stability This book pinpoints as the source of this confusion errors made by Keynes in his reading of classical macroeconomics in particular the classical Quantity Theory and the meaning of saving It argues that if these misunderstandings are resolved it will lead to economic policies consistent with promoting the employment and economic growth that Keynes was seeking The book will be crucial reading for all scholars with an interest in the foundations of Keynes's theories and anyone seeking to understand current debates regarding macroeconomic policy making      *Making Globalization Happen* Vijayashri Sripati,2024 In Making Globalization Happen The Untold Story of Power Profits Privilege Sripati explains how when through which entities and for what purposes economic globalization was catalyzed and its effects on the Global South in general and South Asia in particular Based on an innovative international constitutional political economy framework Sripati examines how the Western classical liberal constitution has shaped international law developments in this post colonial era given its salience and comprehensive scope Presenting a comprehensive narrative of economic globalization Making Globalization Happen accurately and comprehensively links constitutional globalization to the following UN family created agendas peacebuilding conflict prevention human security protection of civilians sustainable development global war on terrorism women peace and security poverty reduction or market oriented development ending conflict related sexual violence and justice climate criminal and transitional Sripati simultaneously provides the missing constitutional foundation for globalization and the fields that it has spawned global studies and law and political economy With these ground breaking insights Making Globalization Happen The Untold Story of Power Profits Privilege clearly illustrates who drove constitutional globalization and for whose benefit the UN family and transnational capitalists Thus it
