Knowledge Love and Ecstasy in the Theology of Thomas Gallus provides the first full study of Thomas Gallus d. 1246 in English and represents a significant advance in his distinctive theology. Boyd Taylor Coolman argues that Gallus distinguishes but never separates and intimately relates two international modalities in human consciousness: the intellective and the affective, both of which are forms of cognition. Coolman shows that Gallus conceives these two cognitive modalities as co-existing in an interdependent manner and that this reciprocity is given a particular character by Gallus' anthropological appropriation of the Dionysian concept of hierarchy. Because Gallus conceives of the soul as hierarchized on the model of the angelic hierarchy, the intellect-affect relationship is fundamentally governed by the dynamism of a Dionysian hierarchy which has two simultaneous trajectories: ascending and descending. Two crucial features are noteworthy in this regard: in ascending, firstly, the lower is subsumed by the higher; in descending, secondly, the higher communicates with the lower according to the nature of the lower. When Gallus posits a higher affective cognition above an intellective cognition at the highest point in the ascent, accordingly, this higher affective form both builds upon and sublimates the lower intellective form. At the same time, this affective cognition descends back down into the soul, both enriching its properly intellective capacity and also renewing the ascending movement in love. For Gallus, then, in the hierarchized soul a dynamic mutuality between intellect and affect emerges which he construes as a spiralling motion by which the soul unceasingly stretches beyond itself ecstasically in knowing and loving God. *January's Thaw* J. Conrad Guest, 2012-01-12. Many people obsess over their past, but no one more than I. Perchance it's because as a man out of time I left behind so much of it un-lived. If that makes little sense, consider that I'm a time traveler. Although the backdrop for my story is time travel and alternate realities, the underlying theme is a more human one: of love lost, another love found, only

to be lost and of a decision the result of a single regret brought about by the realization that my self professed courage to never risk my heart to love was instead cowardice to rectify a wrong in a life filled with myriad regrets You may judge me as it is man s nature to judge others or discount my story as the ravings of a lunatic mind or simply the fiction of an overactive imagination but before you do I ask that you read on to the end and then ask yourself if you would have acted any differently

**The Veils of the Seven Skies - Where Order Meets Ecstasy** Chris Tsirkas,2025-04-09 The Veils of the Seven Skies was born from a personal need to reconstruct the experience of Tragedy not as narrative but as passage In a time where theatre often becomes commentary or spectacle I longed to return to its ritual core a place where sound word and silence become thresholds The work seeks to revive the Sacred in performance not through religion but through the metaphysical weight of form repetition and gesture It is a response to the fragmentation of modern selfhood an offering of self transformation written for a stage that dares to stand still I envision this piece not simply as a play but as a vessel something ancient souls might recognize even if they no longer name it I wrote it so that it might one day be sung by voices who remember how to breathe between the Worlds The play is a philosophical and theatrical experiment that aims to bridge ancient worlds creating a poetic dialogue between the cultural heights of classical Greece and imperial China Its dramatic verse play merges the

structure and philosophical depth of Attic Tragedy with the refined aesthetics and performative precision of traditional Chinese Theatre and Opera Set upon a semi operatic vessel reminiscent of 18th century Italian opera this work creates a unique synthesis of two seemingly distant but profoundly resonant artistic worlds The baroque grandeur of the language and spectacle serves the cosmic scope of this East West symbolical encounter The narrative follows Dionysus the Greek god of wine and ecstatic transformation as he journeys to the Celestial Court of ancient China There his encounter with Princess Lian daughter of the Jade Emperor catalyzes a cosmic dialogue between Eastern discipline and Western spontaneity When the Emperor subjects Dionysus to Five Elemental Trials both cultures must confront their limitations and discover the complementary nature of their seemingly opposed philosophies Through Fire Water Wood Metal and Earth the characters navigate a series of challenges which test not only their physical and spiritual capacities but also their cultural assumptions about order chaos freedom and control The play integrates authentic elements from both traditions the Chorus Choral Odes and dramatic structure of Attic Tragedy alongside the water sleeve techniques shu xi and stylized gestures of Kunqu structural elements of Yuan Zaju and Ming Chuanqi and the codified role types of Peking Opera Jing Through musicalized verse and detailed choreographic directions this work illuminates universal themes which bind human expression across cultures The play's formal structure honors both traditions while creating something entirely new a theatrical language that speaks to our shared humanity The Veils of the Seven Skies explores timeless questions which have occupied both Eastern and Western philosophical traditions such as How do we balance freedom with form How can tradition embrace change without losing its essence and What happens when seemingly opposite forces discover their shared humanity These questions unfold through characters who embody philosophical principles while remaining emotionally compelling their personal journeys reflecting the larger cultural synthesis at the heart of this work This theatrical experiment demonstrates how Dionysian ecstasy and Eastern harmony can converse in a shared theatrical language transcending time and geography in order to explore the essential balance between chaos and order freedom and form tradition and transformation It stands as both a literary text and a potential performance piece which celebrates the richness of global theatrical traditions a tale of transformation where Seven Veils dissolve revealing the unity beneath our cultural differences The extensive glossary and notes provide context for readers unfamiliar with either tradition making this work accessible to diverse audiences while honoring the depth and complexity of its source material

[The Riddle of Christian Mystical Experience](#) Paul Mommaers, 2003 A distinctive feature of mystical experience is that it is imageless Mystics of various traditions witness indeed to their going beyond all intermediaries so as to enjoy immediate union Understandably the idea of imageless immediacy is attractive and it is especially in vogue with those who hope to discover that different religious spiritualities converge if only the particularity of say the Christian way would be

left behind. However, a crucial question arises here: If mystical union consists in simply transcending what is part and parcel of the human condition, where is its relevance? Is the mystic, as such, in a position to be his or her human self thinking and loving, enjoying and suffering? Can he or she be active in the world of humankind? Obviously, it is especially in the Christian tradition that this matter comes to the fore as a radical difficulty. For here there is the divine Image and Mediator so much so that the Humanity of Jesus ought to be integral to a person's union with God. Perhaps the Christian mystic is such an extraordinary figure that the Humanity and all other images and intermediaries are for him or her at best a stepping stone that is bound to disappear. The Riddle of Christian Mystical Experience aims to clarify this issue by analyzing the writings of such visionaries as Julian of Norwich, Teresa of Avila, and Maria Petyt, of the ecstasy-minded masters Richard of Saint Victor, Bernard of Clairvaux, and Bonaventure, describing Francis of Assisi's experience of the cream of the Flemish mystics, namely Hadewijch and Jan van Ruusbroec. Nevertheless, the preference for the mystical text does not prevent the Riddle from drawing on the insights of modern philosophers such as Jean Paul Sartre and Jean Luc Marion when treating of images and idols, or Michael Polanyi and Ludwig Wittgenstein when reflecting on intermediaries. The main result of this procedure may come as a surprise: Far from turning into a detached creature who forgets about the Humanity and the human, the full-fledged mystic is as a Flemish mystic puts it, wholly in God where he rests in enjoyment and wholly in himself where he loves with works. Experiencing union with intermediary and without intermediary, the true Christian mystic is unimaged as well as imaged upon the humanity of our Lord through heartfelt affection.
