## **Economics And Prestige In A Maya Community:**

**Economics and Prestige in a Maya Community** Frank Cancian, 1965      Economics and Prestige in a Maya Community Frank Cancian, 1971      Economics and Prestige in a Maya Community Frank Cancian, 1969      **The Decline of Community in Zinacantan** Frank Cancian, 1994-10-01 This ambitious wide ranging work shows how national economic prosperity and government expansion in Mexico during the 1970 s transformed a relatively closed peasant community into a more outwardly connected socially differentiated society marked by dissension and overt conflict      *Economics and prestige in a Maya community: the religious cargo system in Zinacantan* Frank Cancian,      **Mayan Lives, Mayan Utopias** Rosalva Aída Hernández Castillo, Shannan L. Mattiace, Jan Rus, 2003-09-03 The dramatic January 1 1994 emergence of the Zapatista Army of National Liberation EZLN in Chiapas Mexico brought the state s indigenous peoples to the attention of the international community Yet indigenous peoples in Chiapas had been politically active and organized for years prior to the uprising This compelling volume examines in detail these local and regional histories of power and resistance powerfully bolstered by gripping and heartrending details of oppression and opposition Situated broadly within the field of political anthropology the authors trace the connections between indigenous culture and indigenous resistance Their case studies include the Tzotzils and Tzeltals of the highland region the Tojolabals of eastern Chiapas northern Ch ol communities the Mams of eastern and southeastern Chiapas and the settler communities of the Lacandon rain forest In the wake of the Chiapas rebellion all of these groups have increasingly come together around common goals the most important of which is autonomy Three essays focus specifically on the issue of Indian autonomy in both Zapatista and non Zapatista communities Offering a consistent and cohesive vision of the complex evolution of a region and its many cultures and histories this work is a fundamental source for understanding key issues in nation building In a unique collaboration the book brings together recognized authorities who have worked in Chiapas for decades many linking scholarship with social and political activism Their combined perspectives many previously unavailable in English make this volume the most authoritative richly detailed and authentic work available on the people behind the Zapatista movement      **Altruism in Cross-Cultural Perspective** Douglas A. Vakoch, 2013-05-16 Altruism in Cross Cultural Perspective provides such a scholarly overview examining the intersection of culture and such topics as evolutionary accounts of altruism and the importance of altruism in ritual and religion The past decade has seen a proliferation of research on altruism made possible in part by significant funding from organizations such as the John Templeton Foundation While significant research has been conducted on biological social and individual dimensions of altruism there has been no attempt to provide an overview of the ways that altruistic behavior and attitudes vary across cultures The book addresses the methodological challenges of researching altruism across cultures as well as the ways that altruism is manifest in difficult circumstances A particular strength of the book is its attention to multiple disciplinary approaches to understanding altruism with contributors from fields including psychology anthropology

sociology biology communication philosophy religious studies gender studies and bioethics      The Oxford Handbook of the Archaeology of Ritual and Religion Timothy Insoll, 2011-10-28 The Oxford Handbook of the Archaeology of Ritual and Religion provides a comprehensive overview by period and region of the relevant archaeological material in relation to theory methodology definition and practice Although as the title indicates the focus is upon archaeological investigations of ritual and religion by necessity ideas and evidence from other disciplines are also included among them anthropology ethnography religious studies and history The Handbook covers a global span Africa Asia Australasia Europe and the Americas and reaches from the earliest prehistory the Lower and Middle Palaeolithic to modern times In addition chapters focus upon relevant themes ranging from landscape to death from taboo to water from gender to rites of passage from ritual to fasting and feasting Written by over sixty specialists renowned in their respective fields the Handbook presents the very best in current scholarship and will serve both as a comprehensive introduction to its subject and as a stimulus to further research

Middle America Mary W. Helms, 1982 Originally published by Prentice Hall in 1975      **How Do We Know? Applying Theories and Methods for Anthropology** Cyril Belshaw, 2011 Cyril Belshaw likes to explore outside the box He has been called the anthropologist of anthropology He has been told You are not really an anthropologist Whether or not such statements are accurate he does like to find new paths so that often his contributions appear away from the main roads of publication Thus in the hopes of stimulating discussion perhaps new applications and debate amongst graduate students and colleagues alike he has brought some of them together here He is now approaching his nineties so that some of his ideas date back as far as the forties while some follow is retirement The ethnographic base for his theoretical constructs and explanations is derived from the Pacific Islands Canadian society Switzerland and widespread travels influenced by the belief that a major objective of anthropology is to use explanation to improve the world      Latin America Jan Knippers Black, 2018-04-17 Now in a fifth edition Latin America has been updated to reflect the region's growing optimism as economies stabilize trade diversifies and political systems become more participatory This multidisciplinary survey of Latin American history politics and society features invited contributions from authorities in a variety of fields New sections address current events including deforestation in Costa Rica and Brazil emerging social movements Ecuador's new constitution and Obama's stated objectives to repair U.S. relations with the region In addition key topics such as women and Latin American politics socialist governments and anti American sentiment Argentina's deteriorating economy and Colombia's struggle with military and narcotics issues receive expanded and revitalized treatment Other updated material covers outcomes of recent elections in Bolivia Brazil and Nicaragua among others Through a hybrid thematic and regional organization this text provides an essential foundation for introductory courses on Latin America      Communities Surviving Migration James P. Robson, Dan Klooster, Jorge Hernández-Díaz, 2018-10-26 Out migration might decrease the pressure of population on the environment but what happens to the communities that manage the local environment when they are

weakened by the absence of their members In an era where community based natural resource management has emerged as a key hope for sustainable development this is a crucial question Building on over a decade of empirical work conducted in Oaxaca Mexico *Communities Surviving Migration* identifies how out migration can impact rural communities in strongholds of biocultural diversity It reflects on the possibilities of community self governance and survival in the likely future of limited additional migration and steady but low rural populations and what different scenarios imply for environmental governance and biodiversity conservation In this way the book adds a critical cultural component to the understanding of migration environment linkages specifically with respect to environmental change in migrant sending regions Responding to the call for more detailed analyses and reporting on migration and environmental change especially in contexts where rural communities livelihoods and biodiversity are interconnected this volume will be of interest to students and scholars of environmental migration development studies population geography and Latin American studies

**Food and the Status Quest** Polly Wiessner, Wulf Schiefenhövel, 1996 This book brings together contributions from different disciplines to investigate from ethological and anthropological perspectives behaviour that appears to have biological roots such as the tendency to seek status through the medium of food

*Neighborhood Tokyo* Theodore C. Bestor, 1989 In the vastness of Tokyo these are tiny social units and by the standards that most Americans would apply they are perhaps far too small geographically and demographically to be considered neighborhoods Still to residents of Tokyo and particularly to the residents of any given subsection of the city they are socially significant and geographically distinguishable divisions of the urban landscape In neighborhoods such as these overlapping and intertwining associations and institutions provide an elaborate and enduring framework for local social life within which residents are linked to one another not only through their participation in local organizations but also through webs of informal social economic and political ties This book is an ethnographic analysis of the social fabric and internal dynamics of one such neighborhood Miyamoto cho a pseudonym for a residential and commercial district in Tokyo where the author carried out fieldwork from June 1979 to May 1981 and during several summers since It is a study of the social construction and maintenance of a neighborhood in a society where such communities are said to be outmoded even antithetical to the major trends of modernization and social change that have transformed Japan in the last hundred years It is a study not of tradition as an aspect of historical continuity but of traditionalism the manipulation invention and recombination of cultural patterns symbols and motifs so as to legitimate contemporary social realities by imbuing them with a patina of venerable historicity It is a study of often subtle and muted struggles between insiders and outsiders over those most ephemeral of the community's resources its identity and sense of autonomy enacted in the seemingly insubstantial idioms of cultural tradition

**Sport, Dance and Embodied Identities**

Noel Dyck, Eduardo P. Archetti, 2020-08-20 Sport and dance command the passions and devotion of countless athletes dancers and fans worldwide Although conventionally thought to reside within separate social realms these two embodied

cultural forms are revealed in this benchmark volume to share a vital capacity to constitute and express identities through their practiced movements and scripted forms. Thus the work of choreographers and coaches along with the performances of dancers and athletes offer not merely entertainment and aesthetic accomplishment but also powerful means for celebrating existing social arrangements and cultural ideals or alternately for imagining and advocating new ones. Drawing on a wide selection of sport and dance activities from around the world, this book elucidates the ways in which embodied performances both mirror and reshape social life. It traces for example how football, salsa and tango can each be employed to articulate or rewrite national and gender identities. Also examined are children's sport and the dynamics by which immigration and cultural integration along with the socialization of children and youth may be directed through the organization of community sport. The volume investigates the marshalling of sport and dance in settings from Africa to Ireland as vehicles for framing moral issues that revolve around the appropriate use, protection and exhibition of the body. This innovative study establishes the paradoxical fashion in which dance and sport can unite certain people and communities while at the same time serving exclusionary and nationalistic purposes. SAGE Qualitative Research Methods Paul Atkinson, Sara Delamont, 2010-11-17

SAGE has been a major force shaping the field of qualitative methods not just in its specialist methods journals like *Qualitative Inquiry* but in the empirical journals such as *Social Studies of Science*. Delving into SAGE's deep backlist of qualitative research methods journals, Paul Atkinson and Sara Delmont, editors of *Qualitative Research*, have selected over 70 articles to represent SAGE's distinctive contribution to methods publishing in general and qualitative research in particular. This collection includes research from the past four decades and addresses key issues or controversies such as explanations and defences of qualitative methods, ethics, research questions and foreshadowed problems, access, first days in the field, field roles and rapport, practicalities of data collection and recording, data analysis, writing and representation, the rise of autoethnography, life history narrative and autobiography, CA and DA and alternatives to the logocentric such as visual methods.

*Where the Dove Calls* Thomas E. Sheridan, 1996-10-01 Thomas Sheridan's study of the municipio of Cucurpe, Sonora, offers new insight into the ability of peasants to respond to ecological and political change. In order to survive as small rancher farmers, the Cucurpeos battle aridity and one another in a society characterized by sharp economic inequality and long-standing conflict over the distribution of land and water. Sheridan has written an ethnography of resource control, one that wedges the approaches of political economy and cultural ecology in order to focus upon both the external linkages and internal adaptations that shape three peasant corporate communities. He examines the ecological and economic constraints which scarce and necessary resources place upon households in Cucurpe and then investigates why many such households have formed corporate communities to insure their access to resources beyond their control. Finally, he identifies the class differences that exist within the corporate communities as well as between members of those organizations and the private ranchers who surround them. *Where the Dove Calls* the meaning of Cucurpe in the language of the Opata Indians and

important contribution to peasant studies reveals the household as the basic unit of Cucurpe society By viewing Cucurpe s corporate communities as organizations of fiercely independent domestic units rather than as expressions of communal solidarity Sheridan shows that peasants are among the exploiters as well as the exploited Cucurpe os struggle to maintain the autonomy of their households even as they join together to protect corporate grazing lands and irrigation water Any attempt to weaken or destroy that independence is met with opposition that ranges from passive resistance to violence
